- (2) शिक्षा शास्त्री 'बी.एड.' स्नातक शिक्षा महाविद्यालयों की दृष्टि से अध्यादेश सं. 65 (v) द्वारा शिक्षा संकाय के शिक्षकों की निर्धारित योग्यता में तथा अध्यादेश 65 (ii) जी द्वारा निर्धारित प्रिन्सिपल स्नातक शिक्षा महाविद्यालयों की योग्यता में जहां जहां एम.ए., एम.एड. तथा बी.एड. शब्द उल्लिखित है वहां वहां उसके समानांतर आचार्य, शिक्षाचार्य तथा शिक्षा शास्त्री योग्यताओं को भी समाविष्ट (इन्कारपोरेट) किया जाय ।”

Examination (*Vide Appendix-IX*).

Resolved to recommend that the proposal be not accepted.

(22) The Faculty considered the following recommendation No.5, of the Committee of Courses in Library Science, dated the 29th, August, 1978 :

"The Committee resolved to recommend that existing Committee of courses in Library Science, be replaced by a Separate Faculty of Library Science and Documentation as Library Science is a multidimensional subject. The University is therefore requested to agree in principle for establishment of Faculty of Library Science and Documentation. Till the time such a separate Faculty is actually established, it is suggested that this Department may be included in the Faculty of Social Sciences. This point is being emphasized because of the fact that Board of Studies in Library Science and Documentation can't be constituted under the University Act under the Faculty of Education due to the fact that this department is having post graduate classes and research facilities. It should have a separate Board of Studies in Lib.Sc. and Documentation."

It already *stands disposed off* vide foregoing resolution No. 8(I) of these minutes.

(23) The Faculty considered the following recommendation No.6 of the Committee of Courses in Library Science, dated the 29th, August, 1978:

"The Committee recommended that the following Ordinance may be passed by the appropriate bodies and incorporated in the syllabus at the appropriate place :-

"Those who have already passed Master's or Bachelor's Courses in Library Science or equivalent examination from any University shall not be eligible for admission to the same class".

It already stands disposed off vide foregoing resolution No. 8-II of these minutes.

(24) The Faculty considered the following proposals made by Shri V.B. Ghanekar, Basic T.T. College, Sardarshahr as contained in his letter dated the 20th January, 1979 :-

"1. बी.एड. पाठ्यक्रम के लिये निर्धारित प्रवेश श्रंक योजना में कुछ महत्वपूर्ण उपलब्धियों (योग्यताओं) की अवहेलना की गई है। प्रवेश करते समय उस योग्यताओं को निम्नलिखित श्रंक प्रदान करने का मेरा सुझाव है :-

(क) एन.सी.सी. के 'सी' सर्टिफिकेट के लिये— एक श्रंक।

(ख) Three Stars (National Physical Efficiency) के लिये एक श्रंक।

(ग) स्कार्टिंग की राष्ट्रीय जम्बूरी में सहभागी होने वाले को एक श्रंक।

2. बी.एड. पाठ्यक्रम में सप्तम प्रश्नपत्र को विशेषीकरण (Specialization) का नाम देना उचित नहीं दिखता क्योंकि पाठ्यक्रम और छात्रों के स्तर को देखते हुये, वह नाम उपहास सा लगता है। विशेषीकरण में उच्च स्तर बनाये रखना आवश्यक है। अतः मेरा सुझाव है कि विशेषीकरण (Specialization) के स्थान पर अतिरिक्त प्रश्न पत्र (Additional Paper) नाम दिया जाये।

3. बी.ए. में एक विषय "गृहविज्ञान" (Home Science) होने वाले बी.एड. प्रवेशार्थी को साधारण विज्ञान (General Science) "पढ़ाने का विषय" करके लेने की अनुमति दी जाय। विशेष अवस्था (Special Case) करके अब तक विश्वविद्यालय द्वारा कई विद्यार्थियों को इस प्रकार की अनुमति दी जा चुकी है। वैसे करने में वास्तव में कोई आपत्ति नहीं है। अतः इस पर पुनः विचार किया जाय।"

(25) The Faculty considered the following proposals made by Shri Ram Pal Singh, B.V. College of Education, Banasthali, as contained in his letter dated the 11th January, 1979 :—

1. M.Ed. degree of Himachal Pradesh University awarded through correspondence course be de-recognised for the purposes of (i) admission to Ph.D. degree and (ii) employment in colleges of Education, since it does not provide equivalence in any sense to M.Ed. regular course of our University.
2. Internal Assessment in M.Ed. courses should be added to their respective papers only when a candidate passes in the external theory examination.
3. A Coordination Committee be appointed to check the Internal Assessment on the sampling basis and reduce the variations in the internal assessment of different institutions.

The dissertation submitted by such a candidate be, however, assessed under the existing rules by one external and one internal examiner. "Under the scheme of Joint Supervision, the internal examiner shall be the person belonging to the faculty of Education. If, however, both the persons under Joint Supervision belong to the Faculty of Education, the Senior person shall be associated with the evaluation.

(28) With reference to the resolution No. 15 of the Academic Council, dated the 1st October, 1978, the Faculty considered the following resolution received from the Evaluation Officer, Association of Indian Universities, New Delhi as contained his letter No.

V/VII' (109)/78/25404-25508 dated 31-8-1978 regarding introduction of syllabus for population studies at the undergraduate level :

"The population policy of the Government of India was welcomed. It was noted that the agricultural Universities had already recommended that population education be made a compulsory subject for their under-graduate courses, *Resolved that* a model syllabus for population education be prepared and circulated to the Universities for adoption in their under-graduate curriculum."

Resolved that it be referred to the Committee appointed by the Board of Studies in Education vide its resolution No. 10 (I) dated the 29th Augus*, 1978.

(29) The Faculty considered the following proposals made by Shri Ravindra Agnihotri, G.P. College of Education, Bagar (Jhunjhunu) as contained in his letter, dated the 15th February, 1979 :—

Proposal No. 1 :

It has been observed that students who pass B.A./B.Sc./B.Com. Honours course from Delhi University, and wish to get admission in B.Ed. Class of our University often suffer a great loss. To offer them admission or deny it, depends on the sweet will of the college, because the admission rules of the University say nothing about it.

As per rules of Delhi University students of Honours Course have to study only the main subject for three years. The student is examined by the University in other two subsidiary subjects one by one each year. Thus they study these subsidiary subjects and only for one year. However, keeping in view the convenience of the students, some college of Delhi University teach one of the two subsidiary subjects of a student for two years, although the University does not examine that subject in both years. In other words, the University expects a student to cover the course of subsidiary subjects in one year only, while some colleges extend the study of this one years' course to two years.

Now in our college of Education, some students get admission because they studied (the one years' course of)

subsidiary subject for two years while others do not because the University offers it for one year only.

I think the faculty should take note of it, and prepare a uniform policy to be adopted by all its colleges.

Proposal No. 2 :

In B.Ed., we have reserved some seats for physically handicapped candidates. From my personal experience, I beg to say that this reservation is being misused. Persons who have a smaller eye than the other or have six fingers in a hand—all claim to be physically handicapped, which I think was not intended. It seems necessary that the term 'Physically handicapped' should be defined in clear style.

Proposal No. 3 :

In the last meeting of our faculty, we had a heated discussion over the so called issue of inflation in internal assessment of practice in teaching. By some honourable members of the house, it was held responsible for the puffery result of some colleges, while in turn brought a bad name to the University.

My humble suggestion is that the time of practical examination, the internal assessment should be handed over to external examiners, and they should post the marks on the same sheets. Perhaps this may check the inflation to some extent.

Resolved to recommend as follows :

(I) *Ref: Proposal No. 1 above :*

In view of the foregoing resolution no. 6 of these minutes read with resolution no. 6 dated 29th August, 1978 of Board of Studies, *no action is called for in the matter.*

(II) *Ref: Proposal No. 2 above :*

It be referred to the Committee appointed by the Faculty vide its foregoing resolution no. 9(III) of these minutes.

(III) *Ref: Proposal No. 3 above :*

The Consideration be dropped.

(30) The Faculty considered the following proposals made by Shri G.M. Yajnik, Principal, Govt. T.T. College, Ajmer as contained in his letter No. G.T.T.C./B.K.N./79/2482 dated the 24th March, 1979:

- (1) It is hereby proposed that the M.Ed. (Correspondence) degree of the University of Himachal Pradesh should be derecognized by the University of Rajasthan because:-
 - (i) It enrolls students not in hundreds but in thousands for which it is incompetent to handle.
 - (ii) There is little provision in the syllabus for dissertation as compulsory pre-requisite.
 - (iii) The real purpose of starting this course in the University seems to be money-making rather than to strive for academic excellence.
- (2) The college of Education which are flagrant and deliberately flouting the essential rules of the University must be served notices of disaffiliation from the next session and stick to it in case minimum norms remain unfulfilled by the end of this very session.
- (3) The experience of these Principals, professors, senior lecturers and lecturers etc. should be deleted for all practical purpose in case they did not fulfil the prescribed university qualifications when they joined. Steps should be taken to replace them by qualified and competent hands before the commencement of the next session.
- (4) Though fee has been enhanced to stop capitation fee corruption and other malpractices, yet some of the institutions are still in the grip of these vices. The university must find out ways and means to prevent it. Those institutions which are found incorrigible in this respect must be disaffiliated.
- (5) The content of the 'content cum methodology paper' in various teaching subjects is not set on a uniform and sound patterns i.e. in some subject content is of Sec./Hr. Sec. level whereas in other thereof degree level; in some subjects it is too much in detail while in others it is scant.

It should, therefore, be rationalized, balanced and integrated.

- (6) Earnest efforts should be made by our University to make our B.Ed. syllabus more relevant, realistic and progressive by revising and updating it. As a preliminary step a high power committee should be appointed to recast the total syllabus of both B.Ed. and M.Ed. level.

Resolved to recommend as follows :

- (I) *Ref: Proposal No. 1 above :*

It already stands disposed off vide foregoing resolution no. 25(I) of these minutes.

- (II) *Ref: Proposals Nos. 2 & 3 above:*

These proposals be accepted in principle and while granting fresh affiliations to the B.Ed. Colleges or while extending the period of temporary affiliation of the existing B.Ed. colleges, the contents of these proposal be kept in view by the University authorities.

- (III) *Ref: Proposal No. 4 above :*

The consideration be dropped.

- (IV) *Ref: Proposal No. 5 & 6 above :*

The proposals be referred to the Committee appointed by the Board of Studies in Education vide its resolution no. 10 (I) dated the 29th August, 1978.

The meeting ended with a vote of thanks to the Chair

Dear Sir,

The State Government has decided to introduce the new curriculum (at the secondary stage) from July 1979. The Rajasthan Board of Secondary Education has also reaffirmed the Government policy. One important break-through in the new curriculum is introduction of Socially Useful Productive work (SUPW) as a compulsory subject, for all pupils. It is envisaged, that separate teachers for teaching this subject will not be provided. In other words every teacher is required to be trained in SUPW also alongwith other professional theory and practice.

The question was discussed in the meeting of B.O.S. in Education also, but somehow the matter was postponed. However, I strongly feel that if SUPW is not introduced simultaneously in the B.Ed. syllabus, either the new curriculum will fail or our B.Ed. teachers will become unemployable.

In the interest of education and academic profession, I strongly feel that the Vice Chancellor may be requested to use his special powers and make S.U.P.W. as a compulsory part of B.Ed. Curriculum with effect from the examination of 1980.

A National Conference on S.U.P.W. was held at Ahmedabad from Oct. 15 to 18, 1978. The conference has given suggestive outline of courses in S.U.P.W. keeping in view our own Conditions, I am suggesting a few modifications in our existing syllabus so that some modest start may be made pending over all change in the syllabus.

Suggested modifications are enclosed for your kind consideration.

Yours faithfully,
Sd/-
(L.K. Oad)

Suggested changes in the B.Ed. syllabus to incorporate S.U.P.W. as a compulsory subject.

Under Paper I—Philosophical and Sociological Foundations of Education add Unit 6, which should read as follows :

Unit—6 Socially Useful Productive Work.

(a) Philosophical, Sociological and Psychological rationale.

(b) Place of S.U.P.W. in school curriculum.

Under Paper IV Part-A School Organization and Guidance add Unit-4 which should read as follows :

Unit—4 —Organization and Implementation of S.P.U.W.

Evaluation of Pupils' attainments in S.U.P.W.

subsequent units 4, 5 and 6 in Part B be renumbered as 5, 6 & 7 respectively Part VII the syllabus contains a number of specialization papers, which are at present additional optional. It is suggested out of these specialization papers the candidate must be required to offer any one of the following papers compulsorily:—

VIII Art and crafts

XVI Work Experience Practical on any one of the following :-

- (a) Science based work experience.
- (b) Technology based work experience.
- (c) Commerce based work experience.
- (d) Agriculture based work experience.
- (e) Industrial Art based work experience.

Remaining specialization papers may be re-numbered as paper VIII and this may be an additional optional paper.

Sir,

After working as Headmaster for a pretty long time and also working as District Education Officer, I have got a feeling that there are at least three areas where the present programme of teachers colleges fails the education system badly.

I am bringing it to your notice to kindly to bring it to the notice of the faculty members for their consideration. I am listing below the three areas :—

(1) The teachers colleges have failed to give the teachers the appreciation of the quantum of work they are expected to perform. In practice, in ensuasm of supervising each lesson, the teacher is given the idea that if he is called upon to teach sincerely, he could teach only one period a day.

In block practice also at least four periods work load is assigned. So the expectation that one cultivated are at the most work load of four periods.

When on appointment, he joins as III grade teacher the work-load assigned as seven periods a day a forty two periods a week. So he is perplened. The negative forces persuade him to believe that the working of teachers colleges was utopian and has nothing to do with reality and hence he skips regular class preparation lapsing the stage as if he were untrained.

(2) The second area in which the teachers colleges have failed the teachers is development of code of behaviour and esprit decorpse. He gathers whatever tricks he gets for heensay. There is no systematic effort to develop and inculcate mode of behaviour (i) towards fellow colleges (ii) towards headmasters and (iii) towards self-ordinates if one is called upon to preside over an institution. It results in maximum guarnets in institution and washing of dirty linen in public.

Probably in no other service, this mutual reoinination more apparant and glaring than in education.

(3) The third area where the teachers colleges have failed the profession is lack of organization of written assignment. As an eye wash a provision is made in each lesson plan for home assignment. But who shall correct is no business of teachers colleges. I have get to find a supervisor in teachers college who would call for the corrected answer books of pupil teachers and assess the quality of correction or give suggestions on remarks. In my view, it needs much more attention even if one or two lessons' supervision is skipped.

I hope you will kindly convey my views to other faculty members and convey their reactions to me.

Yours truely,

Dear Sir,

This is to bring under your kind information that the Board of Secondary Education, Rajasthan, Ajmer has prepared the courses to be followed under the scheme of 10+2 Education and the Govt. of Rajasthan will like to introduce the scheme in the State with effect from the ensuing session beginning from July, 1979.

In the light of the above, the courses of teacher education programme should be followed. The subjects like General Science and Social Studies are not in the courses of the scheme of 10+2 Education. It will be fitting that these subjects may not be allowed to be offered at the B.Ed. Examination, 1980. The whole of the Scheme of B.Ed. examination should be examined in the light of 10+2 scheme of Education and courses to be revised.

As our procedure to change the courses in a longer one, I wish to draw your attention towards this important factor, so that courses are revised without losing years together, as we have legged behind in the past.

An immediate action on your part is solicited.

“Resolved that the proposal of the Central Board of Secondary Education be Commended and circulated to the universities for appropriate action.”

ASSOCIATION OF INDIAN UNIVERSITIES

Explanatory note on the introduction of Music and Dance in the B.Ed. courses offered by universities in India.

The Central Board of Secondary Education besides framing the syllabi and courses for Secondary and Senior School Certificate Examinations, prescribes the minimum qualifications in various subjects for the teachers of its member schools, with the object of raising standard of teaching and thereby improving the quality of Education.

The Board in its efforts to popularise Music and Dance in its schools have laid down exhaustive syllabuses suiting the requirements of different regions of the country. This object cannot be fully achieved unless the teachers are adequately trained not only in the contents of Music and Dance but also in the principles of teaching and modern pedagogy.

With this end in view the Board's Committee of Courses in Music and Dance in the last meeting held on 5th January, 1978 in the office of Dr. (Mrs.) Kapila Vatsyayan, Joint Secretary, Ministry of Education and Social Welfare, Govt. of India, who is the convener of the Committee, recommended that in the syllabus of B.Ed. Music and Dance be also incorporated as the subject of teaching.

APPENDIX-VII

(Ref: Res. No. 18 of the minutes).

In Compliance of Resolution No. 4 (iii) dated the 28th Feb./1st March, 78, of the faculty of Education, the Committee comprising of the following members met in the administrative block of the University on 1st and 2nd Aug., 1978.

1. Principal, G.M. Yajnik (Convenor)
2. Principal, A.R. Sharma
3. (Mrs.) Amrit Kaur (attended only on 1.8.78)
4. Dr. M.R. Chilana (Co-opted)

Prof. Bhojak one of the members of the Committee could not attend.

The task before the Committee was "to examine and recommend where to adjust the assignments kept under sessional work of Part II i.e. the practice teaching, in the theory papers."

The Committee, after great deal of discussions, resolved as under:—

1. That it is imperative to detach the practicums from the Part II of the existing practice of teaching and attach them to Part I i.e. theory papers, as sessional work.
2. That the existing practicums i.e. assignments in Part II should be re-examined and modified (if need be) so as to make them more meaningful and relevant to the theory papers concerned.
3. That the practicums so determined should be transferred to the relevant theory papers as part of sessional work.
4. That these practicums should replace the existing essays under sessional work of theory papers and should carry weightage 5 marks only in each paper remaining 20 marks shall be meant for periodical exams.
5. That in order to have equitable distribution of practicums in each paper, some new practicums relevant to the paper were formulated and added while some were deleted to avoid overlapping or irrelevance.
6. That the student teachers would be expected to do only one practicum in each theory paper (out of three).
7. That all the assignments which form part of sessional work shall be assessed internally.

In the light of the aforesaid principles the Committee recommends that :—

1. Out of the existing practicums in "Part II Practice of teaching" the following should be deleted to avoid over-lapping and/or to have-equitable distribution :-

- (a) Assignment at No. 5 i.e. observation of behaviour and its techniques of recording.

The rational behind deleting it is that it is somewhat difficult and part of it would be covered by assignment at No. 1 (to be reworded & redefined) and No. 6, i.e. a brief case study.

- (b) Assignment at No. 9 i.e. planning and organization of Co-curricular activities.

The rational behind deleting it is to minimize No. of assignments in Paper IV. Moreover it is partly covered by assignment of No. 1 of paper IV to be reworded and redefined)

- (c) Assignment at No. 10 i.e. guidance and counselling of problem students.

The rational behind deleting it is that partly it will be covered by assignment No. 6 (A brief case study)

- (d) Assignment at no. 13 i.e. acquaintance with the books of accounts of any Commercial bank, or business House or Educational Institution.

The rational behind deleting it is that acquaintance with accounts books of any Commercial Bank or business House is more related to Commerce students rather than to all other students and acquaintance with account books of educational institution may be covered by assignment No. 8 i.e. (maintance of School records & registers).

After deleting the above assignments under (a,b,c,d,) retuining or pruning a few and reformulating some new assignment the final picture of the practicums, equitably distributed paper wise will emerge as under :—

Paper I : Philosophical & Sociological Foundations of Education:—(The existing assignment at No. 12 has been slightly modified to make it pinpointed, relevant & practicable)

1. Planning and conducting Social/ Political/Economic cultural survey of a particular section or class or School or locality or community. (Revised)
2. Critical study of any educational institution in relation to the impact of different philosophies of education. (New)
3. Study the impact of formal or nonformal agencies of education on the local community or vice versa. (New)

Paper II : Foundations of Educational Psychology :-

1. Action research. (same)
2. A brief case study (slightly modified i.e. deleted critical).
3. Administration of any one psychological test & writing its report (modified deleted)
 - (i) two
 - (ii) or educational test.)

Paper III : Current Problems of Education :-

1. Investigation of the causes and remedies of wastage and/or stagnation in a particular class or subject or school or community. (New)
2. Intensive study of any educational problem of an individual or a group and to suggest remedies thereof. (New)
3. Critical study of any experiment or innovation in the field of Education. (New)

Paper IV : School organization, guidance and Health Education:—

1. Assessment of at least 5 students in compulsory areas (regularity, punctuality, discipline & habits of cleanliness) as well as in compulsory activities (Physical, Literary or Cultural). (Revised)

2. A brief critical study of any one school activity like morning assembly, library service, school plant, Science--laboratory, N.C.C. etc. (as it is)
3. Maintenance of school records & registers. (as it is).

Paper V & VI : Content cum methodology :-

1. Construction & administration of an objective based achievement test in each of the teaching subjects. (Modified)
2. Developing programme for remedial teaching. (As it is)
3. Planning & execution of a simple experimental or developmental project relevant to each teaching subject. (New)

विषय :—शिक्षाशास्त्री का एम. एड. में प्रवेशाधिकार ।

प्रिय महोदय,

आपका पत्र क्रमांक एफ/2/3/शैक्ष./रजि./78/3295 एम. दिनांक 11-9-78 के सम्बन्ध में लेख है कि यदि किसी भी परीक्षा को किसी अन्य परीक्षा के समकक्ष स्वीकार करने से पहले यह आवश्यक है कि सम्बन्धित संकाय इससे सहमति प्रकट करें । शिक्षा शास्त्री परीक्षा छात्र-छात्राओं को एम. एड. पाठ्यक्रम में प्रवेश प्राप्त करने के योग्य मानने के लिए यह आवश्यक है कि शिक्षा शास्त्री को बी. एड. के समकक्ष माना जाये । यह प्रश्न कई बार शिक्षा संकाय की बैठक में उठा है पर संकाय ने शिक्षाशास्त्री को बी. एड. के समकक्ष पाठ्यक्रम न होने के कारण कभी भी स्वीकार नहीं किया गया । इस बार शिक्षा संकाय ने बी.एड. व शिक्षा शास्त्री के एक जैसे पाठ्यक्रम होने के प्रस्ताव को जो बोर्ड आफ स्टडीज ने अभिशासित होकर संकाय के समक्ष प्रस्तुत किया गया था, स्वीकृति देदी है । इस तरह 1980 अर्थात् अगले वर्ष शिक्षाशास्त्री उत्तीर्ण करने वाले छात्र एम.एड. में प्रवेश लेने योग्य स्वतः मान लिये जायेंगे । विदित हो कि एक जैसा पाठ्यक्रम 1980 की परीक्षा से लागू हो रहा है ।

भवदीय,

ciation of Indian Universities, New Delhi, as contained in his letter No. V/VI/(109) /78/2544-25508 dated 31-8-78 regarding introduction of syllabus for population studies at the undergraduate level was considered :—

“The Population Policy of the Government of India was welcomed. It was noted that the agricultural universities had already recommended that population education be made a compulsory subject for their undergraduate courses. Resolved that a model syllabus for the population education be prepared and circulated to the Universities for adoption in their undergraduate curriculum.”.....

(6) It was reported the Faculty that :—

(i) Under O.86-A, a candidate after passing the first year T.D.C. Examination of the University is permitted to change one of the optional subjects in the Second year T.D.C. class on the condition that he shall appear and pass in the paper(s) prescribed for the First Year T.D.C. Examination of the University in that subject. This facility to change one of the subsidiary subject is not available in the case of Honours courses, where the division of a candidate is worked out on the basis of the aggregate marks taken together of Hons. part-I, Pt. II, and Pt. III Examinations in the Honours subject only.

(ii) The Academic Council vide its Res. No. 6, dated the 15/16th November, 1978 considered extending the same facility of changing one subsidiary subject under Group 'B' in Hons. Pt. II class and to amend O.86-A accordingly and *resolved that* it be referred to the Faculties of Arts, Fine Arts, Social Sciences, Science and Commerce for consideration.

Accordingly the Faculty considered the question of extending the facility of changing one subsidiary subject under Gr. B. in Hons. Pt.-II examination.

Resolved to recommend that the facility of changing one subsidiary subject under Gr. B. be extended to the candidates appearing at the Hons. Pt. II, examination also.

(7) The Faculty considered the following proposals :

1. The matter of granting affiliation to the "Rajasthan School of Arts, Jaipur" to enable the Institute to impart teaching in (i) Two Years Pre-University Course, (ii) Three Years degree course (Bachelor of Fine Arts) and (iii) Two Years Master of Fine Arts, (as contained in the letter No. F 26(A) 48 Estt./DCE/78/82 dated 30.1.1979 from the Director of Collegr Education) (Vide Appendix I).
2. The matter of granting affiliation to the "Rajasthan Sangeet Sansthan, Jaipur," to enable the Institute to impart teaching in (i) Two years Pre-University Courses, (ii) Three years degree courses (Bachelor of Music) and (iii) Two Years Post Graduation Course (Master of Music). (as contained in lettee No. F 26(A) 48/Estt./DCE/78/87 dt. 31.1.79) (Vide Appendix II).

After a prolonged discussion on various aspects touching the Problems, the Faculty observed that (i) the communications under reference received from the Director of Education do not convey complete information on the basis of which concrete recommendations could be made by the Faculty about the proposed move to adopt the courses of study which have not yet been framed by the proposed Institutions, (ii) the communications also do not convey the quality and qualifications of teachers who are engaged in the Institutions. As far as the knowledge of Faculty goes, the Faculty observed that the persons engaged in the Institutions do not possess the required minimum qualifications as prescribed by the University for running the courses of degree level, (iii) the equipment, building and other requirements for running the proposed courses could be assessed only

after detailed information on the aforesaid two points is available to the Faculty. The existing equipment in these Institutions is not at all adequate, and (iv) the Faculty also observed that so far, degrees awarded in respect of Professional courses carry a part of syllabus touching the periphery of subsidiary subjects. The Courses of study proposed to be instituted should be framed for any such degree on the analogy of the existing practice followed by the University in respect of professional courses.

The Faculty, therefore, *resolved unanimously to recommend* that the question of granting affiliation to any of these two Institutions viz. (i) Rajasthan School of Arts, Jaipur and (ii) Rajasthan Sangeet Sansthan, Jaipur for running a professional course be deferred until detailed information on the points referred to above as observed by the Faculty is received and concrete recommendations are made by the Faculty.

The Faculty *resolved to recommend further* that the possibilities of equipping the existing Institutions and University Teaching Departments to prepare them for the courses of study for B.F.A. and M.F.A. degrees in the subjects concerned be explored by requesting the Government to provide adequate additional funds so that real Development on desirable Academic standards is possible. It will be only then that the real purpose of carving out of the Faculty of Fine Arts would be served.

The meeting ended with a vote of thanks to the Chair.

The Vice-Chancellor informed the Syndicate that the members of the Rajasthan University Non-Teaching Staff Association went on a pen-down strike w.e.f. 12th January, 1979 and declared a total strike with effect from 19th January, 1979 against the continuance of Shri Yash Pal Kapoor and Shri K.G. Arora on deputation in the University Office insisting that no person should be brought by the University on deputation because such an action mars the future prospects of the serving University employees. The said staff had been on strike from 12th December, 1978 to 20th December, 1978 also. Abolition of the practice of inviting persons on deputation was one of their demands at that time also but it was not accepted and

the President of the Rajasthan University Non-Teaching Staff Association (RUNTSA) had been categorically informed about it. The Vice-Chancellor also apprised the Syndicate about the indisciplined behaviour of some staff members on the 18th January, 1979 and the discussions he had had with the representatives of the RUNTSA in this connection from time to time.

After considering the matter at length and discussing it with the representatives of RUNTSA, *the Syndicate adopted the following resolution :*

"The Syndicate after discussing at length the situation that has developed in the wake of the strike of the ministerial staff and after discussing the issue with the representatives of the Ministerial Staff Association views with grave concern the pen-down strike of the Class III employees which has created so much of hardship for the students, teachers and the society at large *and resolves that :*

- (1) The Vice-Chancellor has done the maximum possible by agreeing to treat the persons who have come on deputation as ex-cadre so that the chances of promotion of the present employees be not obstructed,
- (2) The Vice-Chancellor be requested to examine the contention of the employees regarding the utility of the persons taken on deputation and take the final decision about their continuance or otherwise,
- (3) That the Syndicate feels that after the steps already taken by the Vice-Chancellor there is hardly anything in the demands of the employees to continue/persist in their strike.
- (4) That it appeals to the employees to come back to work forthwith in the larger interest of the University, and
- (5) That if the employees join their duties forthwith, their period of absence from duty caused due to strike/pen-down strike may be counted against their leave.

Note : Dr. H.C. Bhartiya gave a note of dissent.

The meeting ended with a vote of thanks to the Chair.

1. The Syndicate *confirmed the* minutes of its meeting held on 26th December, 1978.

ESTABLISHMENT SECTION

Section—'A'

2. The Vice-Chancellor apprised the Syndicate about the receipt of a letter dated the 6th January, 1979 received from Shri R.K. Gupta, Joint Secretary, Rajasthan University Teachers Association in which he conveyed the point of view of RUTA Executive regarding the promotion problem of the University teachers. *Vide Appendix—I.*

The Syndicate in this connection reconsidered its earlier decision taken vide its Resolution No. 5 dated the 26th December, 1978. Having considered the matter at length, the Syndicate *resolved as follows :*

- (I) the decision as contained in Sub-clause (ii) of clause (b) of para A of Res. No. 5 be *re-worded so as to read as follows :*

“To begin with the ex-cadre personal promotion shall be limited to 5% of the total number of sanctioned post in each cadre, namely, Lecturer and Reader, as on 1st July, 1978. The allocation of such posts be made department wise by the following Committee keeping in view the point of equitable distribution as far as possible :

- (1) The Vice-Chancellor
- (2) The Pro-Vice-Chancellor
- (3) Prof. Iqbal Narain
- (4) Prof. B.L. Saraf and
- (5) Shri N.M. Kothari

- (II) the Committee for selection of teachers for the aforesaid ex-cadre personal promotion be the same as laid down

under sub-clause (III) of clause (b) of para A of Res. No. 5.

(III) *add* the following sentence at the end of sub-clause (iv) of clause (b) of para A of Res. No. 5 :

“However, the ex-cadre personal promotion be continued to be made in accordance with the provisions as contained in note no. (2) appearing between S.20 and S.20-A on page 47 of University Hand Book Pt.-II as per past practice until the sanction of the State Government is received on the proposal made by the University.”

*N. B. :—*Dr. H.C. Bhartiya expressed his total disagreement with the aforesaid decisions on the issue of promotions of University teachers.

3. With reference to the Syndicate Res. No. 6 dated the 16th June, 1978 read with its earlier Res. No. 18 dated the 29th April, 1976, it was reported to the Syndicate that in addition to the Six teachers already granted ex-cadre Personal Promotion, some more teachers have completed 55 Years of age as on 31st December, 1978. and they are :

- (i) Dr. G.C. Shivhare, Reader in Chemistry
- (ii) Mrs. Savitri Narula, Lecturer in Mathematics
- (iii) Dr. M. G. Bhatwadekar, Reader in Physics
- (iv) Dr. S. K. Shukla, Lecturer in Hindi
- (v) Dr. R. C. Purohit, Lecturer in Hindi
- (vi) Shri S. R. Baj, Lecturer in Law
- (vii) Mrs. Prema Sarien, Lecturer in History
- (viii) Shri P. N. Varma, Lecturer in Chemistry
- (ix) Shri Girraj Prasad, Sr. Lecturer in Maths.
- (x) Shri R. S. Dangayach, Sr. Lecturer in Accountancy

While these persons satisfy other conditions for ex-cadre personal promotion as laid down by the Syndicate Vide its Res. No. 18 dated the 29th April, 1976 they do not satisfy the condition No. 1 to the effect that in order to be eligible for ex-cadre Personal promotion they should have reached the maximum of their grade. On the date the Syndicate adopted the said resolution, the University

teachers were drawing pay in the old scale but they have now been given benefit of pay scales prescribed by the University Grants Commission with effect from the 1st September, 1976. None of the above mentioned teachers have reached the maximum of the new pay scales. All of them are drawing pay at a stage much higher than the maximum of the relative old pay scale.

The Registrar reported that the Six persons already granted ex-cadre Personal Promotions vide Syndicate Res. No. 6 dated 16th June, 1978 also did not satisfy the aforesaid requirement.

It was, further, reported that consequent upon the ex-cadre Personal Promotions in the manner Stated above, one of the teachers has superseded other Senior colleague in the department.

The Syndicate, therefore, considered (1) a Proposal to the effect that the said condition No. 1 be suitably interpreted or revised so as to enable the teachers who satisfy other conditions prescribed by the Syndicate excepting that of reaching the Maximum of the grade be also considered eligible for ex-cadre Personal Promotion and (2) whether ex-cadre Personal Promtion could be granted to a person who is junior to other colleagues in the department meaning thereby that such a person shall skip over his seniors consequent upon his ex-cadre personal promotion.

Resolved that a committee consisting of the following may look into the matter and examine the implications of the aforesaid proposals and submit its report for consideration of the Syndicate at its next meeting :—

- (1) Pro-Vice-Chancellor, (Chairman)
- (2) Shri N.M. Kothari, and
- (3) Dr. H. C. Bhartiya.

4. The Syndicate considered the following recommendations made by the committee appointed by the V.C. Committee under the convenership of Prof. Kashi Prasad to look into all adhoc appointments and promotions of the non-teaching staff made in the University from 1st April, 1978 and onwards :

- (i) All Vacancies in the University both teaching and non-teaching which may be filled up by open market recruit-

ment should be notified to the Employment Exchange. This was a statutory requirement. Wide publicity should also be given about these Vacancies.

2. The vacancies of peons should be filled up only from the Panel of names sent by the Employment Exchange.
3. The University should reserve a proportion of vacancies in all ranks of the non-teaching staff for candidates belonging to Scheduled Castes and Scheduled Tribes.
4. No recruitment should be made on ad-hoc basis. This causes unnecessary hardship if the adhoc appointees have to be ultimately thrown out.
5. Competitive examinations, without any interviews should be held for the posts of L.D.C. The University may charge a small fee (Say Rs. 7.50 for general and Rs. 5.00 for Scheduled Castes/Scheduled Tribes candidates) for this.
6. The minimum qualification for the post of an L.D.C. should be laid down. Since ultimately most of the LDC's would be promoted to higher posts, it is suggested that the candidates should be Graduates with knowledge of type-writing.
7. If the minimum qualification for a candidate for the post of L.D.C. be kept as graduation, then Matriculate peons should not be promoted as LDC. To remove their grievances, the matriculate peons may be given a special pay after they have completed five year services or after they have passed the High School Examination whichever is later.
8. Ad-hoc promotions should be avoided as far as possible. Posts may be filled up by ad-hoc promotions only when the urgency of doing so was clearly brought out and only from among the qualified candidates and in order of seniority. Ordinarily the promotions should be given only after the recommendations of the Departmental Promotion Committees.
9. The Syndicate may consider whether high academic

qualifications are required for the posts of Asstt. Registrars, Dy. Registrars, Controller of Examinations and the Registrar.

10. The posts of UDCs and Section Officers should be filled up by promotion only, provided the minimum qualification for appointment as LDC was graduation. A proportion of posts of Section Officers should be kept reserved for promotions of Sr. Stenographers who have no other channel of promotion.

Note : The word "Matriculation" has been used in this report in the sense of Secondary or High School Examination which is held as a public Examination at the end of the 10 year of the School.

In this connection the Syndicate also considered the following suggestions made by the members in the meeting itself :

1. That ad-hoc appointments made, if any on the basis of necessity should not exceed a period of three months in any case, and the number of such appointments should be as few as possible,
2. Fee to be charged for the competitive examinations as referred to in Para 5 supra should be Rs. 10/- instead of Rs. 7.50,
3. All the temporary appointments against permanent sanctioned posts should be made by a committee appointed by the Vice-Chancellor for such duration of time until permanent appointments against those posts are made.

Resolved as follows :

- (i) The recommendation No. 9 referred to hereinabove has now become infructuous and therefore, it be deleted,
- (ii) Remaining recommendations together with the suggestions of the members referred to above be accepted in principle, and
- (iii) the existing recruitment rules be revised in the light of the aforesaid recommendations and the Registrar be

requested to put up before the Syndicate for consideration the revised draft of recruitment rules together with explanatory note at its next meeting.

5. The Vice-Chancellor read out to the Syndicate a letter dated the 28th Oct., 1978 received from Dr. G.C. Patni, Retd. Professor of Mathematics, regarding the issue of appointment of Dr. M.C. Gupta Reader; as Professor of Mathematics in this University and his subsequent reversion to the post of Reader.

Resolved that the contents of the letter be noted.

N. B. : Shri M.L. Joshi dissented stating that the opinion of the other members of the Selection Committee should be obtained on the Letter of Prof. G.C. Patni.

(Ref. Res. No. 2 of the minutes of the meeting of the Syndicate dated 6-1-79)

Copy of letter dated 5-1-79 received from Shri R.K. Gupta, Joint Secretary Rajasthan University Teacher's Association.

To,

The Vice Chancellor,
University of Rajasthan,
Jaipur.

Dear Sir,

With reference to our talk on 3rd Dec., 1978 in connection with the promotion problem, the 'RUTA' executive has directed me to convey the following :—

1. The persons eligible for promotion should be assessed by a University Promotion Committee as envisaged in the earlier Syndicate Resolution dated 16th June, 1978.
2. The selection by a statutory selection committee is contrary to the principal of promotion.
3. The promotion should be cadre-wise and not department-wise to avoid obvious anomalies.
4. The quota of 5% promotion for 1977-1978 session should be implemented without delay.
5. Ex-Cadre promotion under the existing provision be continued.

With kind regards.

Your faithfully
(R. K. Gupta)
Joint Secretary.

SYNDICATE MEMBER

No. 499

Dated :

The Vice-Chancellor,
University of Rajasthan,
Jaipur.

Dear Sir,

The number of complaints received by the University from the teachers, students and employees of the private colleges has gone quite high during the last one year. These complaints very often relate to excesses done to teachers and employees and financial academic and administrative irregularities perpetrated by the College managements. The University has a direct responsibility for exercising an effective control over the general working in the affiliated colleges so as to ensure the maintenance of a satisfactory academic standard.

The University enjoys enough authority for supervision and exercising control over the managements of the private colleges under the provisions laid down in the University Hand Book. However, it is a painful experience that the erring managements of various colleges such as L.B.S. College, Jaipur, Nehru Memorial College, Hanumangarh, Banasthali Vidyapeeth, Banasthali, M.B. Todi College, Laxmangarh etc have flagrantly defied the directions issued to them by the University from time to time. Such open defiance by the managements of the above mentioned colleges have reduced the University control to shambles and mockery.

It has, therefore, become emergent to review the relevant provisions laid down in the University Hand Book and to find out ways and means to make the University. Say more effective, in the matters of the private colleges which ultimately adversely affect the academic aspects.

May I, therefore, urge upon you to constitute a high level committee to go into the above mentioned aspects of the private colleges and submit its report within a specified time ? Meanwhile, the University should take some effective measures to prevent the defaulting private colleges from persisting in their irregular and autocratic ways. There are some colleges which have defaulted so grievously that they deserve even disaffiliation.

With kind regards,

Yours faithfully,
Sd/-
(H.C. Bhartiya)

Committee).

Terms of Reference :

The terms of reference of the Committee were as follows :—

1. To identify weaknesses and lacunae in the present set up and services of the library system and to suggest remedial measures for them.
2. To identify what further services the library system ought to render in phased stages to its patrons and to suggest ways and means to be adopted to that end. (In this connection it may be noted that the University has recently purchased a Xerox Machine and Microfilm equipment at a high cost which are yet to be put to use).
3. To advise as how the additional space now provided through extension to library building be put to the best possible use.
4. To evaluate the present staff structure and organisation, its adequacy or otherwise, designations grades and emoluments. internal promotion policy etc. of the Library and to suggest means to ensure maximum job satisfaction in place of growing frustrations which the staff at present seems to harbour.
5. To advise regarding the policy to be pursued in stock-taking of publications in the library. (It may be noted that since its inception no such exercise has been undertaken).
6. To advise regarding the disposal of an increasing number of publications, which are surplus to the normal requirements of the library.
7. To evaluate the publications activity of the University library and to provide over-all guidelines for the future.
8. To suggest remedial measures to halt losses suffered by the library owing to a variety of un-social activities.
9. To suggest well defined norms for allocation of recurring book grant for the various subjects instead of the present *ad-hoc* approach.

10. To recommend the nature of relationship that ought to subsist between this library and other units of the University.
11. To recommend steps to reform the present arrangement of technical processing of the library books, since two different editions of classification scheme are being followed since the last 10 years. In this context also to decide the cataloguing procedure of books in Indian languages which are now being catalogued in an unstandardised Roman script.
12. Any other matter which the Committee may consider impinges on the proper functioning and development of the library system.

The terms of reference were quite comprehensive and they could also be interpreted quite liberally. As Dr. R.C. Mehrotra, the then officiating Vice-Chancellor put it in the inaugural meeting, "that the formal terms of reference have been drawn up for this committee, yet I would suggest that apart from these terms the Committee should feel free to discuss and advise on any other matter which it considers relevant"

Committee Meetings :

The Committee 6 meetings were held on January 27, 1973, March 17, 1973, April 21 and 22, 1973, February 9 and 10, 1974, April 12, 13 and 14, 1974 and February 25, 1975.

Approach :

The Committee examined the notes and position papers submitted by the Director of University Libraries, Jaipur, information made available by the office of the Registrar, University of Rajasthan and responses of teachers in the affiliated colleges and in the University through a printed questionnaire (*Annexure-II*). The Committee visited the various University College campuses and departments. Discussions were also held separately with representatives of teachers, students and various categories of staff in the University library.

The Committee submitted an interim report on February 10, 1974 on some issues which needed immediate attention (*Annexure-III*).

Rajasthan University Library : An Overview

The Rajasthan University library was established at Kaisargarh in 1949 in a corner of the office of the first Vice-Chancellor of the University. The library system consisted of a Central library, supplemented by book-collections in the erstwhile teaching departments. The nucleus began to take shape with the establish-

ment of a book-collection in the department of Economics in July 1949. The following year, two more collections were added with the establishment of the departments of Philosophy and Geology at Jodhpur and Udaipur respectively. In 1953 the University started a department of History at Jaipur and it took over the Rajasthan Government Law College. In 1960 the departmental collections of Economics, Philosophy and History were merged with the Central library.

At present the Rajasthan University library forms a system consisting of the Central library, the departmental collections of Botany, Zoology (shifted to Jaipur in 1963 and 1962 respectively), Geology (at Udaipur) and Law, as also the libraries of the four college campuses (Under-graduate wing) of the University. There are also sizeable collections of books in Gandhi Bhawan and Chhatra Sadan. The journal, collection in Chemistry is located in the department of Chemistry.

Library Building and its extension :

The library from a modest beginning has passed through several phases of improvised locations. In August 1957, the University shifted from Kaisargarh to the new campus in Bapunagar and was located in the academic block. The library shifted to the Present building which was formally inaugurated on October 2, 1959 by the late Prime Minister, Jawaharlal Nehru. Facing the administrative block the library now occupies a double-storeyed building. The total cost of construction of the building and equipment came to about Rs Seven Lakhs, of which the U.G.C. contributed four lakhs. The 33,605 sq. ft. floor space (235' x 143') of the library was designed to accommodate about 2 lakh volumes and some 200 readers. There are two reading halls (70½' x 53 each) one each on the ground and first floor. A reading hall, a delivery hall (foyer 26' x 26') and an administrative wing are also located on the ground floor. Above the administrative wing, on the first floor there is a committee room. The basement was designed to house a 'bindery' and rare, out of-print books. The stacks are situated opposite the delivery hall (foyer) and consist of a tier of four magazines one above the other, each 74' x 43½'.

With the increase in the number of students, research scholars and teachers and the opening of new departments, demands on the resources and services of the library grew well beyond the original stipulations. Consequently, in 1964 the U. G. C. accepted the proposal to extend the building at a cost of Rs. 12 lakhs. The extension work was to be completed in two stages. The first stage comprised 4 stacks (each 74' x 43½') to house about 2 Lakhs additional volume, 2 large halls (one under-ground) and 4 other medium size halls (one of them being in the basement). The construction of the 1st stage is now complete. The second

stage of the extension which is to comprise a research block (with about 75 independent cubicles), an art gallery and an auditorium is to follow.

Extension Library :

In November 1961, the library started an extra campus service by establishing the Rajasthan University Extension library at Udaipur. But in view of the amendment in the Udaipur University Act, changing its pattern from a unitary to a multi-faculty set-up, the Extension library, with all its assets was handed over to the Udaipur University.

Librarians :

Prof. M.V. Mathur was the first librarian of the Rajasthan University Library. He looked after the library as Hon. Librarian till 1953. From 1953 to 1960, Dr. D.L. Gupta, Reader in Economics held that position. Prof. S. Bashiruddin took over as full-time University Librarian on January 15, 1962. Prof. Satish Chandra became Honorary Librarian in January 1964. The present University Librarian, Shri N.N. Gidwani has also been designated Director of Libraries, University of Rajasthan.

Collections :

On June 30, 1974 the library had a total of 229255 publications including books, reports manuscripts, and microfilms (*Annexure IV*). The library has a Journals Section which receives about 2000 journals covering a wide range of subjects. There are about 2500 reference tools displayed on open shelves in the Reading Hall on the first floor. The library acquires important reports issued by various government departments/ministeries in India and abroad, and also by various Institutions of higher learning. The library keeps one or two copies of every doctoral thesis approved by this University. There are nearly 6614 such thesis. The library also possesses a collection of rare and out-of-print books. The library has a collection of books, periodicals and reference works on fine arts, architecture, sculpture and paintings of India and other countries. A few original paintings have also been acquired. The library possesses a small collection of gramophone records, wall maps, micro-films and manuscripts (*Annexure V*).

Aub Collection :

This collection of over 8000 documents pertaining to 1870-1945 period was acquired from the Residency Office at Mt. Abu in 1954. It is considered a priceless source material for research.

Finance and Personnel :

The following table shows the book-grant given to the library during 1955-1975 :

1965-66	160000
1966-67	179500
1967-68	220000
1968-69	221000
1969-70	225000
1970-71	235000
1971-72	253000
1972-73	280500
1973-74	327500
1974-75	468000

A detailed tabular statement of subject-wise break-down of book grants since the inception of the Central Library is given in *Annexure-VI*.

The library also received a book grant of about Rs. 15 lakhs from the U.G.C. during the Fourth Five Year Plan. Detailed subject-wise break-down of this grant as also of book grants received from the U.G.C. in earlier Plans are given in *Annexure-VII*.

A statement of budgetted grants under various heads for all the units of the library system of the University for the financial year 1973-74 is available in *Annexure-VIII*.

The Central library had on April 1, 1973, a total staff of 99 persons. A detailed category-wise statement, with existing grade is given in *Annexure-IX*. A consolidated statement of the sanctioned posts in the various units of the entire library system is given in *Annexure-X*.

Services :

The more important services that the University library renders are listed below :

Working days and hours : The library remains open throughout the year, (except for five days) from 9 a.m. to 9 p.m. on working days and from 11 a.m. to 5 p.m. on Sundays and other holidays.

Borrowing facilities (Main Counter) : The book-issue counter starts working half an hour after the opening time and suspends working half an hour before the closure of the library.

Reading facilities on the premises : Free access is provided to books kept in the 1st and 2nd stack halls. Free access is also available to reference books and current issues of periodicals, displayed in the reading hall on the first floor.

The materials to which access is controlled are being serviced through two points: one the text-books counter in the reading hall

on the ground floor and the other the periodicals counter on the first floor. Books and other documents and reading material are issued for consultation on the premises from these service points against membership identity cards only.

Text-books counter : Books from this counter are issued to students and teachers for a week only. Books marked 'counter book' are not loaned out. Usually one copy of each book kept in this section, carries the marking 'counter book' so that one copy of each of the text books is generally available for consultation in the library.

Periodicals counter : It looks after service of back files of journals and newspapers, theses, Abu Collection, reports, works on fine arts, out-of-print and rare books, pamphlets, older editions of reference books, reserve Hindi collection, books in sets and maps.

Inter-library loan : The library provides this facility from other libraries in India and abroad on the basis inter-library loan service. All postal charges are defrayed by members concerned. Similarly, the library also sends out books to other University libraries on inter-library loan.

Special accommodation facilities for research scholars and teachers : Till recently a Standing Committee appointed by the Vice-Chancellor used to allot improvised cabins to research scholars. The library had only ten such cabins which accommodated 20 research scholars. Research scholars were also entitled to make use of the hall on the first floor where lockers were available. Now research students and teachers are allotted the reading hall on the ground floor in the new extension which has more space and better facilities of seating.

Reference and bibliographical services : There is no formal Information/Reference Service desk in the library. This service is being provided by the members of the library staff as and when necessary.

Documentation/Indexing Services : The library has, from time to time, compiled and published bibliographical tools of academic interest. Some of them are : Select Bibliography of Panchayati Raj, Planning and Democracy (1964) Union Catalogue of periodicals available in the Libraries of the University of Rajasthan (1965), Select Bibliography on Indian Government and Politics (1965), Catalogue of Theses and Dissertations (1948-1965) submitted to the University of Rajasthan (1966), Union Catalogue of serials in Academic Libraries in Rajasthan (1968), Reading in Contemporary Political Science—A Select Bibliography (1969).

Index India and Hindi Sandarabli : The library has been bringing out *Index India* since 1967 regularly. This is a quarterly documentation list of material relating to India in English, combining in one sequence Indian Newspaper Index, Index to Indian Periodicals, Index to Composite publications, Index to Book Reviews, Index to Theses and Dissertations, Index to Biographical Profiles along with author and subject indexes. Another venture is *Hindi Sandarabli*—an Index to select fifty outstanding Hindi periodicals. Two annual issues for the years 1969 and 1970 have been brought out so far.

Extension Activities : The Library has been organising professional seminars (like the first University Librarians' seminar which was held in Jaipur) and arranging various Book Exhibitions, Art Exhibitions, Paintings (from Art books) on some particular school of art. Proceedings of Seminars of College Librarians (1965 and 1967), Manual of School Librarianship (1965), Proceedings of the First National Seminar of University Librarians (1966) have also been published by the University library.

Children's Library : For the benefit of the children of Jaipur city a separate Children's Library has been located in the library. This section has a collection of about 6000 books both in English and Hindi (Appendix-XI). Several journals for Children are also being subscribed.

Reprographical Services : Xeroxing and microfilming units have been recently installed in the library and have been put into use. Micro-film Readers are also available for use by researchers.

The various services that the library renders are governed by a set of rules which are modified from time to time (Appendix-XII).

Performance Review : The library has also compiled a detailed performance review over a quarter of a century (Appendix-XIII). We are also giving an Appendix-XIV. Annual report of the library for 1973-1974.

The University Library System :—

The University of Rajasthan Library system comprises of the following units :

1. University Central Library.
2. Library of Maharani's College Campus
3. Library of Maharaja's College Campus
4. Library of Rajasthan College Campus
5. Library of Commerce College Campus
6. Library of School of Law Studies
7. Departmental collection in the Univ. Deptt. of Botany
8. Departmental collection in the Univ. Deptt. of Zoology

9. Departmental collection in the Univ. Deptt. of Geology (Udaipur).
10. Departmental collection in the Univ. Deptt. of Chemistry
11. Library of Gandhi Bhawan
12. Inter-Hostels library
13. Library of Registrar's Office
14. Library of the Work-shop of the Deptt. of Library Science
15. Library of the Institute of Correspondence Studies (Graduate)
16. Library of the Post-graduate Correspondence Studies
17. Library of the Department of Business Management (Institute of Management)

The Committee visited most of the above mentioned libraries. The Committee was given to understand that three Study Centres have been sanctioned by the UGC and that necessary steps are under way to fulfil the formalities in their regard. Some of the departments also have useful collections of books and journals.

According to the University Auditors' report for the year 1971-72 the total book value of publications in various units of the library system was Rs. 5708779/-. Separate unit-wise details are provided in *Appendix-XV*.

In the above context the Committee also considered a note provided by the library (*Appendix-XVI*).

It was also noted that the Central library acquires and technically processes books for itself as well as for the departments of Law, Botany, Zoology, Chemistry, Geology (Udaipur) and Gandhi Bhawan. Libraries of Library Science Department, constituent colleges as also those of Institutes of Correspondence Studies and Business Management acquire and technically process books at their own end.

REQUIREMENTS AND RECOMMENDATIONS

We would now turn to offer our analysis of the requirements of the library to-day which we are naturally deleneating against a perspective of tomorrow together with the suggestions that we want to make to meet these requirements.

1. Systemic Requirements :

The Review Committee feels that the library system needs

streamlining both from organizations and procedural angles. The Committee would like to recommend in this connection :

1. All the libraries that are run under the supervision of the Central Library should collectively form the University Library system.

2. The Director of University Libraries should be the executive head of the system with administrative and financial powers statutorily vested in the Head of a department.

3. A Teaching-wing Library Committee should over-see the proper functioning of this system by formulating proper policies.

4. The Central Library should exclusively concentrate on building up a model collection which would subserve requirements of post-graduate studies and research. Its acquisition policy, therefore, should primarily be geared to this end. Acquisition and processing of under-graduate material should normally not be made in the Central library. It should be taken care of by the concerned campus libraries.

5. The libraries attached to the School of Law Studies, the Department of Geology (Udaipur) and Poddar Institute of Business Management Institute of Correspondence Studies be allowed to acquire and technically process books at their own end. This policy should also be followed *in case of other unit libraries*. However, *technically qualified personnel be provided wherever required*.

6. The Director of Libraries, as Head of the System, should have the power to make inter-unit transfers of professional staff (in Jaipur) in the interest of proper functioning of the system.

7. A centralised union catalogue of periodicals holdings of all the libraries of the system should be maintained in the Central Library.

8. In the budget books of the University, the total grants made to all the libraries of the system and professional staff attached to them should be shown in a separate appendix. Similarly, in the *Annual Report of the University an independent consolidated chapter in regard to the progress made by all the libraries of the system during a year should be included*. The present practice of identifying this information by units of the system individually in Annual Reports does not give an over all picture of the developments of the system.

A Three Tier Management System :—

We recommended a three tier management for the entire University library system as per details given below :

1. A Library Committee for the entire University comprising of not only the teaching wing of the University but also of all the colleges affiliated to the University through out the State,
2. A Library Committee for the post-graduate teaching wing of the University.
3. Local Library Committee to over-see the organisation and administration of libraries in sub-campuses/departments of the University, as the case may be.

The composition and functions of the three Committees will be as follows :

The first Committee which may be called *University Library Committee* may consist of the following members :

1. The Vice-Chancellor (Chairman).
2. The Director of College Education.
3. One Library expert (to be appointed by the Vice-Chancellor on advice of the Director of Libraries for 3 years).
4. The President/Secretary of the Rajasthan University College Teachers Association (RUCTA) for 1 year.
5. The President/Secretary of the RUTA—for one year.
6. Two University Deans by rotation to be appointed by the Vice-Chaneellor for one year.
7. Two members of the Academic Council belonging to affiliated colleges to be elected by the Council for 3 years.
8. Two other members to be appointed by the Academic Council for 3 years.
9. Two student members to be nominated by the Vice-Chancellor from amongst those securing highest marks at the University examination for one year.
10. One research scholar from among the Senators to be nominated by the Vice-Chancellor for one year.
11. The Director of University Libraries (Member, Secretary).

The functions of the committee will be :

- (a) to advise the Academic Council/Syndicate regarding library norms about minimum book grant, size of the

accommodation, staff structure, grade and emoluments.

- (b) to arrange for and receive reports of periodical inspections of libraries (at least once every five years for each unit);
- (c) to call for a certificate from the Heads of colleges to the following effect :
"This is to certify that the library of this Institution has been functioning during the year under report as per the norms approved by the University Library Committee" and
- (d) to attend to any other function assigned to or by the Syndicate.

The Committee shall meet at least once a year and submit its minutes to the Academic Council.

The Second Committee which may be called the Post-graduate Teaching Wing Library Committee may consist of following members :

1. The Vice-Chancellor.
2. Two Deans of University Studies to be appointed by the Vice-Chancellor for 3 years
3. The Director of Education.
4. One Library Expert to be appointed by the Vice-Chancellor on the advice of Director of Libraries.
5. The President/Secretary, RUTA.
6. One Research Scholar to be nominated by the Vice-Chancellor for one year.
7. Two students from amongst the panel of students securing maximum marks at the University examination and who are also currently on the rolls, to be appointed by the Vice-Chancellor for a period of one year.
8. Three teachers from the University Teaching Departments to be appointed by the Academic Council for a period of 3 years.
9. One person from the special category of members of the University library to be appointed by the Vice-Chancellor for a period of one year out of a poster to be submitted by the Director of Libraries.
10. One member to be coopted by the Library Committee.
11. The Director of University Libraries (Member Secretary.)

The Post-graduate Teaching Wing Library Committee will (a) decide the policy of the library from time to time with respect to the development of the library facilities in support of teaching and research; (b) make appropriate plans for the development of library and for the organisation of library resources and services in the light of suggestions from the librarian and review implementation of the programmes; (c) make rules governing the conduct and usage of the library; and (d) meet at least once every six months or at such other times as may be determined by the Library Committee or by the decision of the Chairman.

The minutes of this Committee shall be reported both to the Academic Council as also to the University Library Committee.

The third tier may be identified as *Local Library Committees*. The Heads of local institutions shall set up these Committees.

The Committee will consist of the following :

1. The Head of the Institution (Chairman).
2. Three teachers to be appointed by the Head of the Institution for two years (by rotation).
3. Two students representatives ¹(from the list of students securing maximum marks at the University examinations who are also currently on the rolls).
4. Director of Libraries or his nominee.
5. Not more than 2 members co-opted annually by the Committee.
6. Library Incharge of the Institution (Member Secretary).

The Committee will oversee the proper functioning of book collections under their charge and make rules for the maintenance conduct and usage of the library. The minutes of this committee shall be submitted to the Post-graduate Teaching Wing Library.

The Librarian :

The University Librarian holds a statutory office under the act of the University. He has been concurrently designated Director of University Libraries since 1964, though his duties and powers in that context have not been spelt out clearly. He is also an ex-officio member of the Senate, the Research Board and the Publications Board.

We recommend that the University Librarian should be deemed *and treated as an Academic Officer* of the University. This

has been accepted in an implied fashion because the Syndicate has allowed grant of academic leave to the University Librarian, much in the same way as it is allowed to other teachers.

The designation of the Director of University Libraries should be changed to that of Dean of University Libraries. This change is desirable in the context of the recommendations made by us elsewhere about setting up of a full fledged University Library system. The University Librarian should *also be an ex-officio member of the Academic Council (which sets up library committee and to which the Library Committee submits its minutes)*. Minutes of all Boards of Studies should be sent to the Director of Libraries for his observations regarding availability of books prescribed and recommended in the syllabi.

2. Space Requirements :

At present the display of current journals and collections of reference material are located in one main hall on the first floor. These two need to be housed and serviced separately.

There are also requests for provision of :

- (a) A music room
- (b) A sound-proof room for typing
- (c) A sequestered (sound proof) area for blind scholars.

The library's present record room is too small to hold the past records of the Library. A bigger record room is needed. Policy regarding weeding out of old/dead records ought to be clearly spelt out by the University.

The library does not have adequate storage area where old and surplus furniture and equipment which is not in active use could be properly stored. The University Engineer may be approached for giving suggestions in this regard.

The Director, South Asia Studies Centre, has requested for providing proper and adequate space for documentation section of the Centre. This has been tentatively provided for but the University will have to find adequate funds for it as it is an expanding concern and its efficient working is atleast partly linked with space.

We find that the University Central Library does not have adequate provision for lavatories. The University Engineer may be requested to take remedial measures.

In the plans for future development of the library building there should be provision :

1. A retiring room for ladies
2. A smoking room

3. A staff retiring room
4. A lounge where library users could relax
5. An area where new arrivals could be displayed for browsing.

We now turn to certain specific needs :

Cycle/Scooter/Car Stand : We welcome the provision of paved flooring around the lawn facing the library for parking of cycles, though they continue to be placed all over the frontage of the central library. We recommend that this paved area be provided with a covered shed to be used as a cycle stand. We also recommend that the area adjoining the lawn be converted into a proper car and scooter/moter cycle parking area.

Property Counter : Owing to increasing influx of library users, the space available for property counter at the entrance of the Central Library is found inadequate. Since there is no other area this can be accommodated, we recommend that separate arrangement for property counter be made outside the library. It will be desirable to contract a big enough room adjoining the proposed cycle stand facing the steps of the library. The library users will thereby be able to park their vehicles and deposit their articles against tokens.

Issue Counter : Similarly, the present issue-counter at the entrance has proved to be inadequate for the increasing number of library users. We recommend that it be converted into a Reception/Enquiry counter. A separate running counter be set up in front of the entrance of the three doors leading to the stacks on the ground floor. Further the material in the first floor stacks should be shifted to the ground floor stacks and vice-versa. This would increase the efficiency of the library and also bring about a more effective control over the book stacks. It would also facilitate the use of the new research hall now functioning in the extension part of the library.

New Hall : We recommend that the new main hall on the ground floor of the extended library building be furnished suitably and made available for use by teachers and research scholars. The hall may be get suitably air-cooled. Admission to this hall may be on request in writing, screened and approved by a Standing Committee to be set up by the Post-graduate Teaching Wing of the Library Committee for this purpose. A report of all publications taken from other parts of the library for study in this hall may be maintained by the library staff at the entrance for the convenience of other readers requiring the same material. A minimum staff of two Junior Technical Assistants (one for each of the two shifts) will have to be provided for this new/additional service. The Standing Committee referred to above may also frame rules and

(II) *Ref : Recommendation of the Assessment Committee for the post of Reader in Economics :*

In the course of the meeting of the Syndicate itself, the Registrar brought to the notice of the Vice-Chancellor the receipt of an order of High Court of Judicature restraining the University of Rajasthan any of its bodies from approving the recommendations of the Assessment Committee, if any, till further orders

Resolved that in view of the stay order from the High Court the consideration of the recommendations of the above Assessment Committee be held in abeyance.

6. The Registrar reported that :

- (i) The orders of the Vice-Chancellor sanctioning an allowance of Rs. 150/- p.m. to Shri N.N. Gidwani for working as Editor of Index India in addition to his normal duties with retrospective effect from 1st January, 1972 were reported to the Syndicate at its meeting held on the 29/30th April, 1979 when the Vice-Chancellor informed the Syndicate that there appears to be some mis-understanding in respect of orders passed by him in this regard and desire to re-examine the matter
- (ii) The Syndicate vide its Res. No. 56 of that date resolved that the information given by the Vice-Chancellor be noted and the final orders passed by the Vice-Chancellor be brought before the Syndicate.
- (iii) Shri N.N. Gidwani was granted a token lump-sum honorarium of Rs. 1,000/- per annum from 1st January, 1967 to 31st December, 1971 out of Index India Funds vide Syndicate Res. No. 2, dated the 25th April, 1972.
- (iv) No honorarium was paid to Shri Gidwani after 31st December, 1971 and he brought this fact to the notice of the Chairman, Index India Advisory Committee vide his letter dated the 13th March, 1978.

The data above shows that the number of class IV employees is larger than the number of professional and non-professional (Class III) staff put together.

In addition to inadequacy of posts at the upper level, it was reported that there has been stagnation of personnel at different levels for lack of promotional opportunities which was naturally adversely affected the performance of the library in qualitative terms :

	Librarian	Deputy Librarian	Assistant Librarian	Technical Assistants	Jr. Tech. Assistants	Total
1964-65	1	1	4	4	4	14
1969-70	1	1	4	7	7	20
1974-75	1	2	4	7+1	8+2	25

Particulars of sanctioned staff for the period 1968-69 to 1973-74 are given in *Annexure XIX*.

Also that upgrading of one post of Asstt. Librarian to that of Dy. Librarian (accepted in 1972-73 and incorporated in the table given above) has not yet been implemented for want of administrative sanction. *This needs to be implemented immediately.*

We would like to probe into staff position at length here to set a perspective for correctly delineating Staff requirements.

Professional Staff : with the sanction of three additional posts in 1974-75 (assuming administrative sanction) the category-wise break-down under this head works out as under :

Librarian	Deputy Librarian	Asstt, Librarian	Technical Assistant	Jr. Tech. Assistant	Total
1	2	4	7+1	8+2	25

The Ranganathan formula given in the UGC publication on libraries recommends the following provision of professional staff under various categories :

Librarian	Dy. Librarian	Assistant Librarian	Technical Assistant	Jr. Tech. Assistant	Total
1	6	11	12	15	45

- (v) Shri Gidwani also wrote a letter on the 23rd November, 1978 to the Pro-Vice-Chancellor reminding him about the payment of honorarium to him and requesting an early decision in the matter.
- (vi) The Pro-Vice-Chancellor proposed that a sum of Rs. 150/- per month be granted to Shri Gidwani for working as Editor of Index India and this proposal of the Pro-Vice-Chancellor was accepted by the Vice-Chancellor on 6th February, 1979.
- (vii) While accepting the recommendation of the Pro-Vice-Chancellor, it was not in the notice of the Vice-Chancellor that Shri Gidwani was not getting the payment since 1972, and he only agreed to the increase of remuneration from Rs. 1,000/- per annum to Rs. 150/- per month. By his agreement the Vice-Chancellor never meant to pay Shri Gidwani the increased remuneration or current remuneration from 1972.
- (viii) On the basis of sanction given by the Vice-Chancellor on office order No. EMR/Estt./1163 dated the 19th February, 1979 was issued by the office, in which it was stated that the payment of allowance will take effect from 1st February, 1972. This was also done under a mistaken impression because the earlier honorarium granted to Shri Gidwani was upto 31st December, 1971.

In this connection the Vice-Chancellor apprised the Syndicate about the mis-interpretation of the orders passed by him under which the payment of arrear has been made to Shri N.N. Gidwani.

The Syndicate, therefore, considered the matter with regard to the payment of honorarium to Shri N.N. Gidwani and *resolved* as follows :—

- (i) The orders passed by the Vice-Chancellor with regard to the increase in the rate of honorarium to Rs. 150/- per month, be treated as valid for the payment to be

Class III Administrative Staff : The total strength of grade III administrative staff in the library was as under on 1-4-74 :

Stenos	Account	UDC	LDC	LDC-Artist	Staff for Micro-film unit	Total
--------	---------	-----	-----	------------	---------------------------------	-------

2	1	2	19	1	3	28
---	---	---	----	---	---	----

Five years ago (1969-70) the quantum of staff under these categories was as under :

2	1	1	17+2	—	24
---	---	---	------	---	----

It would be noted that, since the micro-film unit came into existence in 1973-74, during the entire period of five years (1969-70—1974-75) only one post of LDC was created with a view to upgrading it to that of UDC as against 18 new posts created in Class IV grade. In this context the following proposals were considered for creation of posts in Class III grade :

Assistant Registrar	1
Section Officer	1
UDCs	5
LDCs	2
	<hr/> 9

However, we suggest a revised scheme as follows :

Section Officer	1
Steno	1
Sr. Assistant	1
UDCs	4
LDCs	2
	<hr/> 9
Total	9

This staff may be distributed as follows over the five year period :

	Section Officer	Senior Assistant	Steno	UDC	LDC	Total
1975-76		1		1		2
1976-77	1		1	1	1	4
1977-78				1	1	2
1978-79				1		1
						<hr/> 9

Class IV Staff : In regard to Class IV Staff it was argued that 25 additional posts in various categories be sanctioned. We

made from the date of order i.e. from the 6th February, 1979 upto the date of retirement of Shri Gidwani i.e. upto the date of 28th February, 1979.

- (ii) The Vice-Chancellor be requested to review the claim of Shri Gidwani for payment of honorarium for the work of Index India for the period from 1st January, 1972 to 5th February, 1979.
- (iii) The payment of arrears made to Shri Gidwani under mis-apprehension and mis-interpretation of the orders of the Vice-Chancellor be recovered from Shri Gidwani in the light of the aforesaid resolution Nos. (i) & (ii).
- (iv) the recovery of the excess payment made on account of honorarium retrospectively be made only after a decision with regard to the resolution No. (ii) above is taken by the Vice-Chancellor.

7. The Vice-Chancellor apprised the Syndicate about the difficulties posed by the teachers of University Law Department in doing examination work during the summer vacation. He also apprised about the discussion which took place between him, the Administrative Deans, and also the senior teachers of the University Law Department.

On the basis of the discussions, the Syndicate considered a proposal to the effect that payment for the number of days of compensatory leave admissible to teachers who are called upon to do the examination work during the summer vacation of 1979 be made.

Having considered the matter in detail the Syndicate *resolved that* (i) as agreed to by the Senior Teachers of the University Law Department, such teachers of the University Teaching Departments as are required to do examination work during the summer vacation be granted Compensatory leave to the extent admissible in terms of the provisions of clause No. 27(i) of O.358 of the University Hand Book Part II. (ii) in order to enable the teachers to avail of the Compansatory leave, about 2/3rd of the number of teachers in the department of Law be permitted to

The grade of lettering artist in the Central library should be same as that of a Jr. Technical Assistant in view of the required qualifications and the technical nature of his work.

We further recommend that the grade of the professional staff of the library should not be less than the grade prescribed by the UGC in this behalf.

In-service Training : We are of the view that increased facility for inservice professional training should be provided to the library staff. We understand that every year 3 persons are deputed from the Central Library for acquiring professional training. 2 at the Certificate level and 1 at Degree level. We are informed that these persons have to be utilised their earned leave or leave without pay to be able to attend to these courses.

Opportunities for Higher Professional Qualifications : We are also of the view that increased opportunities for higher professional qualifications should be provided to the library staff with that and in view we recommend that

1. Evening classes for courses in Library Science at all levels, certificate, Degree and Post-graduate, be organised so that members of staff the library system may avail themselves of this without taking extended leave. We understand that at the Certificate as well as the Degree level there are two sections functioning at present. We recommend that one of these be run in the morning and the other in the evening.
2. Wherever full-time study is desirable, adequate provision of study leave be made available to the personnel concerned.
3. In addition to the quota of three persons now allowed every year (to improve their professional qualifications), at least one person be encouraged to undertake Master's Course in Library Science every year.
4. The University library be provided with substitutes at all levels in place of persons granted leave for betterment of professional qualifications so as to ensure that the library service is not adversely affected.

5. REQUIREMENT FOR IMPROVING LIBRARY SERVICES:

We now turn to discussing these needs of the library which, if met, will improve its services. Reprography Service: The Committee considered two notes submitted by the University Librarian regarding the reprography service rendered by the University Central Library (*Annexure XX* xeroxing and *XXI* : to micro-filming).

avail the Compensatory leave from the 16th August, 1979 onwards and the rest of the teachers be granted compensatory leave by turn later so that it may not affect the interest of the work of department adversely as also the interest of the temporary teachers without modifying the general policy of the University in their regard, (iii) the teacher, concerned be paid remuneration for the work as per University rules, (iv) the consideration of the payment of cash for the number of days of compensatory leave earned by the teacher concerned on this account *be postponed* and in the meanwhile a reference be made to the Director of College Education for considering the matter and suggesting suitable measures to be taken which should be satisfactorily applied to the teachers of the university as well as of affiliated colleges.

8. The consideration of the remaining items of the agenda was postponed to be taken up at its next meeting which was fixed to be held on the 18th July, 1979, wherein the item No. 4 relating to the consideration of Justice Kudal Committee recommendations shall be taken up for consideration in the beginning.

The meeting ended with a vote of thanks to the Chair.

The utility of this community service needs no advocacy. However, in order to systematize selection, processing and servicing of books and reading material, it is necessary to allocate minimum permanent staff for this library instead of the present *ad-hoc* practice. We would recommend that the following staff be provided for this unit :

1. One Jr. Technical Assistant (Preferably a lady)
2. One Book Attendant.

Since the duration of duty to be performed by the above mentioned personnel is limited in terms of hours per day, they should be suitably provided additional hours of required duties in the Central Library. The Children's Library should acquire books and reading material of interest to children with greater imagination and viability in quantitative and qualitative terms.

Manuscript Collection : Rajasthan is known to have a large number of manuscripts, whether known or unknown. It is widely believed that a considerable part of these is neither properly cared for nor likely to be spared by interested parties within or without the State. It is, therefore, desirable that *a proper survey be first made of all manuscripts available either for sale or consultation followed by a systematic acquisition programme of manuscripts in Rajasthani, Hindi, Sanskrit, Prakrit and Persian and so on. If need be, reprography service should be extended to manuscript acquisition and preservation.* To begin with a sum of Rs. 1 lakh may be sanctioned for that purpose during the 5th Plan. Initially, the following staff should meet the requirements in that regard :

- (1) Mss. Officer (Asstt. Librarian's/Lecturers grade)
- (2) One Jr. Technical Assistant
- (3) One Book Attendant.

Indian languages collection : With the exception of Hindi and Urdu sections, the Central library is scantily equipped in books and reading-material pertaining to the various regional languages. Initially, a recurring provision of at least Rs. 5000/- should be made for this purpose.

Index India : The University library has been bringing out a quarterly documentation service entitled Index India for the last seven years. It is recognised as a useful academic and reference-material put out by knowledgeable people and efforts should be made to ensure its regular publication.

We understand that 90% of the work is being done by members of library staff outside their office hours on token payment. The balance of work, which involves coordination and cumulation of works, is being done by people at their homes and

APPENDIX—I

(Ref. Res. No. 2 of the minutes of the meeting of the Syndicate dated the 29th June, 1979)

Minutes of the meeting of the Sports Board, University of Rajasthan held on 16th June, 1978 at 11.00 a.m. in the office of the Secretary, Sports Board, Maharaja's College Campus, Jaipur.

The following members attended the meeting :

1. Dr. Hari Singh (In the Chair)
2. Dr. N.M. Kothari Member
3. Dr. J. P. Bagarhatta
4. Shri Bhagwan Singh
5. Shri S. K. Agarwal
6. Shri J. Mukerjee
7. Miss Rita Pandey
8. Shri Pratap Singh Kacchawa (Member Secretary)

Prof. Lokanathan, Shri Anil Ganju, Dr. K.B.S. Dhillon and Dr. Kamla Gangwal could not attend the meeting. Before taking up the Agenda of the day the members of the Sports Board present in the meeting were introduced to the new Chairman, Dr. Hari Singh.

1. Minutes of the meeting held on 18th April, 1978 which were already circulated were confirmed with minor corrections of typing mistakes.
2. To report the budget of the Sports Board for the year 1978-79 as passed by the Syndicate.

The Secretary reported that the budget of the Sports Board has not been passed by the Syndicate so far.

3. The Board considered the letter of the Principal, Khalsa College, Sriganganagar regarding award of Blazer to Shree Paramjeet Singh.

Resolved to recommend that the request can not be accepted since it is not covered under rules.

4. The matter considered under the item of the Agenda (4) "Any other matter with the permission of the Chair."

1. The Secretary pointed out that the TA & DA rules have been revised and it may not be possible to meet the increased expenditure under the head TA and DA to Coaches, Observers and Managers out of the allotted grant for the purpose. Hence he may be authorised to make necessary adjustments in the panel for the Manager/Coaches and Observers given at Annexure 8.

tions of the Committee headed by Prof. G.C. Pande with proviso that the expenditure on the post of L.D.C. may be met out of Index India funds. Consequently, two personnel (one Technical Assistant and one Book Attendent) initially meant for clipping Section, would revert to their original assignment. The unit which looks after the working of 'Index India' be asked to look after the publication & programme under Local Fund as well.

The Printing Plant of the University Library : The University library has been able to build up out of the resources of Index India a printing capability of its own. This consists of adequate quantity of metal type and a small printing machine. The G.S. Sharma Committee which looked into the working of Index India recommended that the printing plant should exclusively be earmarked for printing the quarterly Index India. We recommend that this condition be waived and all printing work required under local fund be undertaken by the printing plant.

We also recommend that the University Library may be free to print anything so long as it pertains to the University library activity. That is necessary because casual labour hired to do the Composing and printing of Index India has to be provided with some minimum work throughout the year so that, when Index India work is completed they should neither leave seek employment elsewhere nor continue to be with the library printing unit without gainful employment. It was brought to our attention that good workers would be hard to get if they did not have security of employment. It may be stated that this library printing unit is informally supervised by the Manager of University Press. This arrangement, however, should be formalised.

Inter-Library Loan Facility : The Central library helps such of its members as need publications available at other libraries all over India by procuring them on inter-library loan basis. Persons who avail themselves of this facility are required to pay postal expenses both ways, which are likely to be on the high side owing to 'registered' and sometimes 'insured' packets of books. It would be a helpful gesture if the University takes upon itself payment of half of the postal charges incurred by scholars utilizing inter-library loan facility depending, of course, in its own financial resources.

Study Centres : During the Fourth Plan period the UGC had sanctioned establishment of three study Centers which were to be set up at Jaipur, Ajmer, and Kota. However, none of these centres came into existence. It was given out that, owing to nonavailability of government sanction, these centres could not be established. We understand that this problem now stands resolved. There was also difficulty of acquiring rent-free accommodation. We understand that the same has now been arranged

Resolved that the Secretary be authorised to make necessary adjustment in the panel so that the expenditure on T.A. and DA be minimised and he will report the changes to the Sports Board in the next meeting. Further resolved that the University be approached to raise the grant under the head TA and DA to observers, Managers, Coaches etc. in the light of revised TA and DA rules.

2. The Board considered the letter of the Principal, Govt. College, Jaisalmer regarding Coaching Camps.

Resolved that the principal be informed that the selection of the players is made on the total performance of the player during the Inter-collegiate Tournaments and also during selection trails held prior to Coaching Camps and no distinction of P.G., Under graduate and professional students can possibly be made.

3. The Board considered the letter of the Director, Sanskrit Colleges regarding the financial aid for games and sports.

Resolved that the Director of The Sanskrit Colleges be informed that the University Sports Board gives financial aid to the colleges for organising the Inter-collegiate Tournaments only. Hence the Director be requested to kindly approach the Government and the Rajasthan State Sports Council for the financial help as required by him.

4. The Secretary, Sports Board informed the Board that the Summer Volleyball Coaching Camp is being dropped since the University Coach, Shri B.K. Ojha had gone to Germany to attend a Conference and will come back in the first week of August.

After long discussions it was resolved that as far as possible the volleyball (New) Coaching Camps be held and the Rajasthan State Sports Council be approached to depute a suitable Coach for this purpose from 21st June to 11th July 78. It was further resolved that the services of the trained coaches in the affiliated colleges may also be utilised if necessary.

5. The Board considered the points raised by Shri J. Mukerjee regarding the Printing of rules book and the representation of the Sports Board in the Rajasthan State Sports Council.

The Secretary, Sports Board informed that the rules book is under print and it is hoped that it would be available after the vacations.

Library Hours : At present the library hours are as hereunder :

- | | | |
|----|---|-------------------|
| 1. | 1st July to 14th November
and
1st March to 30th April | 9 a.m. to 9 p.m. |
| 2. | 15th November to 28th/29th
February | 9 a.m. to 7. p.m. |
| 3. | 1st May to 30th June | 8 a.m. to 8 p.m. |
| 4. | Sundays and Univ. holidays | 11 a.m. to 6 p.m. |

Students and research scholars have asked for keeping the library open for longer hours. Also, that the library should remain open for atleast twelve hours on Sundays and holidays. We recommend that the library should be kept open for atleast twelve hours each day, working day/holiday included. Wherever necessary over-time payment be made to the staff working on holidays.

Study-Annexe : There seems to be a genuine need for a study-annexe attached to the Central library where such students, research scholars and teachers as wish to bring in books and reading material, not otherwise permitted to be brought inside the Central Library premises, could do so without depositing them at the property counter at the entrance. The reasons brought to our notice are :

1. There are readers who have no physical facilities in their home conducive to sustained study.
2. There are readers who wish to bring their own books which could be studied only in conjunction with other relevant material available in the library.

We recommend that a study-annexe, with independent entrance/exit be provided to such readers as wish to utilize it without having to deposit it outside the library.

Dormitory : The University Central Library is adding books at the rate of about 12000 per annum. At this rate it will add about 60,000 volumes during the next five years. That would mean that its stacking capacity in all the available 8 stacks will have reached a saturation point. Future additions would be possible only if extensive weeding is resorted to, which is not desirable for a University Library. It is recommended that a suitable dormitory on the campus be constructed where books which have hitherto been in less demand, be transferred for careful storage in such a way that their retrieval whenever requisitioned would be effected within the shortest possible time. We recom-

Resolved that the University should approach the Education Commissioner and the Education Minister to include a representative of the University Sports Board as an ex-officio member of the Rajasthan State Sports Council to keep liason between the Rajasthan State Sports Council and the University Sports Board which caters the interest of majority of players which belong to the University and its athliated colleges.

6. The Board considered the suggestion of Miss Rita Pandey that some kind of incentive should be given to the record breaker, outstanding players.

Resolved that a sub-committee consisting of the following members be formed to work out the details for the same.

1. Shri Bhagwan Singh
2. Miss Rita Pandey
3. Secretary, Sports Board

7. The Board considered the suggestion of Shri Bhagwan Singh that migration of players from one institution to another on the basis of their liking of a particular institution where special coaching facilities & enviornment for a particular game is available, be allowed.

Resolved to recommend that the players may be allowed migration to the institution of their liking and they may be allowed hostel and other facilites irrespective of any faculty they belong including Law.

8. The Board considered the letter of the Principal, Govt. College, Beawar regarding non payment of amount for the organisation of Cricket matches on their grounds. The Director of Education was also not happy about much dues. The Secretary, Sports Board pointed out that the delay is made in the University accounts office inspite of repeated reminders and personal contact by the Secretary, Sports Board himself and his staff.

Resolved to recommend that the University be requested :

1. To settle the pending accountns at a very early date.
2. To advance the full amount allotted for Inter-collegiate Tournaments and the Inter-University events in the Budget of sports Board to the Secretary, Sports Board so that he may send the grant-in-aid to the organisers of the Tournaments in time and also to get them adjusted from his office.

proper use of the articles and information which is contained in the journals is desired, as it should be, documentation work is one efficiently for use by teachers, research scholars and all such other users as desire to have pin-pointed and latest information bearing upon their field of interest and study. Such a documentation unit in the Rajasthan University library is over-due. To adequately service the immediate need, we recommend that the following staff be provided for the proper functioning of the unit :

1. One Dy. Librarian (Incharge of the entire unit—English and Hindi)
2. Two Assistant Librarians (One for English and another for Hindi)
3. Two Technical Assistants
4. Two Junior Technical Assistants
5. Two Book Attendants.

Cipping Section : As a corollary to the above we will also recommend that a full-fledged Clipping section be started so that effective reference facilities could be provided to teachers, research scholars and post-graduate students in the field of social sciences. This would require acquisition of duplicate copies of ten selected newspapers. The supporting staff would *scan the newspapers, mark the items for clipping, classify them, mount them on inform sheets*, arrange them subject-wise and, thereafter, make them available to users. The following staff would be necessary to organise this section :

1. One Assistant Librarian
2. Two Technical Assistants
3. Three Jr. Tech. Assistants
4. Two Book Attendants.

Music Listening Rooms : We recommend that a properly equipped sound proof music-listening area be set-up in the library where provision may be made for turn-tables, tape-recorders, adequate number of cassettes and gramophone records. A sum of Rs. 1 lakh for the entire plan period would be required for this purpose. In addition the following staff would be required to look after the equipment, maintenance and servicing :

1. One Technical Assistant
2. One Book Attendant.

Film Library : We understand that in the second sanctioned stage of the extension of the library building, there is a provision for the construction of an auditorium. It would be desirable that the University library should set up a film library which may consist mostly of educational films. *Recently the UGC allowed that*

3. To depute one Accounts Clerk at least three days every week if not for whole time to check, maintain, and to finalise adjustments of the accounts of the Sports Board in proper order.

The meeting ended with a vote of thanks to the Chair.

would facilitate building up of catalogue collection in the University Departments at a nominal cost which would ensure ready reference to reading material in the Central Library.

Cyclostyling and Translation Service : It was brought to our notice that in several cases articles/papers in journals were found mutilated or pilfered. To make such reading material available to desirous users of the library, we recommend that on the advice of the heads of departments concerned, cyclostyled reading material be made available at a nominal cost, say Re 1/-per article/paper.

Similarly, translation of important articles into Hindi should be organised. We suggest that the department concerned should take up the translation work and the University Library should provide cyclostyling facility, once again at a nominal cost, say Re 1/-per article/paper. The Central library should facilitate loaning out the original material to the Departments concerned where translation could be effected.

Art Collection : As stated elsewhere, the next sanctioned phase of the library extension comprises, among other things, an art gallery. We do hope that this phase would get implemented during the V Five Year Plan. We are informed that collection of original paintings of outstanding artists (to begin with of Rajasthan) has already been started by the University Library. We find that half a dozen such painting have by now been acquired. We would suggest that this process be accelerated and that, in addition to original art paintings, which will go to enrich the art gallery, the University Library may also start acquiring collections of reproductions of paintings of high fidelity, which may be available for display in different units of the University Campus and may also be loaned out against deposit. It would be desirable if a separate sum of Rs 5000/-per annum be ear-marked for this purpose in the recurring budget of the University.

OPERATIONAL REQUIREMENTS :

We examined in detail relevant aspects of the library system in operation. Some of the major emerging issues are being discussed below :

1. No effective check at the entrance of the Central library is possible unless all categories of member show their identity/member ship cards. The library can not be permitted to be a place for non-bonafide entrants. The inspection of identity/membership cards at the entrance by all bonafide members should, therefore, be enforced forthwith.

2. With the increase in the number of library users, there should be *adequate chairs and tabs in* three halls. This at present is not

Minutes of the meeting held on 10th June, 1978 which were circulated earlier were confirmed.

2. The Secretary informed that the admission rules as sent by the Sports Board vide their letter No. USB/77-78/46/266 dated 25-4-78 (Copy enclosed as annexure A) with reference to the letter No. 10846-47 dated 13-2-78 from the Registrar, University of Rajasthan (Copy enclosed annexure B) and the rules in the prospectus 1978-79 are contrary to the recommendations made. The rules as given in appendix A were based, improved bifercated and modifies on the rules as given in the prospectus of 1977-78.

After discussions deliberations and taking into consideration different categories of the tournament prevalent in India, their Status, their important and the basis of their varification and genuineness, the Board resolved that an urgent letter be sent to the Registrar under the signature of the chairman to restore the concession in the admission as per recommendations given in appendix 'A'.

- (a) It was further resolved to recommend that a subcommittee consisting of the following members be formed to categories the various tournaments in the country and their presentation of the particular player and specific rules of admission for different categories.

1. Shri Bhagwan Singh
2. Shri L.R. Soni
3. The Secretary.

10. We recommend that instalites be installed at all key points in the University library so that there is adequate light when electric power fails.

11. It is necessary that a senior person in the cadre of at least Asstt. Librarian should be on floor duty during each of the two shifts. He should be required to go round to ensure that everything is in order and render help if need be to the users and members of staff on duty. This should be supplemented by an effective Watch and Ward staff drawn from the Office of the Chief Proctor. At least a dozen persons should be so detailed, per shift for this purpose in the University library.

12. Several library users have complained of uncivil behaviour of some members of the library staff. This requires serious attention. The library is meant to be a service institution and if genuine difficulties of library users are not sympathetically attended to, the very purpose of its existence is thwarted. It is expected that the senior staff would look into this matter immediately and ensure necessary steps.

13. Teaching Staff in the University are required to return all books issued to them before renewal of their membership cards for a fresh session. This is an unproductive precondition and should be discontinued forthwith.

14. *Private students, casual students, ex-students etc.* are at present enrolled as regular members on the recommendations by the heads of departments with a deposit of Rs. 50/-. This category is on the increase of late. If effective service is to be rendered to them can only be done at the cost of regular students. The present resources of the library are inadequate; and therefore induction of these categories in the library membership without augmenting the library resources will bring about further deterioration in the services rendered by the library. If necessary, a separate library for the above category of members be run by the University.

15. Similarly, students of the *University School of Law*, now allowed to draw one book from the University library in addition to what they are entitled to have from their own Law Library, should *cease to enjoy this concurrent benefit*. The number of students in the faculty of Law has now gone over two thousand. The School of Law has a full-fledged library of its own and it would not serve any academic purpose if students of law permitted within the Central library which cannot cater to their academic requirements. It is, therefore, suggested that such of the Law students as wish to become members of the Central library be allowed to do so on payment of a fresh deposit as is the case with all other constituent undergraduate units run by the University. This would enable the library to cater to the genuine needs of students of the School of law.

- (b) Secretary will collect the required information about the tournaments and their agencies from federation and other sources.
- (c) The word "represented" in the existing rules of the admission be replaced by the word selected.

3. The request of the members of the Sports Board that their TA & DA and the conveyance allowance be paid to them just after the meeting is over was considered.

- (a) That in future all the members of the Sports Boards the member of the selection committee and such other committees as appointed by the Sports Board and who are required to attend the meetings should be paid their conveyance allowance as per University rules after the meeting is over.

It was further resolved that the members who come to attend the meetings from outside Jaipur should be paid their TA & DA after the meetings are over. For this University be requested to make necessary arrangements.

- (b) The Secretary, Sports Board be given a suitable allowance per month since he is to visit the University for office work local colleges for tournaments purposes, and Railway station to send off the teams for the complete tenure.

4. The Secretary informed that Shri B.K. Ojha had requested to grant him full passage fare i.e. Rs.12,477.00 instead of Rs. 10,000/- which he had already received while going to Germany to attend the conference of Volleyball.

Resolved to recommend that the University be approached to grant Rs. 2477/- more as complete air passage fare.

5. On the request of the Secretary, Sports Board the Director/Asstt. Director of Coaching camps and local managers of the teams be paid conveyance allowance as per University rules was considered.

Resolved to recommend that the Director/Asstt. Director of coaching camps and local managers be paid conveyance allowance equivalent to local observers.

Further resolved to recommend that in case the Director/Asstt. Director of the Camps and local managers are required to stay in the camp, DA be paid to them as per University rules.

6. The secretary explained that now the work of the office is so much expended that a part time Secretary cannot do justice to his own substantive work in the college where he is attached,

Further the University library urgently needs the following equipments :

1. Flexo writer (One)

This machine facilitates the work of the cataloguing section by electronically duplicating catalogue cards. The library at present does not possess any. One unit would cost approximately Rs. 1 lakh.

2. Two electric type-writers

These are required for technical work. They would cost about Rs. 20,000/-

3. 25 Instalites

It is experienced that lights go off quite often causing a lot of inconvenience, whatever the time of the day or season. This also increases possibility of pilferage of books. A sum of Rs. 10,000/- would be needed for this

4. Offset printing machine

This is needed for issuing bibliographical lists and bulletins by the University library. This would cost about Rs. 15,000/-

5. Equipment for lamination unit

This would cost about Rs. 5,000/-

6. Equipment for fumigation

This would cost about Rs. 5,000/-

7. Six vacuum cleaners

The total cost about Rs. 6,000/-

8. Intercom telephone system

This would cost about Rs. 10,000/-

9. Two tape-recorders and tapes (both spools and cassettes)

This would cost Rs. 5000 -

10. Steel lockers for Class IV employees

This would cost about Rs. 7,000/-

9. REQUIREMENTS PERTAINING TO FINANCIAL MANAGEMENT :

We now turn to examine requirements pertaining to financial management under the following heads :

Maintenance of accounts and payments :

We were given to understand that the University library maintains detailed accounts in regard to the purchases effected

regulation for the proper use of this facility. With the availability of this large hall for research workers and teachers, the two other areas earmarked for their use hitherto, namely, improvised cabins space behind the journal section on the first floor, be re-allocated for other library activities.

Provision for Cafeteria : At present library users who have to do extended study in the library have no facility for a quick cup of coffee/tea in the vicinity of the library. To get that one has to go outside the campus across the road. It is, therefore, recommend that a small kiosk be established in the available built-in area, adjoining the Bank/Cooperative store building. This area was formerly constructed as shed for cycle stand. but it is not so used now. With minor improvisation, the same might be converted into a viable kiosk and cafeteria.

3. Staff Position and Requirements :—

We examined in detail the staff position of the Central Library in the context of :

- (a) increased physical size of the library owing to the extension of the library building;
- (b) annual additions made to the library's book stock;
- (c) introduction of new services;
- (d) increasing number of users in all categories (vide *Annexure XVII*) which furnishes statistical data about the number of teachers, research scholars and students in the Post-graduate departments of the University from 1968-69 to 1972-73. ; and
- (e) increasingly intensive use of library.

In this context we also examined the organizational chart of the University Central Library which has been reproduced as *Annexure XVIII*.

We find that as at present the library is understaffed, especially in so far as its professional staff is concerned. The library's sanctioned strength at the beginning of the financial year (1-4-74) was as under :

Professional staff	Other Class III Staff	Class IV staff	Total
22 3*	28 —	51 6*	101 9*
25	28	57	110

categories identified above, subject to the proviso that the total sum to be spent on a subject may not exceed the total allotment therefor.

In allocating adequate grants for each of these categories criteria should be the number of students in the department, the number of scholars carrying on research, the number of teachers, the nature of on-going academic programmes, the minimum number of basic journals, the department would need, their prevailing increased cost and other connected factors. It may be noted that the cost of books and current periodical subscription has increased by almost 100% during the past 2 to 3 years and this should be noted in the book grants made to the library.

Local fund account :

The University sanctioned the setting up of a local fund for the University library in February 1967. The purpose was that the sums realised by the sale of publications issued by the University library may be collected and thereby a revolving fund may come into existence to ensure a continuing programme of publications. That would also mean no additional financial liabilities on the University. During the preceding years, the library has issued several publications such as Union Catalogues, Bibliographies in connection with the seminars organised by University departments and proceedings of seminars organised by the Central library. All these publications mimeographed. A printed publication entitled Hindi Sandarbh is also being issued which is a subject index to outstanding periodicals published in Hindi in India. We feel inclined to recommend that the five-member Managing Committee set up by the Syndicate to look after the working of Index India be also asked to supervise the publication programme under Local Fund Account.

10. REQUIREMENTS PERTAINING TO STOCK-TAKING :

A periodical stock-taking of the library is essential in order to ensure the health of the library (For relevant details see *Annexure XXVI*). However, this is feasibly done annually if the number of volumes in a collection is about 30000 volumes. Beyond this number, stock-taking becomes not only increasingly difficult but also a self-defeating process since it throws the entire library system out of gear.

The Rajasthan University library now holds more than 2,00,000 volumes and one cannot visualise a periodic/complete stock-taking of such a large collection. In this context the Director of the Central Secretariat Library, New Delhi also has opined in his letter dated the 9th May, 1973 that " .. stock-taking is a futile exercise and according to one 4 dollars are spent in identifying a loss of 3 dollars. So the total loss comes to 7 dollars "

Sd/—B. Saraf

Sd/—A.S. Kapoor

11. Relational Requirements :

We turn to a discussion of relational problems under the following heads :

Relation with affiliated colleges of the University : We recommend that whenever a Principal of an affiliated college of the University specifically requests for professional help and technical guidance in improving the library services in his college, the University should extend the same. Persons deputed to such colleges should be treated on official duty. All such requests may initially be considered either by the University Library Committee or by the Vice-Chancellor.

Relations with the Department of Library Science : The former Librarian, Prof. S. Bashiruddin was also the Head of the Department of Library Science. When he left in January 1964, the Central library was entrusted to Prof. Satish Chandra and the Department of Library Science to the erstwhile Reader. When the present librarian assumed charge in August 1964, the position with regard to the Department of Library Science was not altered and it continued to be run as a separate unity. We feel that this is not likely to prove to be an academically viable situation and it is, therefore, necessary to bring about meaningful and effectively reciprocal relations between the Central library and the University Department of Library Science. The Committee, however, has refrained from giving any specific recommendations as to how the desired relationship may be operationalised because the Committee's Chairman received a letter from the Head of the Library Science intimating that this aspect was ultravires of the terms of reference of the Committee and he, as the Head of the Department, would not be a party in any way to a decision in the matter by the Committee. We recommend, however, that the University authorities should look into this issue and devise suitable remedial measures.

12. Miscellaneous Aspects :

The Rajasthan University Library, like every other big library, finds itself in possession of many publications which are surplus to its use (for details see *Annexure-XXVII*). Several thousands of books, journals, reports and other publications have accumulated which the University library cannot profitably absorb. These publications have been received as gift from institutions and individuals & also multiple copies of books received from the Registrar's office surplus publications of the library's local fund & publications weeded out from various libraries run by the University. The number of such surplus copies varies from two to two hundred.

We recommend that the University library should set up a separate 'Gift & Exchange Section'. This is a normal feature in all big libraries. We would suggest that a periodical list be got cyclostyled under two categories.

SUMMARY OF RECOMMENDATIONS

Systemic Requirements :

1. All the libraries that are run under the supervision of the Central library should collectively form the University Library System. p—14
2. The Director of University Libraries should be the executive head of the system with administrative and financial powers statutorily vested in the Head of a department. p—14
3. A Teaching-wing Library Committee should over-see the proper functioning of this system by formulating proper policies. p—14
4. The Central libraries should exclusively concentrate on building up a model collection which would subserve requirements of post-graduate studies and research. p—14
5. The libraries attached to the School of Law Studies, the Department of Geology (Udaipur) and Podar Institute of Business Management be allowed to acquire and technically process books at their own end. p—15
6. The Director of Libraries, as head of the System, should have power to make inter-unit transfers of professional staff (in Jaipur) in the interest of proper functioning of the system. p—15
7. A Centralised union catalogue of periodicals holdings of all the libraries of the system should be maintained in the Central Library. p—15

Managerial System :

8. A three tier management for the entire University Library system is recommended as per details given below :—

APPENDIX—XI

(*Ref. Res. No, 5 of the minutes of the meeting of the Syndicate dated the 29th June, 1979*)

Dr. V.M. Sinha,
Vice-Principal,

D. O. No. Personal

Dated 29th June, 1979.

Dear Justice Tyagi,

You were good enough to ask me when I appeared for interview in connection with regular selections for the post of Reader in Public Administration which of the two Readerships I would prefer—the promotional one or the regular one—if I was selected for both. I indicated to you my natural preference for appointment to the post of Reader through regular selection. It was then pointed out that this would mean that there would be reduction of one post of Readership in the Department as no one else was eligible to be considered for promotional Readership in the Department.

I have now given a careful thought to the issue, if my name appears among the list of selected Readers in both categories and if it is shown as such in the minutes of the Selection Committee and all my legitimate academic and other interests are also protected for future, I would not mind opting for promotional Readership as it would leave the possibility of one more Senior post being added to the Department, the interests of which is naturally dear to me also.

With Personal regards,

Yours sincerely,
V. M. Sinha,

Justice Ved Pal Tyagi,
Vice-Chancellor,
University of Rajasthan,
Jaipur.

New Hall :

17. The new main hall on the ground floor of the extended library building be furnished suitably and made available for use by teachers and research scholars. This hall may be got suitably air-cooled. p-21

STAFF POSITION AND REQUIREMENTS

Professional Staff

19. Upgrading of one post of Asstt. Librarian to that of Dy. Librarian (accepted in 1972-73) has not yet been implemented for want of administrative sanction. This needs to be implemented immediately. p-24

- | | | | | |
|---------------|---------------------|---------------------|---------------------|-------|
| Dy. Librarian | Assistant Librarian | Technical Assistant | Jr. Tech. Assistant | Total |
|---------------|---------------------|---------------------|---------------------|-------|

4	7	4	5	20
---	---	---	---	----

Four additional posts of Assistant Librarians as recommended in the interim report of 10th Feb., 1974 be created in the University Central Library. p-25.

Sixteen professional posts of various categories as per details given below be created, spread over the entire 5th Plan period :—

	Dy. Librarian	Asstt. Librarian	Technical Assistant	Jr. Tech. Assistant
1975-76	1	1		
1976-77		1	1	1
1977-78		1	1	1
1978-79		1	1	1
1979-80	1	1	1	2

 1. One Jr. Technical Assistant (Preferably a lady)

 - (2) One Jr. Technical Assistant
 - (3) One Book attendant. p-33

Indian Languages Collection

36. The Central library is scantily equipped in books and reading-material pertaining to various regional languages. Initially a recurring provision of at least Rs. 5000/- should be made for this purpose. p-23

ANNEXURE—I

N.N. Gidwani,
Director of Libraries

D.O. No.2/LB·PA/72-73/

30/10/72

Dear Mr. Vaish,

This year the University Library completes the twenty-fifth year of its establishment. During this period it has grown from a small cup-board in a corner of the Vice-Chancellor's room in Kaisergarh in 1947 and has by now become the biggest library in Rajasthan. It is now accepted to be one of the very best libraries in our country. It has even achieved commendable international repute for a variety of its academic activities.

The University too has grown and made all found development during this period of a quarter of a century. However, a moment's reflection will high-light the fact that the most precious asset which the University has built up during this period is its library which by even a modest computation is now more than a hundred lakhs of rupees. The assets of no other unit of the University can effectively match it. Apart from this the vast intellectual potential that has thus been built up, the services the library renders not only to the University's own faculties and its members, but also to scholars both in this country and abroad have earned for it many ncomiums.

The library has made much phenomenal progress during the past few years. With the near completion of the extension to the library building its physical capacity will now stand more than doubled. It is now well poised for a take-off stage provided it is given adequate support. This forth-coming, I have no doubt, it would easily become one of the best five libraries in the whole of South Asia.

However, this accelerated growth which the library has undergone of late has raised many expectation among those who are connected with it. It has also generated many avoidable tensions and difficulties which threaten to grow both in size and volume. This bodes ill for this up-coming temple of knowledge.

It is, therefore, imperative that a very careful look be given both to what have been accomplished uptil now and the

script of the book be entrusted to the same Committee which has prepared the draft manuscript of the book for First Year Shastri Examination.

Resolved further that in order to explain the view points expressed in the meeting of the Syndicate with regard to the matters referred back to the Council, Shri M.L. Joshi, Member-Syndicate be called as a Special Invitee at the meeting of the Academic Council when these recommendations are re-considered by the Council.

ANNEXURE—III

Interim Report of the Rajasthan University Library
Review Committee

The members of the Rajasthan University Library Review Committee have unanimously agreed to make the following interim report in response to the request received from the University :

1. The Rajasthan University Library system should be treated as a unified whole and should be placed under the over all technical supervision and control of the University Librarian (who has also been designated as Director, University Libraries). The system will consist of the Central, Departmental and the four 'Campus Libraries' (College Libraries). The administrative control of the four 'Campus Libraries' (College Libraries) will, remain, as at present, with the respective Deans of University Studies/ Directors and that of the Central Library with the University Librarian.

2. Keeping in view the quantum work, etc., we recommend that the post of the 'College Librarian' should be redesignated as that of 'Assistant Librarian' (Professional Junior) in the grade prescribed by the U.G.C. which is at present Rs. 4000-4080-50-950 the qualifications of the Assistant Librarian (Professional Junior) should also be the same as prescribed by the U.G.C.

3. The Central Library is at present very much under staffed and, therefore, as an interim measure, at least four more posts of Assistant Librarians (Professional Juniors) should be immediately created to handle the various sections of the Library generally on the lines indicated by the Ranganathan Committee of the U.G.C.

4. The Committee feels that it should be possible for the University to meet the recommendations made above without much financial outlay.

The Controller of Examinations also apprised the Syndicate the view points of various student leaders of the University Department and Local Colleges as communicated by Prof. M.C. Jain 'Kagzi' Dean, Faculty of Law, vide his letter dated the 14th June, 1979.

During the course of deliberations a crowd of students surrounded the building of the Vice-Chancellor's Secretariat and shouted slogans demanding postponement of law examinations and created disturbances to exert pressure on the Syndicate. The Syndicate also heard slogans of another crowd of students demanding for holding the Law Examination of 1979 from the scheduled date viz. 2nd July, 1979.

Having deliberated the matter at length and from all angles, the Syndicate *resolved that* the Law Examinations of 1979 be held from the scheduled date i.e. 2nd July, 1979 and a notification to this effect be published in newspapers for general information of the students.

The two preceding tables show that the present strength falls short of posts in various categories as follows :

-----------	------------------	---------------------	---------------------	---------------------	-------

—	4	7	4	5	20
---	---	---	---	---	----

In our interim report of 10th February, 1974, we recommended that 4 additional posts of Assistant Librarians should be created in the University Central Library.

We have been assured by our expert members that the shortfall in regard to professional staff worked out above is based the guide-lines by Dr. S.R. Ranganathan which the U.G.C. has generally following in sanctioning posts. It is, therefore, recommended that the shortfalls be made good without undue delay.

We further recommend that 16 professional posts of various categories as per details given below be created, spread over the entire 5th Plan period as :

	Deputy Librarian	Asstt. Librarian	Technical Assistant	Jr. Tech. Assistaat
1975-76	1	1		
1976-77		1	1	1

1978-79		1	1	1
1979-80	1	1	1	2
Total	2	5	4	5

It will be noted that we have recommended in all 4 posts of Dy. Librarians instead of 6, and in lieu thereof have brought down two posts of Dy. Librarians to those of Asstt. Librarians.

The above recommendations are given on the assumption that

- the upgrading of one post of Asstt. Librarian to that of Dy. Librarian approved by the University in the year 1972-73 would be made without any further delay;
- recommendations regarding the appointment of 4 posts of Asstt. Librarians made in the interim report would be implemented during this year; and
- the administrative sanction for posts already created would be forth-coming during this year.

Resolved to recommend that the aforesaid inspection reports be adopted excepting the recommendations on such matters as are not under the scope of periodical inspection such as granting of the permanent affiliation etc. and the same be forwarded to the Principals of the colleges concerned for removing the deficiencies and implementing the suggestions made by the Inspectors under intimation to the State Government and (ii) the convening inspectors of the remaining 16 colleges be requested to expedite their reports and in case they are unable to fulfil the assignment within a period of three months, alternative arrangements be made by the Vice-Chancellor.

APPENDIX—XIV

Annual Report of the University Library, 1973-74

During the year 1973-74 the Library made all round progress. The most important achievement was the full utilisation of the U.G.C. grants received for the purchase of books and journals in various subjects during the Fourth Five Year Plan period. Another significant development of the year had been the opening of the new Research Hall for the use of Research Scholars and Teachers of the University. By opening this hall the Research Scholars and Teachers have now separate quiet area where they sit and study and work without any disturbance.

Finances :

During the year there has been some increase both in the total grant for the purchase of books and journals as also in the total budget of the library. Against a total budget provision of Rs. 6,55,000 during the year 1973-74. As regards the grant for the purchase of books the University provided a sum of Rs. 3,27,500 for the year 1972-73, financial year against a sum of Rs. 2,80,500 for the year 1972-73 out of the University's own funds. In addition to the adhoc grant worth Rs. 3,00,000 received from the U.G.C. for the purchase of books and journals to be utilised by 30th June, 1973, the University also received another adhoc' grant of Rs. 80,000 in the month of Nov., 1973. This grant too was fully utilised by the end of fourth plan. The Library also utilised the spill over of the grants allotted for steelshelving and for appointment of additional staff of the Fourth Five Year Plan period, on purchase of books and journals.

Though the University has increased the total grant for the purchase of books and journals for the University Library, yet this increase has been negatived because of the steep increase in the cost of subscription of the periodicals as well as in the cost of books etc. The allotment made by the University out of its own funds specially for science subjects is not sufficient even to meet the annual cost of the subscription of their respective journals. With the imposition of 15% compulsory cut on all the grants of the University as well as non-receipt of any book grant from the U.G.C. for the Fifth Five Year Plan period so far, it has become impossible to maintain the present inflow of books and journals for the University Library. It is feared that in case of efforts are not made to obtain additional grants both from the U.G.C. as well as from the State Government for acquiring the much needed books and journals, it may adversely affect the teaching as well as the Research work in the University.

deficiencies and implementing the suggestions made by the Inspectors under intimation to the State Government and (ii) the Vice-Chancellor be authorised to appoint fresh Inspectors for the periodical inspection of the remaining three colleges for the year 1977-78.

(9) The Board considered the recommendations of the sub Committee appointed under sec., 24J. of University Hand Book Pt. II regarding entertaining the applications received for opening New Colleges/New faculties/Subjects. (Annexure-VII).

Resolved to recommend that the recommendations of the committee be accepted subject to the following modifications.

Where-ever there are higher Secondary Schools, no new application be given for opening of P.U.C. classes. Also in such cases extension of present classes be also withdrawn from the session 79-80. Arising out of this the application of H.E. evening College, Kota and Sophia College, Ajmer for P.U.C. classes be not entertained.

The Board also resolved that the Colleges which have not fulfilled the requirements of (i) Depositing of 10% of the endorsement fund amount in the joint account of the Registrar and the management and (ii) have not appointed qualified and duly selected staff and are unable to do so by 30th June, 79 be not permitted to make admission in 1st year and previous classes for the session 79-80.

ANNEXURE—XVI

Central Library relations with other Library Collections
of the University

It was in 1964 that the University conferred an additional designation of the 'Director of Libraries' on the University Librarian. However, the aim and the purpose for which this additional designation was given was not spelt out. It remains undefined till today.

It would be, therefore, desirable to consider :

1. What may be the duties and the responsibilities attached to this additional responsibility. Modalities by which these may be performed may be clearly defined.
2. Whether it would be desirable to re-designate it as the 'Dean of Library Service' in the light of a total Library system which the Review Committee may visualise, and in the context of the academic situation in our campus, currently.

In this context it may not be out of place to mention that in the University set up, as at present, there are no more any constituent colleges. There are faculty in the sub-compuses. Arising out of this, there ought to be one library system which should be constituted by bringing all professional library workers in the employ of the University into one consolidated service in the same manner as are the teachers in a particular subject.

In passing, it may be remarked that the present designation of those at the helm of affairs in sub-campus Libraries as 'College Librarian' is a misnomer. How can thereby 'College Libraries' when the University is no more running any colleges.

These four posts need therefore to properly be re-designated.

It is also for consideration whether :

1. the budget for the whole library system should be mapped out in the budget book at one place;
2. whether there ought to be central acquisition of books and periodicals for the whole system;
3. whether there ought to be central processing of all such material acquired according to one uniform scheme of classification and cataloguing for the whole system.
4. whether a union catalogue of all the holdings of publications in all such libraries be maintained at one central place;

do not favour strengthening this category of staff and would suggest that on an average only two additional posts of Book-attendants be created every year, which should be commensurate with the quantum of work. Keeping in view the nature of work which the book-attendants in the library perform we recommend that they be given the highest grade in class IV category

The above mentioned recommendations in regard to staff requirements are being made to ensure efficiency in existing library services. In case, however, additional recommendations about new schemes are approved by the University authorities, the staff requirements will have to be correspondingly reassessed.

Provision of full-time Carpenter and electrician : We recommend that the Central Library should have full-time carpenter and electrician. If for any administrative reasons these *posts cannot be created* in the regular budget of the University Library, arrangement should be made to ensure that full-time carpenter and electrician are deputed for continuous duty at the University library from out of the establishment of the University Engineer.

4. REQUIREMENTS REGARDING SERVICE CONDITIONS :

We now turn to examine more important aspects pertaining service conditions :

Residential Accommodation : Looking to the fact that the Central library is the only unit of the University that functions upto 9 p m. throughout the year (and considering the demand that the library be kept open till late in the night), it is necessary that such members of the library staff as are usually required to perform duties in the second shift, be provided residential quarters on the campus.

Internal Promotion Policy : The committee is of the opinion that for the professional staff, promotions could be considered upto the level of Technical Assistants only. The post of Asstt. Librarian and above should be filled by open advertisement.

Revision of Grades : The University has referred to us two representations : one from the librarians of constituent colleges and the other from the Technical Assistants in the University Central Library. The former has already been dealt with in our interim report and we understand that the same has since been implemented. In regard to the latter we recommend that the pay scale of Technical Assistants be upgraded to that of Rs. 275-20-375-25-650 (University Grade No. 16). Arising out of the above, we also recommend that the grade of Jr. Technical Assistant be upgraded as under :

Rs. 250-15-300-320-450 (Univ. Grade No. 13)

The Review Committee may make definite recommendation in regard to quantum of staff and the level of salary in which it may be appointed and the recurring yearly expenditure that should be budgeted for the operation of the Xerox service.

Arising out of this, the Committee may also lay down principals on which this service would operate and the charges to be recovered for rendering this service. In this connection enquiries were made from the following three Institutions where this service is at present being given :

- (1) Punjab Agricultural University Library, Ludhiana.
- (2) Punjabi University Library, Patiala.
- (3) Nehru Memorial Museum and Library, New Delhi.

The Punjab Agricultural University Library, Ludhiana do not care for any profit or loss for this service. They also have informed that the 'economics' of this service have never been worked out. However, they do exercise some restraint in not taking up xerox copies of such documents as are not of academic nature. The prescribed charge is Re. 1/- for the first two pages and 50 paise for the subsequent two pages.

(2) In Punjabi University, Patiala, xerographic service is subsidized upto the extent of 50% by the University. Their charges for xeroxing work are as follows :—

For research and study materials
required by students, bonafide
research works and teachers.

25 paise per flash
50 paise per flash

For Departmental work.
For out-siders and for non-
research materials.

Rs. 3.00 each for the first two
flashes and Rs. 2.00 each for
the subsequent flashes.

(3) In Nehru Memorial Museum and Library this service is given on 'no profit no loss basis'. Roughly speaking, their charges more or less cover the expenses incurred by them on preparing xerox copies and their prescribed charges per print for this service are as follows :—

First copy	Re. 1.00
Subsequent three copies	Re. 0.25 per copy.

In case it is felt that the University should offer this service on 'no profit no loss basis', then the charge prescribed by Nehru Memorial Museum and Library would be a feasible one. If a subsidy is to be granted, then either the charge prescribed by the Punjab Agricultural Library, Ludhiana or the Punjabi University Library, Patiala will have to be accepted.

ANNEXURE—XXI

Microfilming Division of the Library

In February 1970 the University Library submitted a scheme to the University for setting up a non-script Department. As a part of that scheme, it was suggested that the University Grants Commission may be approached to sanction moneys so that the Library could acquire microfilm camera and other necessary equipment to enable it to borrow manuscripts from libraries both in India and abroad and take out the microfilm copy for its own use.

The scheme was accordingly sent to the Commission and the same was accepted when the Commission sanctioned a sum of Rs. 1,90,000 for purchase of microfilm equipment and a sum of Rs. 53,000 towards staff salary. The following staff stand sanctioned from out of this above grant :—

- (1) Microfilming Technician in the grade of Rs. 225-15-345-20-525.
- (2) One Dark Room Assistant in the grade of Rs. 150-8-190-10-210-15-330.
- (3) One Trained Assistant in the grade of Rs. 110-5-150-8-200-10-230.

An order for the purchase of Zeiss Documator Microfilm Recorder 'DA—V' was placed with M/s C.Z. Instruments (India) Private Ltd., Bombay and the equipment in eight big cartons has since been delivered and at present lying in the library un-opened. The University Engineer has been requested to air-condition a small portion in the extension part of the library so that the whole equipment would be properly installed. The work on this is in progress.

While UGC has sanctioned the purchase of the equipment and also for staff that would operate it, there is no provision for the consumables. The University was requested to provide an ad-hoc sum so that the Unit could be put in operation with effect from 1st April, 1973. It is understood that an ad-hoc sum of Rs. 10,000 has been provided in the budget for the year 1973-74 for this purpose.

Proper consideration is now to be given as to how best to put this equipment to use. It is understood that an identical equipment is at present functioning in Nehru Memorial Museum and Library. That organisation has chalked out a very ambitious programme which include microfilming of several back volumes of important Indian dailies whose additional microfilmed copies are

ANNEXURE—XXII

LIST OF ADDITIONS

At present we are printing about 150 copies of the "Weekly List of Additions" made to the library. This list is a cyclostyled one. It, however, does not incorporate all the additions made to the library by way of books, bound volumes of journals, theses and other material. Since the number of the copies printed is small because of our limited resources, we are not in a position to supply a copy to all the affiliated colleges of Rajasthan. Neither do we send this list to other important Universities who send us their lists in exchange regularly.

In view of the above, it is proposed that a 'Monthly List of Additions' should be regularly issued in a printed form. The pattern to follow should be that of the one issued monthly by the Bombay University Library because of its all inclusiveness and low economic cost. This would enable us to send a copy to those who ought to receive it regularly. It would also become a sort of a full record of library's holdings. If it is issued regularly every month, it can then be registered as a News-paper which would enable us to post it at a very low expense. If the proposal is approved, the University Press Manager could be approached to provide estimates of the cost etc.

ANNEXURE—XXIV

Proposal Regarding Change over from Ed. 3 to Ed. 6
of Colon Classification.

A

At present we are using two different editions of Colon Classification (c.c.) in the University Library. C.C. edn. 3 is being used for classifying books and c.c. edn. 6 for reports, Abu Collection material and the documentation work. It is necessary that only the latest edition of c.c. be used for classifying all the documents in our library. The following points are relevant in this context.

1. C.C. ed. 3 issued in 1950 has become quite out-of-date.
2. The difference between the 3rd and 6th editions of c.c. is not only of connecting symbols but is also of ultimate class numbers.
3. At present only one member of the library staff has had this formal training in this edition contact with c.c. edn. 3. All other technical hands have had their training in c.c. edn. 6.
4. The two or three copies of c.c. edn. 3 which are available in the library are in a very poor physical condition.
5. Persons who are involved in the classification work of books and as well as of microdocuments, always remain under mental stress because of the fear that they may use c.c. edn. 6 in place of c.c. edn. 3 and vice versa.
6. Sooner or later we will have to switch over to c.c. edn. 6/7. The delay will merely add to the quantum of rectification work and make the task more complex, time-consuming and costly.

The issues to be decided are :

- (i) Should the Library switch over to one uniform classification scheme, as per the method described hereafter under 'B' ? (A review of the situation prevailing in this regard in our sub-Campus Libraries too may be considered.
- (ii) What separate set up would be necessary, so that the switch over is effected in the minimum possible duration, smoothly and economically.

ment is not very much necessary for them.

3. A separate catalogue cabinet (24 drawers) be used for keeping the catalogue cards of the books classified according to cc. ed. 6/7. A notice to this effect be placed on this catalogue. In the beginning it should hold the classified (main) cards and the alphabetical (additional) cards as well.

(a. Addition cards for 'TS', 'RS', 'OP', 'RP', 'SC', 'RB' be filed in the existing additional catalogues. Separate arrangement would not be worth the cost.

4 While changing the call number of the books, necessary corrections are also to be made in the Accession Register.

5. Accession numbers of the books classified according to c.c. ed. 6/7 should be underlined at all the places i.e. catalogue cards, Book Ticket and Date Label etc. This is necessary for easy distinction between the books classified according to c.c. ed. 3 and c.c. ed. 6/7. A new sequence mark will not serve the purpose since books classified according to c.c. ed. 6 will be available under different sequences also (e.g. 'RB', 'RS' etc.)

6. Now that a preview of c.c. ed. 7 is available and there are a few new classes or some minor shiftings or some new numbers of the existing classes we may also take notice of them. We should accept the schedule of main classes and geographical divisions of c.c. ed. 7. The new techniques (ed. 7) of coining the class numbers cannot be adopted at this stage.

7. We need not adopt the technique of mother country, favoured country, favoured language and favoured system of philosophy while coining the class number but we should continue to use the technique of favoured language in coining the book number i.e., we should treat English as a favoured language since the language of most of the books in this library is English.

8. If any local variations are made they should be noted down in a note book to be maintained for this purpose.

9. Class Index cards should be prepared in duplicate, the duplicate cards to be kept in alphabetical order in the Technical Section for ready reference for the classifier and the cataloguer.

10. Consistency in call Numbers and cataloguing should always remain our guiding principle.

11. A roster of transliterations in Roman of non-roman scripts in use in this Library should be got standardized for use in Technical work.

ANNEXURE—XXVI

Stock Taking

In Principle periodical stock-taking of a library is desirable because it enables the authorities to know the health of the library, how many books have been lost, how many misplaced or misshelved, how many need binding and repairs, how many have been mutilated, how many have not been used at all and how many need to be weeded out and so on. If stock-taking is done intelligently and efficiently it would enable the library to take a very lively and dynamic view itself.

However, this is possible if the number of volumes in a collection is say upto 30,000 books. As the number increases beyond that figure, periodical stock-taking becomes not only increasingly difficult but also a self-defeating process. As and when the number exceeds a hundred thousand volumes the exercise becomes so big as to throw the entire library system out of gear. The cost then too of conducting a stock-taking becomes exorbitant and the exercise becomes well nigh uneconomical. Besides, during the period of stock taking the library has to well nigh remain closed and thus the very purpose of running a library during that period stands defeated. It is, therefore, that most large sized libraries do not undertake the avoidable luxury of a periodical stock-taking.

As far as books that are added during the course of a year or the previous year, various auditors who come and inspect accounts, do sample checking to satisfy themselves that whatever payments were made for books purchased did actually arrive in the library. It is the retrospective checking of stock that we are considering here.

Our University library by now holds about 2,00,000 volumes and one cannot visualise a periodical/complete stock taking of such a huge collection. It would require an army of staff coupled with the closure of library for some months. Even then one doubts whether the work could be completed efficiently. It is a matter of recent memory that Delhi University Library recently under-took stock taking of its books for the first time after shutting down the library for some months and the press reports were that about 25,000 to 50,000 books were found allegetly missing. Though the University authorities used punch card techniques for feeding them in the University computer, the final stock taking report is not yet forthcoming even though more than two years have passed since this exercise was undertaken. It is doubted whether one would ever fourthcome.

In this University a proposal has been moved by a member of Syndicate suggesting that stock-taking be regularly done. In

report of stock taking could then be prepared every fifth year.

- (3) Another alternative to find out the health of the Library could be to do random sample stock checking every year. The Head of the Department of Statistics of the University could be approached to supply 1000 random numbers which should lie between No. 1 and the last accession number of the records. He may depute/nominate one person of his Department (say a Lecturer) to supervise the checking of these numbers, randomly selected by him and in this he may be assisted by the internal auditors of the University and one member from the library staff. A report then could be prepared which could give indication about the extent of losses mutilations, misplacements etc., etc., in the library and remedial measures could be devised depending upon the nature and contents of the report received.

In any case, whatever alternative is decided upon, we should very clearly define first what objectives do we hope to achieve in undertaking a chosen type of stock-taking. It would help greatly if we proceed at the very outset on the assumption that any type of stock-taking would naturally reveal that some losses have taken place. This happens inescapably in libraries of all sizes, all over the world even in those libraries where there is closed access. It would be worthwhile therefore to consider straightaway what practical remedial measures ought to be devised and implemented by the library so as either to halt or reduce such losses by way of deliberate theft or surreptitious mutilation. Secondly whatever be the mode or size of stock-taking (if any) which is decided upon we should first weigh very carefully whether the advantages that are expected to result would be commensurate with the costs, both tangible and intangible which would incurred thereon. Thirdly, it has also to be decided what type of check (if any) has to be done regarding book collections in University institutions, other than the Central library, after taking into consideration the size of these collection and the use etc. to which they are put to etc.

On an average only two additional posts of book attendants may be created every year, commensurate with the increased quantum of work.

The above additional staff would be required for the smooth and efficient functioning of the present library services. In case the authorities decide to accept and implement recommendations in regard to new services which the library may be launching the staff necessary for running those new services would naturally have to be in addition to what recommended above.

The Rajasthan University Library has acquired the Indian version of Xerox machine (Majox 121 Kilburn Electrostatic copier). Taking into consideration the cost of raw material and usable parts, the following charges are levied:

For supplying first copy	Rs. 1.25	
For subsequent additional 2 copies	Rs. 0.50	(This is the maximum number of copies that can be supplied at one exposure).

The above charges have been worked out on 'no-profit, no loss' basis. Identical charges are levied for this service at the Nehru Memorial Museum and Library, New Delhi. The Committee considered the representation by teachers, research scholars and students that the above charges are excessive. If the resources of the University permit we would like that this service be subsidised to the tune of 50%. The matter may be referred to the Post-graduate Wing Library Committee.

List of Additions : The University library at present issues about 150 copies of the "Weekly list of additions" made to the library in cyclostyled form. (*Annexure XXII*). A copy goes to all the Heads of the University Departments, Principals of affiliated colleges and such other institutions in Rajasthan as ask for it. In view of the rising cost of cyclostyling it would be economically viable to print such lists. The postal authorities, under the rules, allow concessional mailing rates for this type of material.

The University library has a printing plant of its own and, therefore, this change over to printing should not be inconvenient. We recommend that such a list should be issued atleast once a month.

Children's Library : The University library has been running a Children's Library since 14 November, 1964. This library is at present accommodated in a separate hall with independent entrance and exit and is furnished with two bath rooms—one for girls and one for boys. Admission to this library is open to all children of the city. The library is kept open for two hours every evening. On Sundays it is open in the morning.

The University has ear-marked Rs. 2500/- for purchase of books for this library. The library possesses about 6000 books, almost equally divided in Hindi and in English. Children are entitled to draw books on a permanent deposit of Rs. 5/- and an annual subscription of Rs. 2/-; or a quarterly subscription of Re 1/-. For reading on premises no fees are charged.

9. Furniture equipment	Rs. 5,000
10. Lamination equipment	Rs. 5,000
11. Inter-com-Telephone System	Rs. 10,000
	<hr/>
	Rs. 2,00,000

12. The Central Library should issue periodically printed catalogue of its holdings

of (114);

- (a) Research & Reference Tools.
- (b) Periodical/Serial holdings.
- (c) Theses & Dissertations holdings.
- (d) Guide to use of the library and such other publications.

75,000

An annual publication grant of Rs. 1500/- be provided to the Library by the University so that this activity may be carried out regularly.

10,000

13. The University Library should acquire original art paintings, reproductions of paintings. A modest sum of Rs. 2,000/- may be earmarked every year. (112).

25,000

14. Sustained efforts be made to build up a core collection in every Indian language preference being given to languages of North India. A recurring provision of Rs. 5,000/- should be made for the purpose. (46).

3,000

15. The cataloguing work begot done through library on printing plant (117)

16. In the interest of scholarship the postal charges incurred on returning the publications procured on inter-library loan may be borne by the University. This would involve an annual subsidy of Rs. 500/-. (49)

2,00,000

17. The University may start a Text-book Bank for the needy students. A provision of two lakhs by way of non-recurring expenses and about Rs. 25,000/- by way of recurring expenses. (106)

IV. FACULTY OF LAW

A. For Lectures :

Good academic record with at least a second class (with a minimum of 50% marks) LL.M. degree (two years course of an Indian University obtained as a regular full time student) or an equivalent degree of a foreign University.

subsequently finalised by two full-time members of staff, a Technical Assistant and a Book-Attendant. This staff was sanctioned for setting up a clipping section in the Central Library. They are being utilised for this project as it was found that they could not manage the vast task of clipping owing to their limited numerical position. In addition, their present assignment of documentation incorporates clipping work in a limited manner.

About two years back, the University had set up a Committee to look into the working of Index India project under the Chairmanship of Prof. G. C. Pande. The report of the Committee was considered by the Syndicate which set up another Committee under Prof G. S. Sharma. The report of these Committees along with a full note pertaining to Index India is available in the minutes book of the Rajasthan University (V. L-A January 1972 to June 1972—pp. 305-317). A perusal of these minutes shows that the anticipated cost of running Index India as an independent unit is likely to exceed Rs. one lakh. The Pande Committee recommended in this context that the University should create only three full-time posts in its regular budget with effect from 1-4-1972 as under :

1. One Documentalist in the grade of Rs. 700—1250
2. One Asstt. Documentalist in the grade of Rs. 400—950
3. One LDC in the grade of Rs. 110—230

The G.S. Sharma Committee which reviewed the recommendations of the Pande Committee accepted the above recommendation with a proviso that " 50% expenditure on the documentation (Index India) unit shall be met out of the Index India funds and 50% shall be borne by the University out of the State plan funds." However, Later the Finance Committee declined to bear 50% of this expenditure out of the University funds.

The Syndicate, thereafter, resolved to set up a Managing Committee to take over-all charge of Index India Project. At present the following are the members of the Managing Committee :

- | | | |
|-----------------------|---|----------|
| 1. Prof. Daya Krishna | — | Chairman |
| 2. Shri N.N. Gidwani | — | Member |
| 3. Ranjit Singh | — | " |
| 4. Shri P.C. Bhargava | — | " |
| 5. Shri S.N. Mathur | — | " |

We feel that this project must continue. One way to keep it running is to identify the quantum of work to be assigned on rate-contract basis, which may than be permitted to such members of the staff of the library as volunteer to do the job outside their office hours. However, at least two full-time persons should be provided to ensure a coordination and consolidation. One way to implement this suggestion would be to accept in full the original recommenda-

LL.B. degree or officers holding equivalent position in industry with at least 10 years standing in the field, and having LL.M. degree or practising lawyers of at least 10 years standing with professional experience in Labour Laws having LL.B. degree.

6. Whole time teachers for Post-graduate Diploma course in Criminology and Criminal Administration must, in addition, possess specialisation in Criminal law at the LL.M. examination or should have two years experience of Criminal Law. Part-time teachers for this Diploma course may be police Officers not below the rank of Deputy Superintendent or medical men possessing M.B., B.S. degree or duly qualified Hand writing Experts of at least 10 years standing in the field with LL.B. degree or practising lawyers of at least ten years standing with professional experience in criminal law having LL.B. degree or Judicial Officers not below the rank of Assistant Sessions Judge.
7. In the case of a candidate already in employment in a College on the date on which these amended provisions have come into force, the aforesaid qualifications can be relaxed but they shall in no case be immediately before these amended provisions come into force.

(ii) The demand of the students to the effect that the scheme of sessional assessment be restored for LL.B. and for the Post-graduate examinations presented before the Vice-Chancellor at a meeting held on the 20th December, 1978 when the Vice-Chancellor informed the deputation of the students that restoration of sessional assessment with 15% weightage at the LL.B. Examinations was already under consideration and the matter will be discussed by the Academic Council at its next meeting. The demand of giving 10% weightage at the post-graduate Examinations shall also be referred to the Academic Council as desired by the students, and

(iii) A demand of the students outlined in the charter of the demands presented to the Vice-Chancellor by the president of students Union (APEX) in the meeting itself read as follows :

“राजस्थान विश्वविद्यालय की विवि कक्षाओं और स्नात्कोत्तर कक्षाओं में पूर्व की भांति सेशनल (Sessional) लागू किये जायें।”

Having discussed the matter at length the Council came to the conclusion that the re-introduction of the internal assessment/sessional marks either at the LL.B. Examinations or Post-graduate examinations or at under-graduate examinations in any form is not at present in the academic interest.

The council therefore, reiterated its earlier decisions and *resolved to recommend that the status-quo* be maintained.

(4) The Council considered the following :

(i) the demand of the students to the effect that the requirement of compulsory attendance be abolished for degree as well as post-graduate examinations discussed with the Vice-Chancellor by the Presidents of the Students Unions at a meeting held on the 20th

The Council considered the matters relating to the provisions of compulsory attendance at length and the consensus was that the abolition of the provisions of compulsory attendance is not in the academic interest nor is in the interest of the students.

Resolved to recommend that (i) the relaxation in the provisions of compulsory attendance as contained in paras 2,3,4 and 7 of Dr. B.C. Mehta Committee recommendations referred to above be accepted, (ii) the recommendations with regard to the submission of medical certificate for seeking condonation in the shortage of attendance as made vide para 5 of the recommendations of Dr. Mehta Committee be accepted and status-quo be maintained, and (iii) the recommendations of the Committee as contained in para 6 to the effect that the courses of semester and annual schemes of post-graduate examinations being different, it is not feasible to allow a change over from semester scheme to the annual scheme of examination or *vice-versa*, and therefore be also accepted.

(5) Arising out of the foregoing resolution No. 4 of these minutes with regard to the provisions of compulsory attendance and also keeping in view the hardship of the students on account of special circumstances prevailing during this session, the Council considered the measures to mitigate the hardship to such students as will not be able to complete the required minimum attendance.

Resolved to recommend that (i) such Candidates as are short of the required minimum attendance prescribed under the rules and consequently are liable to be detained from appearing at the examinations, be given an opportunity to get their candidature converted as non-collegiates upto 31st March, 1979 wherever permissible under the existing ordinances by submitting an application to this effect duly recommended by the Head of the Institution concerned, (ii) such candidates be allowed to get their candidature reconverted as a regular student next year

(7) The Council considered (i) the following demand of the students placed before the Vice-chancellor by the Presidents of the Students Unions of the University at a meeting held on the 20th December, 1978 along with the observations of the Vice-Chancellor to the effect that the same will be placed before the Academic Council for consideration.

"At present where there is more than one paper in a subject, a student who is declared eligible for supplementary examination is required to appear in all the papers of that subject at the supplementary examination. Instead of requiring the student to appear in all the papers, he should only be required to appear in only that paper in which he fails."

and (ii) the following demand outlined in the demand charter submitted by the President of the Rajasthan University Students Union (APEX) in the meeting of the Academic Council itself :

"पूरक परीक्षा में छात्रों को जिस विषय में फेल घोषित किया जाये उसमें छात्र जिस पेपर में फेल हो वही परीक्षा ली जावे ।"

The Council considered different aspects of the issue and having discussed it at length *resolved to recommend that* (i) the request of the students be accepted in principle, (ii) the results of such candidates, when permitted to appear in the failing paper (s) only instead of appearing in all the papers of the failing subject at the time of supplementary examination, be worked out by taking into account the minimum marks required for a pass in the subject if the candidates pass in the

(2) Resolution No. 29 dated the 1st October, 1978 of the Academic Council :

The Council considered a request from some students duly endorsed by the Dean, Students Welfare under the cover of his letter No. DSW/1385 dated 16th Sept., 1978 to the effect that candidates passing the M.A./M.Com. II Semester Examination be permitted to appear at M.A./M.Com. Final Examination under the annual scheme as students of the Correspondence Course or non-collegiate candidates.

The Council also noted that the division at the Final Examination under the annual scheme is determined on the basis of marks obtained at the previous and Final Exam. taken together. At present there is no provision for admission of candidates passing M.A./M.Com-II Semester to M.A./M.Com. Final Examination of annual scheme or for admission of candidates passing M.A./M.Com. the Institution. The Committee gave a second thought to this matter at its meeting held on 5th January, 1979 in the light of the practical difficulties pointed out by the office that the nomenclature of the papers in different semesters being different, it would be difficult to carry forward the shortage in attendance of a particular paper of a lower semester to be made up in the attendance of a paper of higher semester with a different nomenclature. On re-consideration, the Committee felt that the existing *para III* of O.145-A should stand as it is, and the following sentence be added at the end of this para :

“A candidate who is detained from appearing in one or more papers in accordance with the foregoing provisions shall be eligible to appear in those papers at a subsequent examination either exclusively as an ex-student notwithstanding the requirement of minimum attendance provided in clause (1) of O.144 or alongwith the next higher examination as a regular student.”

(3) The Committee examined the existing ordinances with a view to require the candidates to put in a minimum of 66% attendance for being eligible to appear at the examinations and to introduce provisions regarding condonation of shortage in attendance as were applicable for the examinations of 1975 and recommended that the following amendments be made to the existing Ordinances :

O.144 :

(A) Delete the following sentence from paras 1 (a), 1(b), 1(c), 1(d), 2(a), 2(b), 3(b), and 5 :

“No concession of any kind shall be granted to the candidate for condoning the shortages in attendance.”

(B) Delete the following sentence from paras 3(a) 4, 5(a), 6(b), 6(c), 7(a) 7(c), and 8 :

“Attendance may be condoned to the extent as per provisions of O.145 infra.”

(C) Substitute the following sentence for the sentence “A candidate who fails to put in the required minimum attendance shall be detained from appearing at the examination” occurring at the end of the First Para of this Ordinance :

“Subject to the provisions of condonation of shortage in attendance as contained in O.145 and the provisi-

The Committee also took into consideration various communications received from the UGC, Director of College Education & some Faculty Members.

Accordingly, the Committee reviewed the minimum qualifications for appointment of teachers in the University Teaching Deptts. in the Faculty of Commerce (including Institute of Management), Faculty of Law and Faculty of Education laid down in the O.141 B and O.141C of the University Hand Book Part—II. The Committee also reviewed the minimum qualifications for teachers in the various faculties in the Colleges affiliated to the University of Rajasthan as laid down in O.65 of the University Hand Book Part—II.

The Committee recommends that (i) O.141 B and O.141C laying down minimum qualifications for appointment of teachers in the University Teaching Departments in the Faculty of Commerce (including Institute of Management), Faculty of Law and Faculty of Education be revised as given in *Annexure—I* and O.65 laying down minimum qualifications for teachers in affiliated colleges be revised as given in *Annexure—II*.

The Committee further recommends as under :—

1. The words 'any of' occurring in the para below *Explanation* of the qualifications prescribed for University teachers/Research Associates in the Faculties of Humanities/Social Sciences and Science under para commencing with the words '*Provided further*' in sub-clause (ii) between the words 'an average of 60% marks, and in the two examinations prior to Master's degree' be deleted. It is being recommended in view of the U.G.C. guidelines where average of only two examinations prior to Master's degree is to be taken into consideration.
2. The following new para and note *be inserted* after the para commencing with the word *Explanation* and before the para commencing with the words *Provided further* under the qualifications prescribed for Lecturers/Research Associates in the Faculties of Humanities & Social Sciences and Science.

"Provided that if a candidate possesses experience of teaching degree/post-graduate classes for atleast three years, a relaxation upto 3% marks may be allowed in the percentage of marks required in (b) above and/or in explanation thereof.

N.B. :—One year for purpose of teaching experience will be deemed to be an academic session's major part i.e. not less than six months."

at Jaipur and Kota and efforts are on way to acquire one at Ajmer. We recommend that during the Fifth Plan the University should persuade the UGC to establish three additional centres at Alwar, Bikaner and Bharatpur.

Mobile Library Service : We would also recommend that the UGC may be asked to sanction the establishment of a mobile library service to supplement the library service of affiliated colleges situated within a radius of 150 kilometres from Jaipur. For that a mobile library van with accessories would be needed, which would cost one lakh rupees, with a recurring grant of Rs. 10,000/- per annum. The over-all supervision of the centres and the mobile library service should be the responsibility of the Director of University libraries.

Unesco Club : At the suggestion of the Ministry of Education Government of India, the University Library had set up some years back a 'UNESCO CLUB' in the University Library. The Ministry of Education sends literature pertaining to the UNESCO activities, notices regarding employment opportunities all over the world and other materials for display and record. It is recommended that a separate corner be earmarked for this activity and that the person in-charge be given token allowance. Effort may also be made to get the University Library recognized as a repository of the U.N.O.

Departmental Faculty and Hostel Libraries : To ensure proper and effective use of text-books, rightly in demand, we would recommend that students of the departments be served within the respective departments. To facilitate that service multiple copies of text-books (subject-wise) should be transferred to the departments where the heads may ensure that their use is maximised. The Central Library should, however, continue to have 'counter' service of text-books and books of reference.

We recommend that there should be faculty libraries for each of the faculty building, where suitable accommodation should be provided to keep and service basic books and journals to students and teachers. These libraries may function only during the normal working hours of the faculties concerned. Minimum staff required for one shift will have to be provided. The book stock can be drawn from the Central Library in order to keep the expenses on this system within reasonable limits.

With the winding up of Chhatra Sadan (hostel) the collection of books and reading material attached to that hostel should be made available to residents of different hostels. Wardens of respective hostels should be incharge of these proposed units with the help and co-operation of inmates.

mend that such a dormitory be constructed at a convenient place on the campus as near the University Library as possible. The University Engineer may be asked to prepare plans and estimates in this regard.

Air-conditioning : It is suggested that at least two reading halls and one stack hall (out of the eight that we have at present) should be air-conditioned (*Annexure XXIII*). Such reading halls would facilitate serious students, researchers and teachers. The stack when air-conditioned would be used to store valuable publications, out-of-print and rare material, manuscripts and other fragile and costly material. The cost of air-conditioning for each of these two units will be approximately Rs. 5 lakhs.

The present arrangement whereby 'khas tattas' are installed during summer for two reading halls involves substantial recurring cost and yet it is a futile exercise in view of shortage of water. University Engineer's letter No. 872 of 22-5-74.

Building up of Rajasthani Collection : The Review Committee feels that to promote *research activities in the University*, the Rajasthan University Library should build up various area studies collections. This library should *invariable* start by building up a very *strong collection on Rajasthan*. It should endeavour to acquire a copy of all relevant published material on Rajasthan in all the languages adequately supplemented by manuscripts, gramophone records, types of Rajasthan dialects, pictures, photographs and paintings so that it may become a true centre for study and research on the economics, politics, history, sociology, literature, language, culture, crafts and fine arts of Rajasthan. Similarly, election data and Assembly documents (Vidhan Sabha) should be carefully collected and preserved. This collection will be meant for reference purpose. What cannot be procured in original may be obtained through xeroxing and micro-filming facilities, which have already been acquired by the University Library. The following extra staff will be minimally required to over-see and run this section efficiently :

Assistant Librarian—One
Tech. Assistant—One
Jr. Tech. Assistant—One
Typists (both for
Hindi and English)—Two
Book Attendant—One

A non-recurring grant of rupees one lakh for acquisition/procurement by micro-filming/xeroxing of the relevant material listed above, may be made, in addition to a recurring grant of Rs. 10,000/- per annum.

Documentation Unit : The University library is receiving approximately 2000 journals. It is necessary that if adequate and

Or

If a candidate has Doctorate degree, relaxation upto 5% marks may be given in the percentage of marks required in (a) above and/or in Explanation given there.

- Vocal (i) At least a high second class degree of Sangeet Nipuna of Madhav Music College, Gwalior conferred by the Registrar Departmental Examinations, Gwalior.

a part of the grants sanctioned by it for purchase of books and journals may be diverted for purchase of educational films. This would be a desirable development and we recommend that two film projectors along with accessories be acquired and a small film library be gradually built up. *A sum of Rs. 1.5 lakh in the Fifth Plan* would be required for this purpose. For this unit, a projectionist in the LDC grade would be needed.

Hindi Library : While the University Central library is acquiring books published in Hindi in all subjects taught in the University, the system of classification and shelving is such that books in Hindi language get merged with books in other languages since shelving of books is done subjectwise, irrespective of the language in which the books are written.

The number of students opting for Hindi medium is likely to increase further in the near future. It would, therefore, be desirable that a separate unit be set up in the University Library which would contain books exclusively of Hindi language, arranged Subject-wise. This will enable the students to derive maximum benefits and would also help the library to build up a well-balanced and all round collection in Hindi. The catalogue of this section should be maintained in the Devanagiri script.

The following staff would be necessary to organise and run this section :

1. One Asstt Librarian
2. One Technical Assistant
3. Three Book Attendants.

Text Book Bank : keeping in view the fact that more and more students from weaker sections of the society are now entering the University and at a time when the prices of books, including text-books, have been on the rise, it is desirable that the University should consider setting up a text-book bank where from such students as cannot afford to buy their own text-books might get core text books on long term loan basis for a full semester/term. This would mean that multiple copies of important text-books will have to be acquired. Rules of issue should be simplified so that maximum use of these books is ensured. The University may get this service started by making a provision for Rs. 2 Lakhs by way of non-recurring expenses and about Rs.25,000/- by way of recurring expenses. Matching subsidy from the U.G.C. might also be procured. This text-book bank should be located at a convenient place on the campus.

Printing of Catalogue Cards : Since the University Library possesses a printing unit of its own, we recommend that the cataloguing work, at present type-written, should hereafter be printed, This

always the case. This need deserves to be met on a priority basis.

3. We found that there has been a spurt in mutilation of publications and their pilferage. These have been done in several ways which need not be identified here. It is a deplorable reflection on the library users, whoever they might be, because it deprives generations of lasting and effective use of precious reading material. The *exit* of the library should be *adequately manned* and *thorough search* of outgoing users should be made. Offenders must be given deterrent punishment by the University authorities concerned. This is a very serious problem and the University should take immediate and effective measures.

4. Regular power failures, especially after sun-set, add to the problem listed under item 3 above. We suggest that the staff at the exit should be *provided with powerful torches to perform their duty* and frustrate any attempts at pilferage by outgoing users.

5. If and when new courses/classes/sections are started, the library should be informed in good time of the likely increase in the number of students so that suitable additions to core text-books be made to avoid "scramble for required books."

6. While some of the problems of violation of discipline within the library should be resolved with effective enforcement of suggestions under item 1 above, we feel that it is necessary for members of the library staff to take rounds regularly and enforce quiet and discipline wherever necessary. Erring users should invariably be asked to quit and the matter be reported to the Vice-Chancellor for further action.

7. Library rules at present *do not permit fines to be levied on books that become over-due from Students*. This needs *immediate rectification*, in view of making available books to needy users and also to effectively implement the 'reservation' system.

8. We have recommended elsewhere that a separate new building be constructed which will meet the growing needs of the increasing number of readers. We have also suggested elsewhere that the text-book libraries be established in every department as also a centralised book-bank for undergraduate and post-graduate students so that the needy students may be in a position to draw books for the entire term/semester on payment of a modest sum. This would ease the inflow of users in the library.

9. In view of large scale pilferage and mutilation as reported to us, we have no hesitation in recommending that 'controlled access' to library holdings be enforced in case of student-users. That would mean adequate attendant staff for expeditions procurement of requisitioned reading material and corresponding changes in procedure.

2. 1978 की विद्वविद्यालय परीक्षाओं में विद्वविद्यालय ने संस्कृत शिक्षा विभाग से तृतीय/द्वितीय वेतन शृंखला के अध्यापकों की नियुक्ति उड़न दस्ते में की थी तथा ऐसे अध्यापकों ने स्नातक एवं स्नातकोत्तर कालेजों में परीक्षाओं का निरीक्षण किया था। विद्वविद्यालय की परीक्षाओं में तृतीय/द्वितीय श्रेणी के शिक्षकों की उड़न दस्ते में नियुक्ति किया जाना अनुचित है, अतः भविष्य में इस परम्परा को बन्द किया जाये।

विषय : संस्कृत अध्ययन संकाय की बैठक में विचारार्थ प्रस्तुत किये जाने के लिये प्रस्ताव ।

महोदय,

संस्कृत अध्ययन संकाय की आगामी बैठक में विचारार्थ प्रस्तुत किये जाने हेतु निम्न प्रस्ताव प्रेषित कर रहा हूँ । कृपया इन्हें आगामी बैठक के एजेन्डा में सम्मिलित करने की कृपा करें ।

1. संस्कृत कालेजों में महाविद्यालय विभाग के साथ-साथ विद्यालय विभाग भी चलता है । यहाँ विद्यालय तथा महाविद्यालय दोनों ही विभागों का एक ही प्राचार्य होता है । ऐसी स्थिति में प्राध्यापकों को कालेज कक्षाओं के साथ-साथ विद्यालय की कक्षाएँ भी अध्यापन हेतु दी जाती हैं । इस प्रकार प्राध्यापकों के पास विश्वविद्यालय द्वारा निर्धारित अन्तरों से अधिक अन्तर हो जाते हैं तथा अनावश्यक रूप से कालेज कक्षाओं के छात्रों के अध्ययन कार्य में बाधा पहुँचती है । उक्त परिस्थितियों में प्राध्यापकों से विद्यालय कक्षाओं को पढ़ाने का कार्य लेना विश्व विद्यालय के नियमों के विपरीत है । अतः निदेशक, संस्कृत शिाला, राजस्थान, जयपुर से निवेदन किया जावे कि प्राध्यापकों से विद्यालय विभाग की कक्षाओं को पढ़ाने का कार्य न लिया जावे ।
2. शास्त्री प्रथम वर्ष के साहित्य विषय के द्वितीय पत्र में काव्यालंकार (तृतीय परिच्छेद) या काव्यादर्श नामक पुस्तकें निर्धारित हैं । काव्यादर्श के तृतीय परिच्छेद में लगभग 60 श्लोक हैं तथा काव्यादर्श में लगभग 300 श्लोक हैं । अतः पूरे काव्यादर्श को उक्त पत्र में निर्धारित करना विद्यार्थियों के हितों के सर्वथा

- (ii) कम से कम द्वितीय श्रेणी में आचार्य अथवा एम०ए० जिसे न्यूनतम 8 वर्ष का शास्त्री अथवा आचार्य कक्षाओं का अनुभव हो ।

5. विश्वविद्यालय के वर्तमान नियमों के अन्तर्गत टी०डी०सी० प्रथम वर्ष के अनिवार्य विषयों एवं एक वैकल्पिक विषय में अनुत्तीर्ण छात्र द्वितीय वर्ष टी०डी०सी० की परीक्षा के साथ-साथ अनुत्तीर्ण विषयों की परीक्षा भी देने का अधिकारी है तथा वह उक्त अनुत्तीर्ण विषयों की परीक्षा तब तक देते रहने का अधिकार है जब तक कि वह अनुत्तीर्ण विषयों में उत्तीर्ण न हो जाये । ऐसे परीक्षार्थियों के लिये अन्तिम वर्ष में प्रवेश से पूर्व प्रथम वर्ष के अनुत्तीर्ण विषयों को उत्तीर्ण करना आवश्यक है । इसी प्रकार द्वितीय वर्ष टी०डी०सी० के ऐच्छिक विषयों में से एक विषय में अनुत्तीर्ण छात्र भी अन्तिम वर्ष की परीक्षा के साथ द्वितीय वर्ष के अनुत्तीर्ण विषय में परीक्षा देने का अधिकारी है । ऐसा छात्र द्वितीय वर्ष के अनुत्तीर्ण विषय की तब तक परीक्षा देने का अधिकारी है जब तक कि वह उसमें उत्तीर्ण न हो जावे । अन्तिम वर्ष टी०डी०सी० के एक विषय में अनुत्तीर्ण छात्र भी तब तक उस विषय की परीक्षा देने का अधिकारी है जब तक कि वह उस अनुत्तीर्ण विषय में उत्तीर्ण न हो जाये । ऐसे छात्र का अन्तिम वर्ष का परीक्षा परिणाम तभी घोषित किया जाता है जब कि वह अनुत्तीर्ण विषय को उत्तीर्ण कर लेता है ।

उक्त नियम केवल टी०डी०सी० कक्षाओं के विद्यार्थियों पर ही लागू होता है तथा शास्त्री कक्षाओं के छात्र इस सुविधा से वंचित हैं । अतः उक्त सुविधा शास्त्री कक्षाओं के परीक्षार्थियों को भी प्रदान कराई जावे ।

विश्वविद्यालय के समानान्तर राजस्थान विश्वविद्यालय की शास्त्री आचार्य परीक्षाओं में किया हुआ है। केवल यहाँ अन्तर यह है कि वाराणसेय संस्कृत विश्वविद्यालय ने एक लक्षण-ग्रन्थ को दो तीन भागों में विभाजित कर उनके एक के स्थान पर दो या दो से अधिक प्रश्न-पत्र निर्धारित कर दिये हैं, जबकि राजस्थान विश्वविद्यालय ने अपने पाठ्यक्रम में उन सभी ग्रन्थों का समावेश तो पूर्णतया कर रखा है और पाठ्यांग भी वाराणसेय संस्कृत विश्वविद्यालय से न्यून नहीं है किन्तु प्रश्नपत्रों की संख्या बी.ए., एम.ए. के समानान्तर शास्त्री एवं आचार्य में निर्धारित कर रखी है। शैक्षिक स्तर एवं परीक्षा स्तर में इस कारण कोई न्यूनता नहीं रहने पाई है केवल आचार्य राजस्थान के पाठ्यक्रम में मूलभूत यहाँ न्यूनता है कि वाराणसेय आचार्य की तरह यहाँ आचार्य परीक्षा में मौखिक परीक्षा का प्रावधान नहीं है।

प्रौढ़ पाण्डित्य के उपपादन के लिए समिति की राय है कि आचार्य में भी एम.ए. की तरह मौखिक परीक्षा का एक अतिरिक्त प्रश्नपत्र निर्धारित हो और वह सम्बद्ध शास्त्रीय समग्र अध्ययन पर आधारित हो, रखा जाय तथा उस परीक्षा का आयोजन आगामी वर्ष से (आचार्य परीक्षा 1980) भाग दो के अन्त में कराया जावे। इसके लिए परीक्षा योजना में यथास्थान संशोधन करा दिया जावे। उस संशोधन का प्राक्ष्य निम्नलिखित होगा :--

प्रत्येक मुख्य विषय के द्वितीय भाग की आचार्य परीक्षा में नवम प्रश्न-पत्र वाक्परीक्षा का होगा और इसके पूर्णांक 100 होंगे उसमें न्यूनतम उत्तीर्णांक सैद्धान्तिक उत्तीर्णांक के समान ही होंगे।

7. Technical Requirements : Reclassification and Recataloguing Technical Processing :

The University Central library has been using since 1963 two different editions of Colon Classification, part of its acquisition is processed by edition 3 and part by edition 6. Edition 3, issued in 1953, is out-of-date its copies are not available in the market and only two members of the library staff know its operation. Most of the present staff of the Central library are conversant with edition 6.

We examined this problem in detail and recommend that the University library should switch over to one uniform classification scheme. This would mean that the entire stock which is at present classified and catalogued according to edition 3 will have to be re-classified according to edition 6 and re-catalogued. This is a time-consuming task which will have to be completed over a period of time. The methodology and relevant particulars in this regard are detailed in *Annexure XXIV*.

This process of re-classification and re-cataloguing will naturally require additional staff as detailed here-under :

1. One Assistant Librarian.
2. One Technical Assistant.
3. One Jr. Tech. Assistant,
4. One Book Attendant.

8. Requirements Pertaining to Furniture and Equipment :

Particulars of furniture available and acquired during 1952-1973 are given as *Annexure XXV*. In the new extension part of the Central Library building there are four new stacks of which two have so far been furnished with steel shelving and which have been fully utilised. The remaining two stacks are lying bare. The library is adding about 12,000 volumes per annum. On an average 20 books can be accommodated on one shelf. Thus 600 shelves are required per annum; that is, 3000 shelves for five years.

In view of the above, we recommend that all the empty stacks in the new extended part of the library be provided with steel shelving. A sum of about Rs. 2,00,000/- will be needed for this purpose. It is understood that the University has allocated a sum of Rs. 25,000/- for this purpose in the budget estimates for the year 1974-75. A similar yearly provision may be made hereafter till such time that the stacks are fully furnished with steel shelving. In addition, 5% of the Central library budget for books and periodicals should be regularly ear-marked for purchase of steel shelving hereafter.

हैं उन्हें इस विषय में पूर्ण कालीन नियुक्ति की अपेक्षा अंश कालीन अंग्रेजी
प्राध्यापक की नियुक्ति को ही सम्बद्धता हेतु निर्धारित नियमानुसार उचित
मान लिया जाना चाहिये ।

from time to time, grant-wise. We were also told that a duplicate system of account is maintained in the Registrar's office. The latter may be eliminated to avoid meaningless duplication and to ensure economy. We also recommend that cheques for library purchases should be made out and forwarded by the library and these may continue to be signed by the Registrar or his deputy as hitherto. It would, therefore, be necessary to open a separate bank account in the name of the library at the beginning of the financial year to which all the grants ear-marked for the year in the budget book in regard to library purchases may be transferred. This arrangement will ensure prompt payments to suppliers which, in turn, will ensure better service to the library. This arrangement would also enable the library to intimate to the suppliers/publishers, while forwarding the cheques, reasons why reductions, if any, are made from their bills. This system of entrusting issuing of cheques to libraries is in vogue in many other Indian Universities. It would be advisable to institute, in this context, internal audit to ensure expeditious work by the library. It was brought to our notice that timely subscriptions for journals have not always been made with the result that the supply would come to an abrupt stop and gaps thus created in the holdings of journals could not be filled up. This type of situations will also be avoided if the payments are to be made by the library with adequate checks as indicated above.

Unspent library grants :

It would be of lasting benefit if the University authorities explore the possibility whereby the unspent book grants of a particular year could be carried over to the grants of the following year. This would ensure that books grants need not lapse at the end of the year.

Mode of grant allotment :

At present subject-wise grants are allotted in the budget book for the purchase of publications which the concerned department may choose to have. We would suggest that hereafter this grant be split up on the following pattern :

1. Amount to be spent on payment of current subscription to journals.
2. Amount to be spent for purchase of new titles.
3. Amount to be spent on multiple copies of text-books for use by students.
4. Amount to be spent on purchase of back-volumes, micro-films etc.

The Heads of Departments and the University library may be empowered to make marginal adjustment amongst the four

- ग्रामीण क्षेत्र में यह महाविद्यालय संस्कृत की अच्छी सेवा कर रहा है
पोपक संस्व विद्यालयों तथा छात्रावास सुविधा के अभाव में छात्र संख्या
की वृद्धि में बाधक है। अतः दल की राय में:—
1. पूर्ण सुविधा सम्पन्न छात्रावास का प्रवन्ध कराया जाय।
 2. प्राध्यापक साहित्य का दूसरा पद दिया जाय।
 3. शारीरिक शिक्षा में प्रशिक्षित स्नातक प्रशिक्षक उपलब्ध कराया
जाय।
 4. खेल मैदानों का योजना वद्ध विस्तार हो।
 5. आवर्तक प्रावधान पुस्तकालय। वाचनालय एवं अन्य साज
सामान हेतु आवंटित हो।

महाविद्यालय के साथ विद्यालय विभाग संयुक्त है। विश्वविद्यालय
शैक्षिक संरचना के अनुसार यह उपयुक्त प्रतीत नहीं होता। बताया गया कि
यह संस्कृत शिक्षा क्षेत्र में प्रान्तव्यापी प्रश्न है। दल की राय है कि विश्व-
विद्यालय राज्य सरकार से इस संदर्भ में आग्रह पूर्ण दबाव डाले।

श्री कुलपति महोदय,
राजस्थान विश्वविद्यालय,
जयपुर ।

विषय :— हिन्दी व अंग्रेजी भाषाओं का पाठ्यक्रम व शिक्षण स्तर
मान्यवर,

निवेदन है कि राजस्थान विश्वविद्यालय द्वारा ली जाने वाली प्रथम वर्ष कला, वाणिज्य व विज्ञान परीक्षाओं में निर्धारित हिन्दी व अंग्रेजी का पाठ्यक्रम गत कुछ वर्षों से विवादग्रस्त रहा है। विश्वविद्यालय ने इन भाषाओं के शिक्षण को सामान्य विषयों के रूप में स्वीकार किया है और समय-समय पर उसमें इतनी सुविधाएँ दी हैं जो कि छात्रों के भाषा सम्बन्धी शिक्षण स्तर के लिए वरदान न होकर अभिशाप सिद्ध हुई हैं। इस समय चल रहे नियमों के अनुसार प्रथम वर्ष कला, वाणिज्य और विज्ञान के छात्रों को तीन चार बार में सम्मिलित होकर विषय को उत्तीर्ण कर लेने मात्र की छूट मिली हुई है। फलस्वरूप उक्त भाषाओं की अपेक्षित योग्यता प्राप्त करने से छात्र वंचित रहते हैं तथा शिक्षण के स्तर में गिरावट आई है।

विश्वविद्यालय के स्नातक परीक्षा उत्तीर्ण करने वाले अधिकांश छात्र न तो हिन्दी की अपेक्षित योग्यता प्राप्त कर पाते हैं न अंग्रेजी की। यही कारण है कि शिक्षित बेरोजगारी दिन पर दिन बढ़ती ही चली जा रही है और विश्व-विद्यालय का भाषा सम्बन्धी शिक्षण स्तर अन्य विश्वविद्यालय की तुलना में निरन्तर गिरता जा रहा है। छात्रों में व्याप्त असंतोष और आक्रोश के मूलभूत कारणों में से एक कारण यह भी है। यह स्थिति अत्यन्त चिंताजनक एवं विषादपूर्ण है।

मेरा निवेदन है कि आप कला संकाय को निर्देश दें कि हिन्दी और अंग्रेजी का पाठ्यक्रम रुचिकर एवं समयोपयोगी बनाया जाय और प्रथम वर्ष कला, वाणिज्य व विज्ञान के छात्रों के लिए सामान्य हिन्दी व सामान्य अंग्रेजी इन दोनों ही विषयों में एक ही बार में उत्तीर्ण होना अनिवार्य हो एवं इन विषयों के अंक श्रेणी निर्धारण में जोड़े जायें। विश्वविद्यालय के शैक्षणिक स्तर को उच्च रखने व छात्रों को हिन्दी व अंग्रेजी का समुचित ज्ञान प्राप्त कराने की दिशा में यह प्रयास अवश्य किया जाना चाहिए।

चुकी हैं। आर्थिक वर्ष समाप्ति तक विश्वविद्यालय के नियमानुसार इसे पूरा करा लेने का आश्वासन प्राचार्य जी द्वारा दिया गया है।

(ii) Are the accounts audited each year ? हां प्रतिवर्ष आडिट होता है।

(iii) Enrolments and emergency or reserve funds, how are they invested संस्था के पास एन्डाउमेंट फंड, इमरजेंसी या रिजर्व फंड की कोई राशि जमा नहीं है।

(iv) Whether their is adequate income to meet the normal increments of the staff etc. संस्था की फीस की कोई आय नहीं है। वार्षिक वेतन वृद्धि आदि की पूर्ति का प्रमुख स्रोत राजकीय अनुदान है।

4. Grants :

(a) Are the recurring and non-recurring grants provided and spent etc. सन् 77-78 का आवर्तक व्यय निम्न है। अगले वर्ष अर्थात् 78-79 में प्रावधान किया गया है।

विश्वविद्यालय वास्तविक प्रावधान अनुसार व्यय 78-79

पुस्तकालय	500	63.29	500
फर्नीचर	500	93.80	500
खेल	500	532.86	

अनावर्तक व्यय निम्न प्रकार है जो नियमानुसार पूरा हो गया है विश्वविद्यालय से निश्चित बिलेन्स शीट के अनुसार किया हुआ।

पुस्तकालय	1500	3900.98
फर्नीचर	3000	5192.84

(b) Are the science department and library properly equipped. पुस्तकालय व्यवस्थित है। साइन्स की कोई आवश्यकता नहीं है।

प्राचार्य श्री राधेश्याम त्रिपाठी, गवर्नमेंट कालेज, केकड़ी के डी ओ. न. G.C.K./877 दिनांक 22-2-79 द्वारा प्रेषित निम्नांकित सुझाव :-

काफी लम्बे समय से उच्च शिक्षा के क्षेत्र में परिवर्तन की चर्चाएँ जुनने को मिलती रही हैं। पिछले दिनों में आयोजित राजस्थान प्राचार्य सम्मेलन के अवसर पर हमारे लोकप्रिय मुख्यमंत्री माननीय श्री भैरोंसिंहजी शेखावत ने प्राचार्य सम्मेलन का उद्घाटन करते हुए यह उद्घोषण दिया था कि राजस्थान के प्राचार्य व शिक्षा शास्त्री शिक्षा के क्षेत्र में राष्ट्रीय रीतिनीति व वर्तमान जीवन मूल्यों के सन्दर्भ में ऐसे पाठ्यक्रम का निर्धारण करें जिससे शिक्षा जीवनोपयोगी बन सके और आज का छात्र सच्चे रूप में शिक्षा की वास्तविक उपादेयता को स्वीकार कर कर्मयुक्त जीवनयापन करने में समर्थ हों सके। राजस्थान के शिक्षा शास्त्रियों को आह्वान करते हुए माननीय मुख्यमंत्रीजी ने बड़े ही मार्मिक शब्दों में अपील की कि राजस्थान को इस दिशा में पहल करनी चाहिये और शिक्षा के क्षेत्र में विद्वानों को अपना योगदान देकर राष्ट्र के इस महत्वपूर्ण प्रश्न के समाधान हेतु सक्रिय रूप से आगे आना चाहिये। अपने अध्यक्षीय भाषण में हमारे शिक्षा मंत्री माननीय श्री भंवरलाल शर्मा ने भारतीय राष्ट्रीय व सांस्कृतिक चेतना के अनुरूप शिक्षा के क्षेत्र में परिवर्तन की बात कहते हुए नैतिक एवं चारित्रिक शिक्षा के महत्व का प्रतिपादन किया।

इसी प्रकार राजस्थान विश्वविद्यालय के छात्र संघ के उद्घाटन-भाषण में जनता पार्टी के अध्यक्ष माननीय श्री चन्द्रशेखर जी ने भी इस महत्वपूर्ण प्रश्न पर विचार व्यक्त करते हुए शिक्षा को जीवनोपयोगी बनाने पर बल दिया। आपने राष्ट्रीय नीति व वर्तमान मानवीय मूल्यों के सन्दर्भ में शिक्षा को रचनात्मक स्वरूप देने के लिए छात्रों और अध्यापकों का आह्वान किया।

इससे यह स्पष्ट है कि आज हमारे राष्ट्र नेता शिक्षा में परिवर्तन की आवश्यकता को गम्भीरता से अनुभव करने लगे हैं। यह भी निर्विवाद सत्य है कि इस परिवर्तन में सबसे अधिक सक्रीय योगदान शिक्षा-शास्त्री ही दे सकते हैं।

राजस्थान विश्वविद्यालय का जहाँ तक सम्बन्ध है हम इस दिशा में पहल कर सकते हैं। हमारे विश्वविद्यालय का पाठ्यक्रम इस प्रकार निर्धारित किया जाये जिससे शिक्षा जीवनोपयोगी बन सके। पाठ्यक्रम में रोजगारोन्मुखी

In this context we would also like to quote the recommendation made by the National Seminar of University Librarians (1966) which resolved as follows :

"A sample stock-taking be done annually on quinquennial basis and normal loss of books be written off."

The Library Committee of the Punjab University Library has resolved as under :

"Resolved that only sample stock-taking of mostly used books be taken in alternative years."

We accordingly recommend that :

EITHER

A random sample stock-taking be done every year in the months of June and July. The Head of the University department of Statistics may be requested to supply 1000 random numbers lying between S. No. 1 and the last number in the accession records. He may depute one lecturer of his department to do the checking. The internal auditors of the University and one member of the library staff should assist him. A report indicating the extent of losses, mutilations, misplacements etc., should be prepared by him and submitted to the University Library Committee which may consider and devise remedial measures depending upon the nature and the contents of the report. The teacher may be suitably remunerated.

OR

Stock-taking should be a continuous activity throughout the year and it should embrace not only the Central library collection but also the collections in all other libraries run by the University. A separate small unit consisting of the following persons should be set up to carry this out :

1. One Asstt. Librarian
2. Two Technical Assistants
3. One Clerk-cum-typist
4. One restorer
5. Two Book Attendants

It would be the responsibility of this unit to first prepare an authoritative record, shelf lists etc., and then undertake continuous checking. In case of the alternative suggestion being approved the proposed staff will have to be sanctioned in addition to the existing staff of the University library and would exclusively perform the task of stock-taking throughout the year.

साथ ही माध्यमिक व उच्च-माध्यमिक स्तर से लेकर स्नातक स्तर तक दक्षिण प्रांतीय भाषा के अध्यापन के महत्व को भी हमें स्वीकार कर उसे पाठ्यक्रम में अवश्य स्थान देना चाहिये जिससे उत्तर व दक्षिण की खाई तो पाटी ही जा सकेगी, साथ ही भावनात्मक एकता की दृष्टि से भी यह कदम महत्वपूर्ण व लाभकारी होगा। साथ ही चरित्र में विकास और भारतीय सांस्कृतिक परिवेश में नैतिक जीवन जीने के लिए आपके छात्र को शिक्षित करना आवश्यक है।

अतएव माध्यमिक व उच्च-माध्यमिक स्तर से लेकर स्नातक स्तर तक रोजगारोन्मुखी शिक्षा का प्रावधान अतिआवश्यक है। इसको पाठ्यक्रम में किस प्रकार निर्धारित किया जाय, यह हमारे लिए गम्भीर विचार का विषय होना चाहिये।

3. One post of unqualified lecturer should be replaced by qualified one.
4. The subject wise distribution of students is lopsided and therefore unjust. In subjects like Sanskrit, Geography Economics and English the number of students fluctuates between 4 to 7 only whereas in subjects like commercial Practice and Book-keeping, History, Hindi, Civics, Social Studies, Maths. and General Science the number of students fluctuates as between 24 to 41 which is not desirable as it makes the real lecturer pupil ratio as 1:41. It is very strange to provide Commercial Faculty of 22 students when there is not a single Lecturer of Commerce made available throughout the session. Similarly to provide Science Faculty without two important subjects, Physics and Chemistry, nullifies the existence of Science Faculty itself. Moreover to admit 41 students in Science Faculty and to keep only two Science Lecturers (that two of Zoology and Maths) is basically unsound as Lecturer pupil ratio of 1:20 can hardly be justified. Instead of adjusting the subjects and students to the Lecturers available, lecturers should be made available as per subject demands. It is better to close the teaching subjects if the number of those who offer them do not exceed 4, 6 and 7. Similarly there is no Lecturer other than the Principal himself who is M.A. in English and it is least expected from a Principal to teach as well as supervise English lessons. All these adversely affect practice teaching and as such rationalization of the staff and judicious determination of teaching subjects and intake in each is a must.
5. Only a limited number of lessons of each candidate are supervised and not can present lessons. It is good however that the college is completing practice teaching in two rounds and also providing block-practice teaching.
6. The location, structure and adequacy of the college as well as hostel buildings and of staff quarters are appreciably satisfactory.
7. The condition of library, psychological Laboratory, Audio-Visual equipment and of playgrounds facility is quite normal.
8. The financial position of the college is sound.

13. Towards the Future :

We have not been able to assess and examine in depth the problems pertaining to the working of the libraries in the sub-campuses and other units. We would suggest that, as and when need arises, ad-hoc committees may be set up by the respective library committees in this regard.

The library is a growing organisation. The recommendations that we have made in this regard are for a span of 5 years.

The financial implications of our recommendations have been summarised in *Annexure-XXVIII* under priorities 'A' and 'B'. The total amount under these is estimated to Rs. 1332000/- and Rs. 27,79,000/-.

We recommend that such an exercise should be undertaken every five years and that after every 10 years there may be review

The inspection of the J.D.B. Govt. Girls College, Kota was made on the 8th June, 1978. The College is a growing institution for women with various subjects and also with preference to Home Science, Games and other co-curricular activities.

The College does need further development and in respect for which proper funds should be made available either at Govt. level or U.G.C. level. The Principal has various plans which are given in the proformas for further developments of the institution. The institution has fulfilled the required conditions and does need further development.

We are satisfied with the progress of the College and we recommend permanent affiliation be given to the institution.

(Dr. (Miss) L.M. Jacob)

Dr. (Miss) K. Zutshi

“The population policy of the Government of India was welcomed. It was noted that the Agricultural Universities had already recommended that population education be made a compulsory subject for their under-graduate courses. Resolved that a model syllabus for population education be prepared and circulated to the Universities for adoption in their under-graduate curriculum.

Resolved that consideration be postponed.

6. The Faculty considered the following proposals made by Shri K.B. Agrawal, Head of the Department of Law, Dungar College, Bikaner as contained in his letter, dated the 25th November, 1978 :

1. At present LL.B. and LL.M. classes in the affiliated colleges are temporarily affiliated with the University. The colleges have not been able to fulfil the requisit conditions of affiliation. They need constant Supervision by the University. For this purpose, inspection of them every year is very necessary. Since the University is charging inspection fee every year for temporary affiliation, it will not cause financial burden on the University.
2. The relevant Ordinance of the University, while accepting the mandatory conditions of the Bar Council of India requires three hours daily teaching in the LL.B. classes. Many colleges are providing only two hours study. It is proposed that every year principals of the colleges should certify that they have given three hours daily teaching to the LL.B. students. In this connection the Registrar should write a letter to all the Principals of the Colleges, Director of Education and the Education Commissioner.
3. There should be four hours teaching of the LL.M. students. This should be incorporated in the University Hand Book by way of Ordinance.
4. The general conditions of affiliation of LL.B. and LL.M. classes should be revised and properly framed.

9. Is Medical Examination of the students held. No such facility exists at present as explained at SNI (VI)
To summarise the college immediately needs the following

provisions :

1. Staff quarters.
2. Hostel facility because the college is far away as explained on S.N. 8.
3. Library grants in the sanctioned budget are not adequate to serve to the growing strength of students, efforts may be made to secure matching grants from the UGC. The Government be requested to provided more grants for the purpose.
4. In view of the conditions mentioned at S.No. 8 it will be very neccessary that college may provide its own bus service for students in order to a void student unrest due to the rough behaviour & irregular services of the Roadways.
5. The existing rooms are inadequate to accommodate the fast growing student population requirement. In this connection it is suggested that other more rooms be got constructed or facilities may be arranged to permit use of the accomodation available in the nearby Science College, Ladnun.
6. Immediate steps are needed for suitable medical facilities for the students.
7. Perhaps in Rajasthan it is the only place where two Degree Colleges exist with only a road in between. Efforts should be pooled under one Principal and management to make the two colleges a more viable a purposeful unit.
8. It is our considered opinion that in order to have quality teaching residential accomodation for the teachers on the campus is the most primary need of this place. Therefore, the University is requested to move the Government to take steps to construct the staff quarters.

Note of Dissent—Syndicate Meeting Held on 16-6-79

Ref. Res. No. 12 of the minutes of the meeting of the Syndicate :
Regarding Regular Selections :

I am of the opinion that Dr. D.C. Gautam's appointment as Micro-Analyst (Chemistry) should be held in abeyance till he is cleared in view of adverse remarks appearing in the Justice Jagat Narain Commission Report about his temporary appointment.

Ref. Res. No. 13 of the minutes of the meeting of the Syndicate :
Regarding Ex-cadre promotions :

I lodge my strong protest against the approach adopted towards ex-cadre promotions. The approach, which is based exclusively on the interview performance ignoring the career, experience, academic and co-curricular contributions, totally negates the spirit and content of the promotion Philosophy. It is not an objective but purely a subjective approach.

Had it been objective, the tragic debacle in Chemistry Department would not have occurred. It is irreconcilable to think that out of six senior lecturers including some with excellent records have been found unsuitable for promotion on the basis of the so called INTERVIEWS. What a travesty ?

I maintain that the seniority, academic achievements and co-curricular contributions should be given utmost weightage for promotion. The interview performance should constitute a very minor consideration. I, therefore, suggest that :

- (i) The assessment of Chemistry Lecturers should be re-arranged by a properly constituted Assessment Committee with one expert only.
- (ii) If by-passed, the senior persons should be reassessed objectively.
- (iii) The appointment of Dr. P. V. Bakore as Reader in Physics Department should not be held in abeyance if Dr. Gautam's appointment as Micro-Analyst in Chemistry is not withheld.

Sub. :—Ex-cadre Promotions to the posts of Readers
and Professors.

Dear Sir,

I received notice for meeting of the Syndicate to be held on 16-6-79. There is an item in the agenda which relates to consideration of the recommendations of the Assessment Committee constituted for Ex-cadre Personal promotion of University teachers to the higher posts under 5% ex-cadre personal promotion scheme. In this connection, I want to bring to your kind notice that this scheme was approved by the Syndicate a year ago with the condition that these promotions would be made after Government approval had been obtained. I had also given note of dissent in the same meeting when ex-cadre promotions were approved on the basis of old scheme. I learn that the Government has not approved this scheme and has written to the University that these promotions should not be made. In view of this communication, I request you to defer consideration of this item till Government approval is obtained. It is not possible to defer consideration of this item. I record my note of dissent and submit that as there is no provision for these promotions in the University Act, these promotions should not be made. These promotions have no legal validity also

Your faithfully,
Sd/-N.M. Kothari,
Member Syndicate,
Director of College Education.

To,

The Registrar,
University of Rajasthan,
Jaipur.

Sir,

Reference your letter No. F. 10(2) Aca Reg/78/6431-43 dated 28.3.79, I am not in position to attend since I am confined to bed. Therefore, I request that these points may be placed before the faculty.

1. It has been brought to my notice that in yesterday's meeting in Principal's office it has been decided that the tutorials in IInd year be totally abolished. In Maths. tutorials form the most essential part. Hence I propose the following scheme of examination :

Ist Year

6+1 T

(Two lectures for each paper)

IInd Year

4+2 T

Two lectures plus one tutorial for each paper)

2. Subject operation Research and Computer Programming :—

Neither our teachers are conversant with the topic nor they are free. Therefore one more person competent to teach this subject be appointed. Besides this after consultation with the authorities in I.I.T., I have come to the conclusion that the period required to complete it should be minimum 10 or course content be reduced

3. Regarding C-Sessionals in Maths : In III year (c) and IV year, I want to submit that on one hand the University is going to scrap the internal assessment and on this side we are going to introduce, may be for this year but this would have its own repercussion. I do not agree with this type of arrangement, because it will be simply a mockery with the subject of Mathematics.

4. Regarding Diploma Holders, I simply want to say that it being a separate category, therefore the divisions are not awarded as the University does not give division to a student passing out supplementary examination except that marks are written

In case the faculty does not agree with my proposal my note of dissent may kindly be put in the minutes of the faculty.

Yours faithfully,

Sd/-

APPENDIX—IV

(*Ref. Resolution No. 8 of the minutes*)

Copy of the letter No. 105 dated 20-3-1979 received from Shri D.R. Jain, Secretary, Sub-Engineers Association Rajasthan (B & R) P.W.D. Deptt. addressed to the Registrar, University of Rajasthan, Jaipur.

Subject : Admission for Engineering Diploma Holders to III B.E. regular course.

This Association brings to your kind notice regarding the rules for admission to Diploma Holders in III B.E. Degree course in M.R.E.C., Jaipur. We want to draw your kind attention towards the resolution passed by the Faculty of Engineering and Technology in the meeting held in the University on 13th January, 1974 (Resolution No. 43(iii) 5th point at page 267) for considering admission to Diploma holders in IIIrd B.E. qualifications were kept for the admission.

1. Higher Secondary (Science, Maths.) with 45% marks.
2. Diploma in Engineering with 60% marks.

Our Association has written many letters for the Principal M.R.E.C. and to Govt. to Change the above qualifications which seems to be illegal and irrelevant because of following reasons:—

- (a) Persons holding Diploma in Engineering After passing High School are not eligible for admission whereas the minimum requirement for admission to Polytechnics is *High School only*.
- (b) The qualification for Admission to B.E. course is Diploma in Engineering only in all the University of India (Copy enclosed).
- (c) Experience after detaining Diploma have not been taken into Account.
- (d) Persons holding Higher Tech. qualification like post-Diploma have not been considered.

Looking to the above point, it is requested that the above resolution may please be amended and this point may please be put up in the Agenda for the forth coming meeting of Faculty of Technology to be held on 22-3-1979 at 12.00 A.M. in the Vice-Chancellor Office. This Association wants that the following qualifications be kept for admission.

- (i) High School/Higher Secondary with 45% marks.
- (ii) Diploma in Engineering with 60% marks.
- (iii) Minimum 5 years experience after obtaining Diploma.
- (iv) Persons holding higher Tech. Qualification like post Diploma from Board of Tech. Education Rajasthan, Jodhpur will be given preference.

An early action in the matter is requested please.

red that a model syllabus for population education be prepared and circulated to the universities for adoption in their under-graduate curriculum....”

Resolved that the aforesaid proposal together with the syllabus for population studies be referred to the Board of Studies in Economic Administration and Financial Management.

8. *The Faculty noted that the Academic council vide its resolution No. 25 dated the 8/9th April, 1978 considered the request of the students for making the system of education Employment oriented and referred the proposal to the various Boards of Studies for such action as they deem fit.*

Accordingly, *the Faculty considered the recommendations made by the three Boards of Studies under the purview of the Faculty of Commerce as contained in their following resolutions:*

(i) *B.O.S. in Business Administration (Res. No. 6 dated the 12/13th September, 1978).*

- (a) The Board resolved to recommend a new scheme of B.Com. (Hons.) Part III Examination to come into force from the Year 1980 in place of the existing one printed in the 1978 edition of the syllabus, which incorporates employments oriented paper such as— Office Management, Management of Insurance, Tourism and Hotel Management and Management of Financial Institutions etc.
- (b) Further the Board felt that as there were a number of core subjects which a B.Com. and B.Com. (Hons.) student must offer besides those already provided in the existing syllabus in order to equip himself well for the various fields of employment a combined meeting of the three Boards of Studies in the Faculty of Commerce in order to arrive at an integrated and coordinated approach towards reorienting the courses to meet our job requirements may be called in the second week of the November, 1978.
- (c) The Board also resolved further to recommend that a committee (of 12 members as shown in the Res.

- (7) In spite of my pointing out the various qualifications and working experience enumerated above, the concerned authorities have found themselves, for reasons best known to them, unable to relax the *Pre-requisite of holding a B.Com. Degree.*
- (8) Even the Indian Institutes of Management at Calcutta, Bangalore and Ahmedabad conduct on two years full time post-graduate courses on Management have only 'graduation in any subject' as minimum qualification for admission.
- (9) I was under the impression that a post-graduate in any subject is usually considered mature enough to undertake study in any other subject at the post-graduate level and this is also the generally accepted policy and practice in various Universities.
- (10) In my case, not only have I am post-graduate degree, the degree is in a very related field, viz. Economics. A part from this, as mentioned, I have also passed Fellowship examination of Norottam Morarji Institute of Shipping where 'Book-keeping and Accountancy' was one of my subject.

Moreover, I have wide experience of working and the holding responsible position in senior capacities in the Hindustan Steel and Steel Authority of India Ltd.

- (11) A person with all these qualifications and experience I do feel, should normally be considered quite fit to pursue a course of studies in Business Administration; if this is not so, I am sure, you will kindly agree with me that this is a matter which should receive the attention of the University authorities.
- (12) If, due to absence of requisite authority, it has not been possible for the Directorate of Correspondence Courses to relax the qualifications pre-requisite to pursuance of post-graduate degree course in M.Com.-Business Admn. Stream, I am sure, considering the above factors, a special relaxation can be permitted in this instance and your goodself would, under residuary powers vested in you or otherwise, be kind enough to accept my case as fit enough for granting relaxation so that I can pursue the course in question.

विषय :—शीघ्र लिपि (हिन्दी-अंग्रेजी) विषय को लोकप्रिय बनाने
के लिए बी.कॉम. (पास) पाठ्यक्रम में परिवर्तन ।

प्रिय महाशय,

वारिण्य संकाय की 17 मार्च, 1979 को आयोजित होने वाली बैठक की कार्यसूची क्रमांक 8 के अनुसार शिक्षा को कार्योन्मुख बनाने पर विचार किया जाना है ।

इस सन्दर्भ में लेख है कि त्रि-वर्षीय डिग्री पाठ्यक्रम प्रारम्भ होने के पूर्व इन्टर वारिण्य के छात्रों में शीघ्रलिपि विषय बहुत लोकप्रिय था और वारिण्य के छात्रों को स्टेनोग्राफर के पदों पर नियुक्तियाँ मिलने के अच्छे अवसर रहते थे । इस पाठ्यक्रम के प्रारम्भ होने के पश्चात् धीरे धीरे शीघ्रलिपि विषय की मांग कम होती गई और अब इस विषय के अध्यापन की व्यवस्था कुछ ही महाविद्यालयों में है और वहाँ भी इस विषय को लेने वाले छात्रों की संख्या बहुत कम है, जबकि राज्य में हिन्दी, अंग्रेजी के अच्छे स्टेनोग्राफरों की मांग काफी है ।

हायर सैकण्ड्री परीक्षा उत्तीर्ण कर जो छात्र बी.कॉम (पास) पाठ्यक्रम में प्रवेश लेते हैं उनमें से कई छात्र हायर सैकण्ड्री परीक्षा के लिए शीघ्र लिपि या दोनों टाइप ऐच्छिक विषय के रूप में अध्ययन किये होते हैं, अतएव यदि शीघ्र-लिपि विषय के अध्यापन की व्यवस्था प्रथम वर्ष से ही कर दी जावे तो इस विषय की मांग बढ़ जावेगी । परीक्षा इस ऐच्छिक विषय के लेने वालों की केवल द्वितीय वर्ष के अन्त में ली जावे, अंग्रेजी में गति प्रति मिनट 100 शब्द से घटाकर 80 शब्द कर दी जावे और टाइप का कोई पत्र अलग से न हो, डिक्टेशन को टाइप करने की अनिवार्यता हो और पत्र शीघ्रलिपि का ही 200 अंकों का रखा जावे ।

1. Amount to be spent on payment of current subscription to journals.
 2. Amount to be spent for purchase of new titles.
 3. Amount to be spent on multiple copies of textbooks for use by students.
 4. Amount to be spent on purchase of back-volumes, micro-films etc. p—55

Stock Taking :

77. Either a random sample stock-taking be done every year in the month of June and July or stock-taking should be a continuous activity throughout the year and it should embrace not only the Central Library collection but also the collection in all other libraries run by the University or a separate small unit be set up to carry this out. p—57-58

RE-NATIONAL REQUIREMENTS

Relations with affiliated colleges of the University :

78. Whenever a Principal of an affiliated colleges of the University specifically requests for professional help and technical guidance in improving the library services in his college, the University should extend the same. p—58-59

Relations with the Department of Library Science :

79. It is necessary to bring about meaningful and effectively reciprocal relations between the Central Library and the University Department of Library Science. The University authorities should look into this issue and devise suitable remedial measures. p—59

Miscellaneous Aspects :

80. The University library should set up a separate "Gift & Exchange Section". p—60

should be excluded from this paper and a few new topics of Accountancy which are of immense importance and are not taught at any level from First Year to M.Com. should be included in the course content of this paper.

The second part of the aforesaid paper covering the course of Cost Accountancy so deleted from this paper may be added in the course content of the optional paper : C.Q.M. (Cost Accountancy) of the III Year and this paper may be made compulsory in place of Auditing which is at present second compulsory paper of III Year, Auditing should be made an optional paper.

The course content of Second Year C.Q.M. (optional paper) should also be changed. A few topics of this paper can easily be included in the course content of this paper Statistical Methods, (compulsory paper) and in place of such deleted topics, some topics of Higher Mathematics used in Tools of Techniques of Economic Analysis can be included to make the course more rewarding and useful.

I hope the foregoing proposals and suggestions would kindly be placed before the Hon'ble members of the Board of Studies for sympathetic consideration and for being recommended to the Faculty for making necessary changes.

Forwarded with the request that the matter may please be duly considered and discussed at the Faculty Meeting for onward transmission to the Academic Council.

guidelines for the future development of the library be clearly laid down. To this end, the appointment of a Review Committee for the library is now very much over-due and I would request that you move the Vice-Chancellor to set up one, without any delay.

In this context, It may be recalled that only a few years back the Delhi University performed such an exercise for its library. It invited an American expert, Prof. Carl White, to do this task. I understand that the same University has appointed another such committee very recently under Prof. Jhingran which is currently at the task. The Udaipur University too is engaged in a similar exercise.

Such a Review committee for this library should assess both the qualitative and quantitative growth of the library during the past two decades and half and identify areas in which a phased progress commensurate with our resources may be made hereafter. Its brief should be sufficiently wide enough to enable it to go into all matters which would effect the proper and efficient growth, both in the immediate and the distant future,

Specifically the following terms of reference may be given to this Review Committee : -

1. To identify weaknesses and lacunae in the present set-up and services of the library and to suggest remedial measures for them,
2. To identify what further services the library ought to render in phased stages to its patrons and the suggest ways and means to be adopted to that end. (In this connection it may be noted that the University has recently purchased a Xerox Machine and Microfilm equipment at a high cost which are yet to be put to use).
3. To advise as how the additional space now provided through the extension to library building be put to the best possible use.
4. To evaluate the present staff structure and organisation its adequacy or otherwise, designations, grades and emoluments, internal promotion policy etc. of the library and to suggest means to ensure maximum job satisfaction in place of growing frustrations which the staff at present seems to harbour.
5. To advise regarding the policy to be pursued in stock-taking of publications in the library. It may be noted that since its inception no such exercise has been undertaken.

Three-year Degree Examinations for circulation among the members and, further, to call a meeting of the Committee of Courses for consideration and approval of the Syllabus.

6. The Committee observed that at present there is no panel of examination. The Committee, therefore, authorised the Convener to prepare the panel of examiners in consultation with members.

7. The Committee *offered no comments* on the report of examiners and question papers set for the examination of 1978.

The meeting ended with a vote of thanks to the Chair.

Sd-
(Dr. R.B. Upadhyaya)
Convener.

The University Registrar may be the non-member Secretary of the Committee.

The Committee could easily finish its work in about 3-4 sittings and submit its report within a month of its formation. The benefits that would accrue from such a review report would be immense and I earnestly urge you to take an immediate decision in the matter so that some of its compelling recommendations could be implemented without undue delay.

Thanking you in anticipation and with regards,

Yours Sincerely,
(N.N. Gidwani)

in December 1977. The said syllabus (copy enclosed) should be adopted by the Faculty, so as to be applicable from the Examination of 1980.

3. The proposed new syllabus of M.Com. in the Paper: Foreign Trade Management (Optional Group in the Marketing Area) had been discussed and approved at the Workshop on Management, Education in 20th Century India, organised by the Department of Business Administration, University of Rajasthan, Jaipur, in December 1977. The said syllabus (copy enclosed) should be adopted by the Faculty, so as to be applicable from the Examination of 1980.

4. The scheme of M.Phil. in Business Administration, whether it is for regular students or research scholars or teachers, should include the '*functional areas*' of Business Administration/Management.

Personnel Management should be one of the Papers of the M.Phil. scheme. Its syllabus is expected to cover Organisational Behaviour (which is the paper at present, and needs be replaced, henceforward). The existing paper on 'History of Management Thought' also covers the behavioural school and special study of prominent behaviourists like Chiris Argyris, Herzberg, Levitt.

Marketing Management should be one of the papers of the M.Phil. scheme. Its syllabus is expected to cover 'Economic and Business Policy' (which is the paper at present, and needs be replaced henceforward). Marketing has to be taught in the background of prevailing economic and business environment.

Hence, appropriately enough, the proposed substituted papers viz., Personnel Management (for Organisational Behaviour) and Marketing Management (for Economic and Business Policy) are bound to be more beneficial to the M.Phil. students in Business-Administration, and should, therefore, be adopted by the Faculty so as to carry effect from the M.Phil. (Business Administration) Examination of 1980. The syllabi of the two Papers may be left to be framed in consultation with the subject-teachers and experts in the respective areas.

5. The students of M.Phil. (Business Administration), which is a pre-Ph.D. Course, obtain the degree even without the theoretical knowledge of Research Methodology. It is rather funny that the candidates write dissertation without this background.

It is suggested that the dissertation should be split into two parts.

Part I should consist of a Paper on Research Methodology, and Part II should consist of Dissertation.

8. The *Faculty considered* the recommendations made by Board of Studies in Geology as contained in its Resolution No. 8 dated 16-10-1978 to the effect that under the present regulations vide S. 25 (reg. Appointment of examiners) no person can be appointed as an examiner unless he possess requisite teaching experience. For a professional Science like Geology this is a serious handicap since even the top professional geologists like the Director General, Geological Survey of India can not be associated with the examination work of the University. In order to rectify this drawback the Board unanimously recommended that the word 'teaching experience in the S. 25' be replaced by 'teaching adequate professional experience'.

Resolved to recommend that the aforesaid proposal made by the Board of Studies in Geology be *not* accepted. The Board may, however, include the specific names of persons possessing adequate professional experience instead of teaching experience in the panel of examiners.

9. The *Faculty considered* the recommendation made by the B.O.S in Mathematics as contained at its Res. No 11 dated 15/16th September, 1978 to the effect that (i) alternative M.Phil. Programme with specialisation in Mathematical Logic as the IVth

Resolved to recommend that the aforesaid recommendations made by the B.O.S. in Botany be accepted and the same be implemented from the examinations of 1981.

13. The Faculty considered the following recommendations made by the Board of Studies in Chemistry as contained in its Resolution No. 9 dated 16th September, 1978 :-

“(i) In view of a large number of colleges conducting M.Sc. and Hons. examinations, it would be helpful to maintain uniform standards if a paper for the Practical Examination is set.

(ii) For promptly holding the practical examinations at the M.Sc. level only one external Examiner, out of the three, should be invited from outside the University in case of M.Sc. I and II Semester Practical Examination. The Second Examiner may be appointed from one of the College/University Department while the third examiner should be from the same college (if eligible).”

Resolved to recommend that the aforesaid recommendation No. 1 regarding setting of a paper for the practicals at the Hons. and M.Sc. examination made by the Board be not accepted and the practice of setting a paper for practical for different colleges in the subject of chemistry at the B.Sc. pass Examination also be *dropped*.

Resolved to recommend further that the recommendation No. (ii) made by the Board be accepted.

14. With reference to Academic Council resolution No. 15 dated the 1st October, 1978 the Faculty considered the following resolution received from the Evaluation Officer, Association of Indian Universities, New Delhi as contained in his letter No. v/vi/(109)/78/25404-25508 dated 31st August, 1978 regarding introduction of Syllabus for population studies at the under graduate level :

17. The Faculty considered the following suggestions made by the subject-teachers in Chemistry at their informal meeting held on the 29th March, 1979 :—

“The norms framed by the University regarding recurring and non-recurring expenditure on chemicals and equipment should be brought to the notice of Government and concerning agencies. The Government should be requested to observe the norms strictly and grant be distributed accordingly. The Committee further resolved that the matter be brought to the notice of college development council also”.

Further, that the norms regarding the above-mentioned grants need revision in view of continuously increasing costs of chemicals and equipments”.

Resolved to recommend that the aforesaid suggestions made by the subject teachers at their informal meeting be endorsed for immediate implementation.

18. The Faculty *adopted the* following resolution :—

“The Academic Council and the Syndicate have recently diluted the academic standard by changing the pattern of papers and restricting the paper-setters to a particular pattern. The Faculty expresses its grave concern on such a situation and hopes that no such dilutions in academic standards will be permitted which lowers down the prestige of the University in future by the University Authorities and responsible bodies”.

19. The Faculty *adopted the* following resolutions :—

“This meeting of the Faculty of Science of University of Rajasthan resolves to record its grave concern on the following matters :

- (1) The bill introduced by the Government of Rajasthan in the Vidhan Sabha to make University teachers transferable between the three Universities of the State is highly reprehensible. The Faculty considers it academically unhealthy and further *resolves* that transfer of teachers in the affiliated colleges also may be discouraged,
- (2) The Faculty feels that while suitable restructuring of universities may be useful for the purpose of efficient functioning of the universities and for improvement of academic standards, the steps to be taken for the purpose should be considered by the various academic and executive bodies and authorities of the universities concerned themselves, and

Book Acquisition :

The Library accessioned a total of 16049 items including the back volumes of periodicals theses etc. during the year under review as against a total of 128000 last year. The total collection as on 30th June, 1974 stood at 2,29,255.

Gifts :

As usual, the library received a number of Govt. Reports, parliamentary papers etc. by way of gifts from Hon Shri Ram Niwas Mirdha, State Minister of Defence Production, Government of India. Library is also receiving back volumes of various Indian newspapers through Book Procurement Centre, New Delhi from time to time. Some important books are donated from other Government Agencies. Our grateful thanks to them.

Microfilms :

The total number of microfilms as it stood on 30th June, 1974 was 969.

Microfiches :

The Library acquired a total number of 385 microfiches containers from M/s Inter Documentation Company, Switzerland. Some of these microfiches relate to the back volumes of journals which are important from the point of view of research. The total number of microfiches containers as it stood on 30th June, was 607. The acquisition of these microfiches has helped to fill up the gaps of back volumes of journals to considerable extent.

Theses :

280 copies of theses were received from the office of the Resistrar bringing up to the total to 6614 at the end of the year.

Reports :

During the year under review 632 reports relating to various Government Departments and Institutions have been accessioned. Efforts are being made to organise a separate Section of the Reports and Government Documents in order to serve teachers and research scholars effectively inspite of the limited staff available in the library.

Children Literature :

As usual the University provided a sum of Rs. 2,000 for the purchase of books for the Children Section of the University Library. This year, we have acquired 533 new books for this Section. The Children Section remains open for two hours from

There has been all round increase in different types of membership as compared to that of the last year.

Inter Library Loan :

With a view to help the Research Scholars, the library procured 24 books from other libraries and institutions on Inter Library Loan basis and loaned out 43 books to various libraries in India. To and fro charges for procuring these books from other libraries are borne by the Research Scholars himself. This service is very much appreciated by the Research Scholars and other members of the library.

Issue :

During the year about 81,500 books of different subjects were issued to the members of the library for their home-reading. This figure shows that about 500 books were issued more than done last year. In addition the books placed in the Text book and Reserve Section were consulted about 1,76,000 times during the year.

Xeroxing and Microfilming Service :

With the installation of microfilming unit and xeroxing machine the University library has started giving microfilming and xeroxing service to the members of the library on a modest scale. This unit can start functioning properly only after appointment of qualified staff.

Library Building and Equipment :

With the completion of the first phase of the extension to the library building, the new research hall has been commissioned during the current year. The library has thus established a separate service point for the research scholars and teachers using this hall for their study purposes. It is proposed that all the research scholars who have been allotted seats in the research area adjacent to the first floor reading room and those who had been allotted research cabins will be shifted gradually to this new hall. A separate water cooler is also being installed in this area. The library is facing acute shortage of steel shelving. The situation can be eased only if the University funds money one source or the other for the purchase of steel shelving atleast for two new stacks of the library.

Library Committee :

During the year under review, the Library Committee had held its meeting on 25th April, 1974. In this meeting the Library

ANNEXURE—XX

Xeroxing Service

The University Grants Commission sanctioned a sum of Rs. 30,000 for purchase of Xerox machine as a central facility. Accordingly the University placed an order for Majox 121 Kilburn Electrostatic Copier with M/s Macneill and Barry Ltd., New Delhi. This machine which is manually operated has since been installed.

Provisionally, the actual cost of this machine came to about Rs. 33,500, an additional expenditure of Rs. 3,500 on its acquisition which has been adjusted from some other grant made by the U.G.C.

Since this is entirely a new service, certain norms and principals for its operation will have to be laid down.

Staff :

To begin with a minimum of one person will be necessary to operate the machine. He will have to have an adequate training in its day-to-day operations. He need not be a competent one in locating any major faults or failures. This service could be entrusted to the Central Workshop of the University. The Library on its own had sent a Book Attendant to Delhi at the factory of the manufacturers to get some basic training for that purpose.

The University has been approached to sanction adequate staff to keep this service on going. It is understood that one post of Book Attendant is being created in the budget for the year 1973-74.

The machine works basically on exposure of selenium plate. The manufacturer has claimed that one plate can stand about 1500 to 2000 exposures. But enquiries made from people who know it give a clue that 1000 workable sharp exposures is all that we may expect.

Since the cost of the plate is about Rs. 500/-, one exposure would cost 50 paise; besides the life of the bulbs installed in the machine is limited one. Each bulb costs about Rs. 150/- and there are six of them in the machine. We also need charged black powder, superior cotton wool and other consumable items.

Provisionally the University was approached to sanction a sum of Rs. 5,000/- recurring to meet these expenses. It is understood that an ad hoc provision of Rs. 3,000/- is being made in the Budget for 1973-74.

Medical College, Jodhpur to the effect that the First M.B.B.S. examination sheduled to be held with effect from Wednesday the 4th April, 1979 be postponed on the grounds that (a) the courses were completed very late and they are getting hardly 10-15 days time for preparation and (b) the courses would be finished just 2-3 days before Final Examination and that they are supposed to appear at the Pre-University Examination from 17th March, 1979 and onwards;

- (iii) a letter No. F. 2(A) Edn./79/16068 dated the 20th March, 1979 was received from the Principal, Regional College of Education, Ajmer requesting therein to postpone the B.Ed., M.Ed. and B.Sc. (Hons/pass) B.Ed. Examinations, which have been scheduled to commence from April 11, 1979 so as to commence from Tuesday May 1, 1979;
- (iv) letters have also been received from Principal, T. T. College, Bikaner, Banasthali Vidyapeeth, Banasthali for postponement of B.Ed. and M.Ed. Examinations: and
- (v) in this connection the Syndicate also considered the demand of a group of students of colleges of Ajmer pressing for postponement of the University Examinations for which they have been agitating and are on strike.

Having discussed the matter at length from all its aspects, the Syndicate *resolved* that the various examinations of the University scheduled to be held in April and May, 1979 be postponed to be held on the dates as indicated below :—

It is proposed that all the income that may accrue from rendering this service should be banked in a separate account and as far as possible recurrent consumables be acquired therefrom.

Relevant records like log book for the use of machine and exposures made and other relevant accounts may be maintained by the person incharge of the machine.

Following possible users are visualised :

1. The University Library itself :

- (a) The library can use the xerox machine for replacing pages bladed out or mutilated from useful books and periodicals.
- (b) The library may xerox out material, on indent, by way of inter-library loan from other libraries.
- (c) The library may xerox out *manuscripts* borrowed from other libraries and thus enrich its own collection.
- (d) The library may borrow out off-prints and rare material on Rajasthan and xerox it out and thus gradually build up a complete collection on Rajasthan.
- (e) The Library may xerox out important gaps in our holding.

2. Departments :

The teaching Departments of the University may ask for xeroxing service in connection with their teaching and research work. This aspect of work will of course be of academic nature.

3. Others :

- (a) Teachers, research scholars and students of the University may ask for xeroxing service of academic nature.
- (b) The University's administrative departments or non-teaching departments may utilise this service both for official or non-official purposes.
- (c) Outsiders may also approach for use of this service.

The Committee may also decide whether the scale of charges should be prescribed for different categories of users and whether non-academic work may be accepted and also whether this facility be made available to persons and Institutions not connected with this University for non-academic purposes. If answer to the last query be in affirmative, the scale of charges to be recovered for this work may also be prescribed.

consultation with Dean of the Faculty.

9. The Syndicate considered the request made by the Director, Institute of Correspondence Studies and Continuing Education, Jaipur as contained in his letter No. D-5/3837, dated the 22nd March, 1979 to the effect that the provisions of Ordinance 199 D-4 which require inter-alia that a candidate for the correspondence course must submit atleast 33% of the response sheets, failing which he will not be allowed to appear at the examinations, be waived for the various examinations of 1979 in view of the following :

- (i) The Institute is finding it difficult to maintain records and get the students response-sheets corrected and despatched back to students due to the prolonged and repeated strike of the University employees. Thousands of packets are still lying un-processed.
- (ii) The students must be given due notice that they would be detained if they do not submit 33% of the response sheets as required under the Ordinances. Such notices can not be given in the absence of records.

made available to libraries outside India as well as in India, on sale. Thus the Museum and Library has not only built up its own resources but is also earning sizable amount of foreign exchange. This library too could launch it on similar basis and the additional positive copies that may be taken out be they be of back volumes of news papers or journals or books or manuscripts or any other useful material can be so priced as to make this microfilm section's move in the direction of becoming self-sufficient, in future.

Another idea to put this equipment to effective use and also to earn some marginal foreign exchange is the one projected by Prof. Lloyd Rudolf of Chicago University. He has suggested that a part from the documentation activity of this University Library which has achieved considerable fame all over the world. This Library may extend it to a selective clipping service on certain specific topics so and a microfilm edition of all clippings on a topic be got made a unit and made available for sale to Institutions and individuals in India and abroad. Prof. Rudolf feels that this would be a successful exercise. This needs to be explored.

The original intention wherefor the microfilm was acquired too may be borne in mind i.e. we may borrow important worthwhile manuscripts in Sanskrit, Hindi, Pali, Persian, Urdu, Rajasthani etc. and microfilm them. We may keep one copy for the library and make additional copies for sale to interested parties. Similarly we may also extend the same treatment to rare and out of print material on Rajasthan and all other important subjects and areas of interest to University Library so that a complete and comprehensive collection in selected areas of academic study gets developing in our University Library.

It will be desirable to maintain a separate account for this. All moneys realised by sale may be maintained in a separate bank account so that we may know profit and loss that emerges out of this operation. A separate Committee may be appointed which may advise regarding proper functioning of this Unit. Besides the Professors of Sanskrit, Hindi and History, we should also have one nominee of the Director of Nehru Memorial Museum and Library so that in planning out the work to be done on this machine, we may collaborate and cooperate with that National Body. The University Librarian should be the Member-Secretary of this Committee and one senior person from the Library may be nominated by the Vice-Chancellor on the recommendation of the Librarian. Review Committee may also prescribe charges which may be recovered from microfilming work which may be done for various categories of applicants and for the various accounts of work for example academic, semi-academic and non-academic nature.

ANNEXURE—XXIII

PROPOSAL REGARDING AIR-CONDITIONING OF THE
UNIVERSITY LIBRARY BUILDING

Jaipur being on the fringe of a desert, the climate is extremely hot from the beginning of March to end of October. During the four months of May, June, July and August, the heat is so severe that it is impossible to work during the course of the day. Since the library building is made mostly of stone, the radiated heat coupled with glare becomes so intolerable that it becomes impossible to work for any length of time within the library premises.

This year the University has sanctioned a sum of Rs. 2500/- from out of replacement fund to fix up Khas Tattas in the windows of one hall on the ground floor. This method is cumbersome and its success depends upon plentiful supply of water. Besides it is very noisy.

Arising out of this, the only satisfactory and permanent solution would be to air-condition at least one reading hall of the library. The present Education Commissioner, Shri Mohinder Singh too is of this view. Many others endorse it. The examples of Punjab University Library, Kurukshetra University Library, are effectively cited, where this facility is available.

The Review Committee may kindly give a close thought to this problem. The University Engineer may be requested to work out the non-recurring and recurring cost, and some concrete recommendation ought to be made in this matter.

There is another problem which has defied solution so far. We have now eight stacks with the roof height of about 8 feet only. The double set windows in the wall are such as do not allow effective ingress and egress of wind. To add to this difficulty none of the stacks have been provided with bracket fans, with the result that during the summer months, it is absolutely impossible to stand in the stacks even for 15 minutes without feeling faint. We have tried to install a few air-circulators but the University has not been able to provide adequate funds so that they could be installed in all the stacks. We have at present 4 of them and we need *many* more (at least twenty one) so that readers could remain in stacks for some-time in a tolerable manner.

consequence thereof, the Library wrote a letter to several University authorities all over the country requesting them to let us know the practice they follow. Replies have been received from many of them.

It may be mentioned in passing that no stock taking has been done since this University Library was founded 25 years ago and we have consequently no proper paraphernalia for undertaking such a herculean exercise periodically. In this connection it may be stated that this matter was considered at great length by the National Seminar of University Librarians that was held in Jaipur in the year 1966 and they resolved as under.

“A sample stock-taking be done annually on quinquennial basis and normal loss of books be written off”.

It would be worthwhile if some measures could be devised whereby this Resolution could be implemented in a proper manner.

It will not be out of place to mention here a resolution with regard to stock verification passed by the Panjab University Library on May 16, 1966 :

“Resolved that only sample stock-taking of mostly used books be taken alternative year”.

The following alternatives exist :

- (1) To do full stock-checking periodically (yearly, two yearly, quinquennially or decennially). The impracticability of this alternative in our case has already been touched upon in para 2 of this note.
- (2) A small unit consisting of the following persons could be set up to carry out stock-taking continuously all the year round :—
 - (i) One Assistant Librarian
 - (ii) Two Technical Assistants
 - (iii) One Clerk-cum-Typist
 - (iv) One Restorer
 - (v) Two Book Attendants/Peon

It would be the responsibility of this Unit to first prepare an authoritative records such as shelf-list etc., and then get started on a continuous stock taking/checking. This staff is to be sanctioned in addition to the existing staff of the University Library. If the services of the regular staff are utilised on stock verification, the routine work of the library is bound to suffer which should not be allowed at any cost. This extra staff all through the year will remain engaged in stock verification and in this manner the stock of the entire library will be verified once every five years and a cumulative

Examination, majority of papers of the subject prescribed for the M.Com. Examination of this University in that subject or if he (possessing M.Com. degree or M.A. degree in Economics with B.Com.) was in permanent employment (which term included those working on probation) of the University on September 28th, 1970.

December, 1978 alongwith the observations of the Vice-Chancellor that compulsory attendance is a 'must' to create an atmosphere of study in the campus. The situation under which compulsory attendance was abolished was also explained at a great length to them. The abolition was ordered as a result of the introduction of Examination reforms, but since they have been given up, it is not possible for the University authorities to continue the old practice of abolishing the compulsory attendance as it does not create a congenial atmosphere for the students to devote themselves to their studies. The Vice-Chancellor expressed his inability to accept the demand. However, he agreed to refer the matter to the Academic Council to find out ways and means to mitigate the inconvenience which may be caused to the students on account of provisions of the compulsory attendance.

- (ii) the following demand as contained in the demand charter presented by the President of Students Union (APEX) in the meeting of the Council itself was also considered :—

“राजस्थान विश्वविद्यालय के स्नातक व स्नात्कोत्तर परीक्षार्थों के लिए उपस्थिति की अनिवार्यता समाप्त की जावे।”

- (iii) the recommendations dated the 5th January, 1979 of the Committee appointed by the Academic Council Res. No. 17 dated the 1st October, 1978 for reviewing the provisions of compulsory attendance as contained in O.144 of the University Hand Book Pt-II and other matters referred to it by the Academic Council and the Syndicate under various resolutions (*Vide Appendix—I*).

irrespective of any percentage of marks to be obtained by them at the examinations concerned.

Resolved to recommend further that in view of the recommendation No. 5 (ii) above, the provisions of relevant ordinances be treated to have been relaxed for the examinations of 1979 only as a special case.

(6) The Council considered (i) a proposal of the Director, Institute of Correspondence Studies and Continuing Education, Jaipur as contained in his letter No. d-3164 dated the 24th December, 1978 to allow the students of M.A./M.Com. of the Institute to offer viva-voce at the M.A./M.Com. Final Examinations and (ii) his subsequent letter No. D-1/6297 of 6th January, 1979.

In this connection the Council was informed that until last year the candidates for M.A./M.Com. Final Year were required to appear at the Viva-Voce examination. This Year the Academic Council vide its Resolution No.12, dated the 22nd June, 1978 resolved that the decision taken by it earlier to the effect that non-collegiate candidates and candidates belonging to the Institute of Correspondence Studies shall not be permitted to offer viva-voce and instead they shall be required to offer a paper in lieu thereof be implemented. The said resolution was approved by the Syndicate vide its Res. No.2, dated the 1st July, 1978.

The Director further informed the Council that the Institute could not manage to send lessons of additional papers required to be offered by the candidates in lieu of the viva-voce along with other lessons sets.

Resolved to recommend (i) that the proposal as made by the Director of the Institute of Correspondence Courses be deferred for future discussion, and in view of the special circumstances created on account of the fact that the lesson of

there a change is being followed in the award of degree only to diploma holders.

4. The datum considered for admission to diploma course is higher Secondary and the same is for the Engg. studies. A student who joins an Engineering College after diploma, spends six year (3 years in Diploma and 3 years in B.E.) in completing his course though he would have normally taking five years in completing this course. Hence a student who joins after diploma loses one year and then again he is tortured by not being awarded the degree similar to the other students.
5. As written in our constitution that every citizen is liable to get a chance for his betterment, then why at one time we are given a chance for betterment by being provided admission in an Engineering College and then discarded by being awarded a degree without division, hence cannot compete for any service nor can go for higher studies though we also pass the course as the other students.
6. At the time of giving admission to us it was not stated in the prospectus that we will not be provided division in B.E. course, making our future dark.

I hope you will kindly give a patient hearing in this matter.

Thanking you,

Yours faithfully

2. Para-III of O.145-A provides that a candidate who fails to put in the required minimum attendance prescribed for the examinations for the Degree of M.A./M.Sc./M.Com./M.B.A. under the semester scheme of examinations or the LL.M. Pt-I/ Pt-II Examinations in the Faculty of Law or the B.E./M.E. The committee, at its meeting held on 18th October, 1978 was of the view that a candidate who fails to put in the required minimum attendance at the aforesaid examinations be permitted by the Vice-Chancellor on the recommendation of the Head of the Institution to appear at the examination on submission of an undertaking to the effect that he would make up the deficiency in attendance of the previous semester in the next higher semester and that if he fails to do the same he may be detained from appearing at the next higher examination and required to re-join the same semester in which he initially failed to put in the minimum requirement of attendance. In the case of a candidate of Fourth Semester who fails to complete the required minimum attendance in the Fourth Semester but who had put in the required minimum attendance upto the Third Semester, the Committee was of the view that such a candidate be permitted by the Vice-Chancellor to take the examination on the recommendation of the Head of

The Council considered the recommendations dated the 21st August, 1978 of the Committee appointed vide its Resolution No. 15 (ii) dated the 8th/9th April, 1978 regarding (i) pay scales of teachers, and (ii) composition of Ayurvedic Education and Research Committees in the Faculty of Ayurveda (*Vide Appendix--II*).

(7) On a point raised by the Office as to whether the deficiency in attendance to be carried forward in accordance with the provisions of Para II of O.145-A shall be worked out after or without applying the provisions of condonation of shortage in attendance as per provisions of O.145, the Committee felt that the deficiency in attendance to be carried forward be calculated after applying the provisions of O.145 and accordingly the following words be

angles and felt that on account of large scale mis-use of this system the academic standards of the University have fallen and its reputation has suffered a set-back. The Council also took into consideration the arguments put forth by the students of the Law Faculty that the system of internal assessment is too old in the Faculty of Law compared to its introduction in any other Faculty and found that the said argument was not based on facts. The element of internal assessment was introduced in Law and at the examinations of other Faculties with the difference of only a year or two and, therefore, the Council found no ground on the basis of which the examinations of the Law Faculty could be treated as an exception and observed that the arguments put forth for dispensing with the system of internal assessment in other faculties apply equally to the examinations of the Law Faculty. मेडिकल कालेजों में जो वेतनमान हैं, उससे कम आयुर्वेदिक महाविद्यालय में नहीं होना चाहिये। इस समानता की नीति का कार्यान्वयन गुजरात उत्तरप्रदेश, बिहार, आदि राज्यों में औपचारिकताओं में तथा चिकित्सालयों के स्तर पर प्रारम्भ किया गया है। वर्तमान में गुजरात आयुर्वेद महाविद्यालय, जामनगर तथा हिन्दू विश्वविद्यालय, बनारस में विश्वविद्यालय अनुदान आयोग द्वारा स्वीकृत वेतनमान दिये जा रहे हैं। अन्य आयुर्वेद महाविद्यालयों के अध्यापकों के वेतनमानों में भी ऐसी समानता लाने की कार्यवाही पर विचार चल रहा है। मध्य प्रदेश, बिहार, तत्कालीन मे वृद्धि हुई है।

राजस्थान सरकार द्वारा संचालित आयुर्वेद महाविद्यालयों में अध्यापकों का वेतनमान बहुत कम था जिसे संशोधित कर मंहगाई भत्ता मिलाकर वर्तमान स्वरूप दिया गया है। फिर भी विश्वविद्यालय अनुदान आयोग अथवा मेडिकल कालेजों की तुलना में बहुत न्यून है।

मेडिकल कालेजों के अध्यापकों का वेतनमान विश्वविद्यालय अनुदान आयोग से कुछ भिन्न है। इन्हीं पदों पर प्रारम्भिक वेतन अधिक है लेकिन अधिकतम वेतन कम है। लेक्चरर का प्रारम्भिक वेतन अधिक है। इस प्रकार विभिन्न पदों के वेतनमानों में विश्वविद्यालय अनुदान आयोग द्वारा निर्धारित वेतन से समानता नहीं रखते हैं।

राजस्थान सरकार ने कला या विज्ञान के महाविद्यालयों में वि.वि. अनुदान आयोग का वेतनमान अनुमोदित किया है। आयुर्वेद संकाय सम्भवतः इन सभी परिस्थितियों पर विचार करते हुये यह निर्णय लिया है कि, आयुर्वेद महाविद्यालयों के अध्यापकों का वेतनमान मेडिकल कालेज के समकक्ष किया जाये। यह समिति उपयुक्त सभी बातों एवं स्थितियों को ध्यान में रखते हुये संस्तुति करती है कि, कि संकाय का पुर्वोक्त प्रस्ताव निश्चय संख्या 4 (IV) अनुमोदित किया जाये।

समिति यह भी संस्तुति करती है कि स्नातकीय तथा स्नातकोत्तरीय अध्यापकों के वेतनमान में कोई अन्तर नहीं रहे। दोनों के वेतनमान समान ही रहें। क्योंकि स्नातकीय तथा स्नातकोत्तरीय शिक्षण पूरे विभाग का सम्मिलित दायित्व होता है जिसमें दोनों स्तरों के अध्यापक समान रूप से भाग लेते हैं।

प्रस्ताव संख्या-2 के अनुसार समिति ने प्रत्येक विषय की समिति का आयुर्वेदीय शिक्षा-प्रशिक्षा एवं अनुसंधान समिति नाम रखना उचित समझा तथा आयुर्वेद संकाय एवं बोर्ड आफ स्टेडीज के अन्तर्गत मेडिसिन फॅकल्टी के सन्धान :-

Shri V.D. Qamra,
Registrar,
University of Rajasthan,
JAIPUR—302004.

Dear Shri Qamra,

At present, there appears to be some confusion regarding the work load of different categories of University teachers entrusted with various responsibilities. This creates complications on various occasions. I would like to know if the University has prescribed any norms for the following :

- (i) Work load of Principals, Vice-Principals, Asstt. Principals in their parent departments.
- (ii) Work load of Head of Departments and Local-Incharges in the University Department.
- (iii) Work load of a University Professor in the undergraduate wing and whether it is obligatory for him to take classes there. If so, how many periods he is expected to take there.

I shall request you to clarify the position. In case, there are no well defined norms, the matter may be put before the Academic Council at its next meeting on October 1, 1978 for consideration.

I hope you will kindly give prompt consideration to the points raised above.

With kind regards.

NATIONAL MEDICAL EDUCATION POLICY

Preamble

1. India has an old tradition dating back to several centuries in the theory and practice of medicine. The earliest known systems of Ayurveda, Yoga and Siddha were propagated under the Gurukul system and with a decline in this method of importing education, the emphasis on these systems of medicine and their development has also declined. The Unani system of medicine came to India with the Greeks and enjoyed great patronage during the Moghul regime. Later, the Homoeopathic system came into great prominence and because of its ease of utilisation, spread very widely.

2. The modern system of medicine was introduced in this country by the British in the last century. Its rapid development took place after 1930, more particularly after Independence

Objectives

3. Education in the field of medicine has two fundamental objectives, first is the development of the basic knowledge and the other is the development of medical and allied manpower to provide the services. Earlier attempts to develop an integrated system of medicine were not successful. Further, because of the fact that in the medical field both the public and the private sector have been jointly operating, there has been inadequate manpower planning.

4. In the field of medical education, there has been a cultural dichotomy, coupled with paralld development of the various systems of medicine. The modern medical system has, to a large extent, kept space with the developments in the rest of the world. However, the type of education imparted, particularly at the undergraduate level, is heavily hospital-oriented and has very little relevance to actual Indian situations. This makes a fresh graduate unsuitable to handle situations in the community and unable to appreciate the problems and dilemmas at that level. The indigenous (traditional) systems of medicine like Ayurveda, Unani, Siddha, Yoga, Naturopathy and Homoeopathy, have, after years of comparative neglect, started coming into their own. While there need be no attempt to forcibly integrated the modern Medicine with the traditional systems of medicine, it is essential from the point of view of optional utilization of national resources that each system should realise in the Indian conditions the limits as well as potentials of the other systems and draw inspiration from them. All the

of teaching degree classes. For appointment as Post-graduate Head, a person must possess Ph.D./M.Phil./M.Litt. and at least five years experience of teaching degree and or post-graduate classes. However, persons who are already holding a substantive appointment in a college will be governed by the old rules for the purpose of promotion to Headship of a degree and or post-graduate Department in a College.

H. For Readers in Home Science :

- (a) A Doctorate Degree and some published work of recognised merit in the subject concerned or in an allied discipline.
- (b) Good academic record with atleast a high second class (with a minimum of 54% marks) Master's degree in the subject concerned or in an allied discipline or an equivalent degree of a foreign University.

Explanation :

Good academic record means an average of at least 50% marks of the aggregate of the two examinations prior to the Master's degree examination.

- (c) Atleast five year's experience of teaching Post-graduate class.

Note : The conditions at (a) and (b) may be relaxed in the case of a Candidate with some published work of recognised merit at the discretion of the Selection Committee Appointing Authority provided that the candidate (i) has been working as a permanent Lecturer for atleast ten years and (ii) has at least a second class Master's degree in Home Science.

time, utilise the available knowledge from the ancient and modern systems of medicine in an effort to develop an Indian system of medicine, thus obliterating the caste system prevailing in the field of medicine.

Health Service coverage :

7. Most medical and health personnel are concentrated in the urban areas. Their distribution does not necessarily correspond to the distribution of population in the country. This, therefore, implies that the services are not available uniformly. While urbanisation is a factor which has to be contended with, it is equally necessary to initiate efforts to specially distribute medical and health personnel so as to be able to provide suitable health coverage. This would apply not only to doctors but also to all other medical and para-medical personnel. To achieve this, some form of obligatory rural service, either as part of the educational process or immediately following there-after, needs to be introduced. With such an effort, the present malaise particularly in the modern system of medicine, of the overlap between internship and house-surgeoncy as also an automatic movement into post-graduation can, to a large extent, be rectified.

Continuing Education :

8. The medical education system in India is characterised by a lack of continuing education. There is, therefore, updating of knowledge and of skills, Health professionals in outlying areas have no means of keeping themselves abreast of developments. To some extent, this has contributed to a greater concentration in the Urban areas. Further, with the Indian penchant for acquisition of degrees, training *ipso facto* providing knowledge and skills without a certificate or degree is not easily accepted. It should be our endeavour to ensure that every health professional is brought back into the system of education and imparted suitable training once every 5 or 7 years. This should apply not only to those who are in Government service but even to those who are outside it. This can take the form of endorsement in their basic qualification. With such a system, incentives can be built in for those working in the rural areas.

9. To sum up, the following are the essential aspects of a "National Medical Education Policy."

- (1) A realisation and understanding of the potential of all systems of medicine;
- (2) A realistic assessment of the health manpower requirement;
- (3) Constitution of a 'Health and Medical Education Commission' embracing all systems of medicine and all types of medical and pra-medical personnel.

2. Reader :

- (a) A Doctorate degree in Law or equivalent published work of recognised merit.
- (b) Good academic record with a First or High Second class (with a minimum 50% marks) LL.M. degree (two years course) of an Indian University obtained as a regular full time student or an equivalent degree of a Foreign University.

- (c) Atleast 5 years experience of teaching Post-graduate classes in Law.
- (d) Some experience of guiding research.

Note : The condition at (b) may be relaxed in the case of a candidate with outstanding published research work at the discretion of the Selection Committee and Syndicate provided that the candidate (i) has been working in the University as a Lecturer atleast ten years, and (ii) is atleast a second class LL.M. degree holder.

Sir,

I hereby send the following items to be included in the agenda to the next Academic Council meeting scheduled to be held on 21st Dec., 1978.

- (i) Presently there is no provision for the Viva-Voce of Dissertation for the examinees of M.A. (Final) Hindi who offer it in lieu of essay in VIIIth paper. I propose this against body should take decision in its favour as the Viva-Voce would ensure that the dissertation is the original work of the candidate and not a mere reproduction of views. In some subject such as Geography, Economics and Sociology etc., I learn the viva-voce is still held. In various other universities of India as Kurukshetra, Jammu, Amritsar, Patiala, viva-voce of dissertation there is provision for viva-voce of Dissertation.
- (ii) I propose that M. Phill classes in Hindi and other subjects should be permitted in the affiliated colleges of Rajasthan where there is comptent staff to make available eligible teachers according to the recruitment norms laid down by U.G.C.

Yours sincerely,

This Board shall consist of not more than 8 members of whom :

तो डा. सीताराम लालस द्वारा तैयार किये गये हिन्दी राजस्थानी शब्दकोश में प्रकाशित हो चुके हैं। इसके अतिरिक्त 13 शब्द कोश और हैं, शब्द भण्डार के लिये केवल एक ही उदाहरण पर्याप्त होगा—राजस्थान के प्रसिद्ध पशु ऊँट के लिये राजस्थानी में 300 शब्द हैं जबकि हिन्दी एवं अंग्रेजी जैसी विकसित भाषाओं में केवल दो तीन शब्द ही हैं।

1. राजस्थानी का अपना व्याकरण है, जिसकी अनेक पुस्तकें प्रकाशित हैं, राजस्थानी व्याकरण की कुछ ऐसी विशेषताएँ हैं जो हिन्दी तथा अन्य भाषाओं से सर्वथा भिन्न हैं।

2. यद्यपि वर्तमान राजस्थानी साहित्यकारों ने देवनागिरि लिपि को अपना लिया है किन्तु प्राचीन समय से ही राजस्थानी की अपनी अलग लिपि रही है। जो वणिवाटी लिपि के नाम से आज भी प्रसिद्ध है। और राजस्थानी व्यापारी अपने व्यापारिक कार्यों में इसका प्रयोग करते हैं।

3. जहाँ तक साहित्य का प्रश्न है—राजस्थानी में मौखिक तथा लिखित दोनों ही परम्पराओं में अपार, विविध एवं विशाल साहित्य उपलब्ध होता है। केवल राजस्थान के ग्रन्थ भण्डारों में तथा व्यक्तिगत संग्रहों में लगभग 40 हजार ग्रन्थ उपलब्ध हैं। ऐसी विशाल एवं महत्वपूर्ण निधि बहुत कम भारतीय भाषाओं के पास होगी। देश के अन्य भागों तथा विदेशों में प्राप्त होने वाले हस्तलिखित ग्रन्थों की संख्या इससे अलग है। ये ग्रन्थ केवल साहित्य के ही नहीं हैं अपितु पशु, पक्षी प्रकृति, चिकित्सा, सामाजिक विज्ञान, योग, दर्शन, अस्त्रों-शस्त्रों सभी कलाओं, आध्यात्म तथा विज्ञान से संबंधित भी हैं। घोड़ों, हाथियों रथों, हथियारों से संबंधित ग्रन्थ तो बहुत प्रसिद्ध हैं।

इस तरह राजस्थानी एक पूर्णतया स्वतन्त्र भाषा सदियों से ही रही है और आज भी है। जहाँ तक हिन्दी से उसका संबंध है देश एवं विदेश के प्रमुख भाषाशास्त्री तथा अन्य विद्वान एक मत से यह स्वीकार करते हैं कि हिन्दी राजस्थानी दोनों भिन्न भिन्न भाषाएँ हैं।⁹ यह कहना अज्ञानता अथवा दुराग्रह ही

9. विश्व के प्रसिद्ध भाषा शास्त्री तथा केन्द्रीय साहित्य अकादमी के भू. पू. अध्यक्ष डा. सूनीतिकुमार चटर्जी तथा डा. सुकुमार सेन, डा. हजारीप्रसाद द्विवेदी, डा. नामवरसिंह, डा. उदय नारायण तिवार, डा. रामविलास शर्मा, वावूराम सक्सेना, स्व. धीरेन्द्र वर्मा, भोलानाथ तिवारी तथा प्रसिद्ध भाषा शास्त्री ग्रिजसन, एल.पी. टेसीटोरी प्रो. केलग, रिचर्ड पिशल जैसे—विद्वानों ने राजस्थानी को स्वतन्त्र भाषा माना है।

सितम्बर, 1977) पर पुनर्विचार हेतु गठित समिति की दिनांक 23-2-78 को आयोजित बैठक की निम्न संस्तुति पर विचार विमर्श किया :—

“अध्यादेश 329 एम 15 की आठवीं पंक्ति में ‘परीक्षा में मुख्य वैकल्पिक विषय साहित्य’ शब्दों के आगे ‘सामान्य दर्शन, धर्मशास्त्र, जैन दर्शन, बौद्ध दर्शन, पौरोहित्य तथा पुराणेतिहास’ विषयों का उल्लेख किया जावे।”

विचारविमर्शोपरान्त उपर्युक्त संशोधन को स्वीकार करने की संस्तुति की। इसी प्रकार अंग्रेजी “अध्यादेश O.329 एम 15 की ग्यारहवीं पंक्ति में Sahitya के आगे उपरोक्त संशोधन अंकित कर पढ़ा जावे।

5. संकाय ने पं० धनश्याम शास्त्री, अधिष्ठाता, संस्कृत अध्ययन संकाय के पत्रांक 130/78, दिनांक 28-3-78 में उल्लेखित निम्नांकित सुझाव पर विचार किया :—

“अध्यादेश 86 (ए) (3) के अन्तर्गत टी. डी. सी. (कला/वाणिज्य/विज्ञान) में प्रथम वर्ष टी०डी०सी० परीक्षा में उत्तीर्ण छात्रों को टी०डी०सी० द्वितीय वर्ष में एक वैकल्पिक विषय परिवर्तन करने का प्रावधान है, उसी प्रकार संस्कृत अध्ययन संकाय में भी शास्त्री प्रथम वर्ष परीक्षा उत्तीर्ण छात्रों को भी शास्त्री द्वितीय वर्ष में एक विषय परिवर्तन करने का प्रावधान किया जावे।”

विचारविमर्शोपरान्त इसे स्वीकार करने की संस्तुति की तदनुसार अध्यादेश 86 (ए) (3) को संशोधित कर निम्न रूप से पढ़ा जावे :—

Put ‘/’ (oblique) after the words ‘First Year T.D.C. and Add ‘Shastri First-Year’ before the words ‘Examination of the University in the First sentence of the existing Ordinance.

6. संकाय ने श्री मूलचन्द चौधरी, प्राध्यापक, राजकीय शास्त्री संस्कृत महाविद्यालय, दौसा के पत्रांक 23-9-78 परिशिष्ट-II (जिस पर अधिष्ठाता संस्कृत अध्ययन संकाय ने अपने पत्रांक 148/78, दिनांक 30-9-78 द्वारा उक्त पत्र को संकाय के विचारार्थ प्रस्तुत करने की संस्तुति की है) पर विचार किया।

विचारोपरान्त संकाय ने श्री मूलचन्द चौधरी के उक्त पत्र में उल्लेखित विभिन्न प्रस्तावों पर निम्नलिखित संस्तुतियां की :—

संकीर्णता से नहीं उदारता से काम लिया जाता है। हमारा संविधान तो इस मामले में केवल हमारा मार्गदर्शक है, अन्वरोधक नहीं। तभी तो इस विश्व-विद्यालय में ऐसी भाषायें पढ़ायी जाती हैं जिनका उल्लेख संविधान में नहीं है। फारसी, अरबी, अपभ्रंश, पाली, प्राकृत आदि प्राचीन तथा कुछ विदेशी भाषाओं का हमारे संविधान में उल्लेख न होने पर भी हमारे देश के विश्वविद्यालयों में स्वतन्त्र विभाग हैं। यहाँ तक कि भोजपुरी, मैथिली आदि भाषायें भारतीय संविधान द्वारा मान्यता प्राप्त भाषायें नहीं हैं। किन्तु उनके विभाग—कलकत्ता, पटना, भागलपुर आदि विश्वविद्यालयों में हैं। कविन्द्र रवीन्द्र शान्तिनिकेतन में और पं० मदन मोहन मालवीय हिन्दू विश्वविद्यालय में वर्षों पूर्व राजस्थानी विभाग की स्थापना करना चाहते थे उसका कारण राजस्थानी भाषा एवं साहित्य की विशेषता ही रही है।

आज राजस्थानी केन्द्रीय साहित्य अकादमी द्वारा मान्यता प्राप्त स्वतन्त्र भाषा है। जोधपुर विश्वविद्यालय में स्वतन्त्र विभाग है। राजस्थान माध्यमिक शिक्षा बोर्ड में 8, 10, 11वीं कक्षाओं में राजस्थानी भाषा एवं साहित्य का ऐच्छिक विषय है। राजस्थानी भाषा साहित्य संगम (अकादमी) बीकानेर में राजस्थानी भाषा एवं साहित्य के विकास के लिये प्रयत्नशील संस्था राज्य सरकार द्वारा स्थापित है। आकाशवाणी द्वारा समाचार बुलेटिन तथा अन्य राजस्थानी कार्यक्रमों का प्रसार इसे स्वतन्त्र भाषा सिद्ध करते हैं।

प्राचीन काल में इसका नाम मरुभाषा ही था। कालान्तर में यह डिगल कहलाने लगी। इसी नामकरण के समय राजस्थानी में समृद्ध साहित्य की रचना हुई। आधुनिक समय में मोटे तौर से इसे राजस्थानी ही कहा जाता है। अतः राजस्थानी से हमारा अभिप्रायः उसी परम्परागत मरु एवं डिगल भाषा से है।

राजस्थानी भारत-यूरोपीय भाषा परिवार की भाषा है। वह राजस्थान और मालवा की मातृभाषा है। विस्तार में यह प्रदेश हिन्दी को छोड़कर भारत की अन्य सभी भाषाओं के क्षेत्र से बड़ा है। राजस्थानी बोलने वालों की संख्या तीन करोड़ से ऊपर है। इस दृष्टि से इसका स्थान भारतीय भाषाओं में हिन्दी बंगला, तेलगू, तमिल और मराठी के बाद छठा है।

विषय :—राजकीय महाविद्यालयों में विधि कक्षाएं प्रारम्भ करने के सम्बन्ध में ।

महोदय,

मैं यह पत्र महाविद्यालयों में अगले सत्र में विधि कक्षाएं प्रारम्भ करने के सम्बन्ध में लिख रहा हूँ । तीन वर्ष पूर्व विश्वविद्यालय ने निदेशालय को सूचित किया था कि वार कौन्सिल के निर्णयानुसार वर्तमान महाविद्यालयों में विधि कक्षाएं प्रारम्भ करने की स्वीकृति नहीं दी जा सकेगी और इस बात से भी सूचित किया था कि जिन-जिन महाविद्यालयों में विधि कक्षाएं चल रही हैं, उन महाविद्यालयों से विधि कक्षाएँ तीन वर्ष की अवधि में अलग कर दी जाएँ व विधि महाविद्यालय की स्थापना की जावे । राज्य सरकार विधि महाविद्यालय स्थापित करने में स्टाफ की अनुपलब्धि के कारण व वित्तीय समस्या के कारण असमर्थ है । राज्य सरकार के पास 8-10 महाविद्यालयों के छात्रों से निरन्तर मांग आ रही है कि महाविद्यालयों में विधि कक्षाएं प्रारम्भ की जाएँ । राज्य सरकार उन मांगों पर विचार कर रही है, पर वे इससे पूर्व जानना चाहते हैं कि क्या विश्वविद्यालय महाविद्यालयों में विधि कक्षाएँ प्रारम्भ करने के लिए सम्बद्धता प्रदान कर देगी ?

निवेदन है कि पत्र का उत्तर शीघ्र भिजवाने का श्रम करें ।

ANNEXURE—'A'

O.141-B :

The following shall be the minimum qualifications for teachers in the University Teaching Department in the Faculty of Education :—

1. *Lecturer/Research Associate :*

- (a) A doctorate degree in Education.
- (b) Good academic record with first or high second class (with atleast 55% marks) Master's Degree in a relevant subject or an equivalent degree of a foreign University.
- (c) Experience of the work of correspondence courses for atleast one year, provided the post is for Institute of Correspondence Courses and Continuing Education.

OR

- (a) A doctorate degree in any University discipline, and
- (b) Good academic record with Master's degree in Education (M.Ed.) with atleast 55% marks or an equivalent degree of a foreign University.
- (c) Experience of the work of Correspondence Courses for atleast one year, if the post is for Institute of Correspondence Courses and Continuing Education.

Explanation :

Good Academic record means an average of atleast 55% marks of the aggregate of the two examinations, Intermediate/Higher Secondary/Pre-University and B.A./B.Sc./B.Com./B.Ed. Examination or atleast 50% marks in each of these two examinations separately.

Provided that if a candidate possessing a Doctorate degree is not available or is not considered suitable for appointment, a person possessing Master's degree in Education with First class and having secured an average of atleast 55% marks of the aggregate of any two University examinations (including M.A./M.Sc./M.Com. but excluding M.Ed.), may be appointed on the condition that he will have to obtain a Doctorate degree within five years of this appointment, failing which he will not be able to earn further increments until he fulfils this requirement.

Provided further that if a candidate (i) possesses teaching experience of degree/Post-graduate classes in the University for atleast three continuous academic years or has worked in the University as a whole time Research Associate for three continuous academic years:

जावे तथा “शास्त्री परीक्षा में वर्ग (ii) के मुख्य वैकल्पिक विषयों में से कोई एक ग्रहीत करने की सूची में क्रमांक (i) से क्रमांक (xi) तक सभी में ‘निम्बार्क दर्शन’ एवं ‘वल्लभ दर्शन’ विषय समाविष्ट किए जायें।”

15. संस्कृताध्ययन के अध्ययन मण्डल की निश्चय संख्या 5 (iii) दिनांक 15/16 सितम्बर, 1978 द्वारा गठित द्वि सदस्यीय समिति को श्री कन्हैया लाल शर्मा के पत्र दिनांक 12-9-78 (परिशिष्ट VIII) पर विचार हेतु अधिष्ठित किया। दिनांक 6-12-78 को आयोजित उक्त समिति की बैठक की निम्न संस्तुतियों पर विचार किया :—

संस्तुति संख्या (1)

शास्त्री अन्तिम वर्ष के व्याकरण विषय के द्वितीय पत्र में ‘परिभाषेन्दु शेखर’ द्वितीय एवं तृतीय तन्त्र को रखा जाना ही समीचीन है क्योंकि इस पत्र के अन्तर्गत छात्रों को केवल एक ही ग्रन्थ का अध्ययन करना होता है। महाभाष्य ग्रन्थ को इस पत्र में रखने से छात्रों पर ग्रन्थभार व विषय भार बढ़ जाता है।

आचार्य द्वितीय खण्ड के व्याकरण विषय के तृतीय पत्र से परिभाषेन्दु शेखर का तृतीय तन्त्र हटा दिया जाना चाहिए, क्योंकि छात्र इसे शास्त्री तृतीय वर्ष में ही पढ़ लेता है। महाभाष्य की गरिमा को ध्यान में रखकर इस पत्र में केवल ‘महाभाष्य’ (नवाह्निक) मात्र रखा जाना समीचीन है।

संस्तुति संख्या (2)

प्रस्तावानुसार शास्त्री प्रथम वर्ष वर्ग-1 सामान्य संस्कृत के लिए तैयार करायी गई पुस्तक का विश्वविद्यालय द्वारा प्राथमिकता से मुद्रण कराया जाना चाहिए। क्योंकि इसके अभाव में छात्रों को कठिनाई आ रही है।

संस्तुति संख्या (3)

प्रस्ताव के अनुसार कार्यवाही की जानी चाहिए। शास्त्री द्वितीय वर्ष के वर्ग-1 सामान्य संस्कृत विषय के व्याकरण भाग की पाठ्य पुस्तक तैयार करने हेतु जिस समिति का गठन किया गया था उसकी बैठक शीघ्र आमन्त्रित की जाकर पुस्तक तैयार करायी

Note :—The conditions at (a), (b) and (d) can be relaxed in the case of a candidate with outstanding published work, at the discretion of the Selection Committee provided the candidate has been working in the University as a Lecturer for ten years and has atleast a second class Master's degree in Education.

3. *Professor :*

- (a) A doctorate degree in Education, and independent published research work of recognised merit in the subject concerned or in an allied subject, and

संकाय ने विचारोपरान्त उक्त शास्त्री अन्तिम वर्ष परीक्षा 1981 एवं आचार्य द्वितीय खण्ड परीक्षा 1982 के लिए निम्नांकित संशोधित पाठ्यक्रम स्वीकार किया :—

- (1) शास्त्री (अन्तिम) तृतीय वर्ष परीक्षा (प्राचीन व्याकरण)

“प्रारम्भ से ही शास्त्री प्रथम वर्ष परीक्षा के धर्मशास्त्र विषय के पाठ्यक्रम में “दत्तक चन्द्रिका नामक पुस्तक निर्धारित थी। संकाय ने (अपने निश्चय संख्या 3 (iii) (ब) दिनांक 26-11-75 द्वारा शास्त्री अन्तिम वर्ष परीक्षा में तृतीय पत्र का प्रावधान प्रारम्भ करते हुए इस पुस्तक को शास्त्री प्रथम वर्ष से हटाकर शास्त्री अन्तिम वर्ष परीक्षा के धर्मशास्त्र विषय के तीसरे पत्र में निर्धारित कर दिया था, परन्तु यह संशोधन शास्त्री प्रथम वर्ष परीक्षा में नहीं किया गया और “दत्तक चन्द्रिका” दोनों परीक्षाओं के पाठ्यक्रम में यथावत दर्शायी गई है, सम्भवतः यह मुद्रण अशुद्धि है। अतः संकाय का दिनांक 26-11-75 का संशोधन तत्काल प्रभावी किया जावे।”

संकाय ने विचारोपरान्त एवं श्रवणलोकनोपरान्त उक्त संशोधन को 1979 की परीक्षा के लिए तत्काल अधिसूचित कराने की संस्तुति की।

20. संकाय ने प्राचार्य सुरेन्द्र कुमार शर्मा, संस्कृत कालेज, तालाव गांव के निम्नांकित प्रस्ताव पर विचार किया।

3. जैसा कि दिनांक 9-1-78 की मीटिंग में माननीय सदस्यों ने बताया कि मीटिंग की मीनिट्स में मनमाने ढंग से फेर बदल कर दिया जाता है। इस प्रकार की कार्यवाही को भविष्य में बन्द करने हेतु मीटिंग की कार्यवाही को या तो टेप की जावे या एक बार सदस्यों को पढ़कर सुना दिया जावे।
4. माध्यमिक शिक्षा बोर्ड की पिछली मीटिंग में प्रवेशिका तथा उपाध्याय परीक्षाओं में अंग्रेजी में पास होना आवश्यक कर दिया है—यदि ऐसा है तो शास्त्री प्रथम वर्ष के अनिवार्य अंग्रेजी पत्र में भी पास होने की अनिवार्यता आवश्यक की जावे। उल्लेखनीय है कि यह प्रस्ताव 1977 की संकाय की मीटिंग में भी स्वीकृत कर दिया गया था। अतः इस पर अब विचार किया जावे।

निश्चय किया कि

- (1) उक्त प्रस्ताव सं. 1 को स्वीकार नहीं किया जावे।
- (2) प्रस्ताव संख्या (2) के सम्बन्ध में श्री एल. एल. जोशी, (सिण्डीकेट सदस्य) समिति की संस्तुति सिण्डीकेट के विचारार्थ है), अतः अभी कोई कार्यवाही अपेक्षित नहीं है।
- (3) प्रस्ताव सं. 3 को प्रस्तावक द्वारा वापिस ले लिया गया।
- (4) प्रस्ताव सं. 4 के सम्बन्ध में कोई कार्यवाही अपेक्षित नहीं है क्योंकि शास्त्री परीक्षा में अनिवार्य अंग्रेजी विषय में पास होने की अनिवार्यता पूर्वतः विद्यमान है।

अन्त में अधिष्ठाता (डीन) महोदय को धन्यवाद के साथ संकाय की बैठक समाप्त हुई।

विपरीत है। अतः काव्यादर्श का भी एक ही परिच्छेद उक्त पत्र के लिये निर्धारित किया जावे।

3. इसी प्रकार शास्त्री द्वितीय वर्ष के साहित्य विषय के द्वितीय पत्र में कुचलियानन्द नामक पुस्तक के 40 अलंकार निर्धारित हैं। नियमावली में 40 वां अलंकार काव्यलिंग को बताया गया है जबकि उक्त पुस्तक में विचित्र नामक अलंकार 40 वां अलंकार है इससे यह स्पष्ट नहीं होता कि विद्यार्थियों को काव्यलिंग (60 वां) अलंकार तक अध्ययन करना है अथवा विचित्र (40 वां) अलंकार तक। अतः स्थिति को स्पष्ट करते हुये सम्बद्ध महाविद्यालयों के प्राचार्यों को निर्देश दिये जावें तथा नियमावली में तत्सम्बन्धी संशोधन कराये जावें।
4. शास्त्री/प्राचार्य कालेजों के प्राचार्यों की जो योग्यतायें वर्तमान में विश्वविद्यालय ने निर्धारित कर रखी हैं उनसे आधुनिक विषयों के प्राध्यापकों की भावी पदोन्नति के द्वार सदा के लिये बन्द हो गये हैं। इससे भारतीय संविधान की धारा 14 एवं 16 में प्रदत्त समानता के अधिकार का सर्वथा उल्लंघन होता है। कालेज शिक्षा विभाग में एक ही कालेज में विज्ञान, वाणिज्य एवं कला संकायों के समस्त विषयों का अध्ययन होता है। किन्तु वहाँ का प्राचार्य केवल एक संकाय के केवल एक ही विषय का व्यक्ति होता है। राज्य सरकार संस्कृत कालेजों को आर्ट्स कालेजों की श्रेणी में मानती है। ऐसी स्थिति में प्राचार्य के पदों पर केवल संस्कृत योग्यता धारी व्यक्ति की ही नियुक्ति करना न्याय-संगत प्रतीत नहीं होता। प्राचार्य का पद तो एक प्रशासनिक पद है। जिस प्रकार सामान्य शिक्षा विभाग में एक विषय का व्यक्ति प्राचार्य पद पर रह कर तीनों संकायों के अध्यापन कार्य को देख रेख कर सकता है, उसी प्रकार संस्कृत कालेजों में भी आधुनिक विषयों के प्राध्यापक प्राचार्य पद पर पदोन्नत होकर सफलतापूर्वक कार्य कर सकता है। वैसे भी प्रशासनिक पदों पर केवल एक ही विषय के व्यक्ति की नियुक्ति नेचुरल जस्टिस के विपरीत है। अतः अध्यादेश 65 (11) (जे) (i) एवं (ii) को निम्न प्रकार से संशोधित किया जावे :—

Resolved further that the Vice-Chancellor may appoint a Committee to look into the present composition of the Sports Board and to suggest changes required to be made, if any.

(6) With reference to its Res. No. 5 dated the 4th and 5th December, 1978, the Syndicate considered a proposal received from Shri Narendra Kumar Vishnoi, Vice-President, Students Federation of India to the effect that copies of the minutes of the meetings of the Senate and the Syndicate should be supplied to the students-organisations.

In this connection, the Registrar reported that (i) references were made to as many as 27 eminent Universities to enquire whether the minutes of the Senate and Syndicate are circulated to the student-organisations, (ii) replies have been received from 11 Universities viz. Allahabad, Gujarat, Chandigarh, Poona, Himachal Pradesh, Ujjain, Bhopal, Jadavapur, Bangalore, Kashmir and Kurukshetra, and (iii) on the basis of these replies, it has been found that none of these Universities supply the copies of the minutes of the meetings of the Senate and the Syndicate to any of the student-organisations.

Resolved that the (i) aforesaid proposal of Shri Vishnoi be not accepted, and (ii) two copies of the volumes of the minutes of the meetings of the Syndicate and the Academic Council be supplied to the University Central Library so that one of the volumes could be made available for reference purposes in the Library, and (iii) the office may examine the possibility for making the volumes of the minutes as priced publications to be made available to the public in general.

(7) With reference to the Academic Council Res. No. 5 dated the 2nd April, 1979, the Syndicate considered the recommendations dated the 18th April, 1979 of the Committee appointed by the Council to consider the matter for awarding division to the students as were admitted directly to the IIrd B.E. class after passing the Diploma Examination. (क) शास्त्री एवं आचार्य परीक्षा डिग्री एवं पोस्ट ग्रेजुएट परीक्षाएं हैं और नियुक्ति के लिये जहाँ जहाँ डिग्री एवं पोस्ट ग्रेजुएट का उल्लेख होता है वहाँ वहाँ शास्त्री एवं आचार्य परीक्षोत्तीर्ण भी आवेदन के लिये पात्र होंगे ऐसी अधिसूचना विश्वविद्यालय से जारी कराई जावे।

(ख) शास्त्री एवं आचार्य का अध्यापन अनुभव स्नातक एवं स्नातकोत्तर अध्यापन अनुभव के समकक्ष है इस आशय की अधिसूचना हेतु संस्कृत उपाधियों का नामकरण निम्नांकित प्रकार से कराया जावे—

In this connection the Syndicate also considered a further suggestion of the Chairman of the House Allotment Committee for amending Rule No. 4 of Draft Revised Rules for the Allotment of Residential Accommodation of the University as under :

“4. The Allotment of residential accommodation in all categories shall be made on the basis of seniority of the applicants.”

Resolved that (i) the aforesaid suggestion of the Charir man be accepted and Rule 4 of the Draft-Rules be substituted accordingly, and (ii) in order to implement these rules in all fairness to various categories of the employees of the University, their registration for allotment of residential accommodation be made afresh by inviting applications in the prescribed proforma by the University Office. The proforma may bear a counter-foil portion indicating place for mentioning registration number of the applicant and the applicants for the accommodation be communicated their registration numbers. Registers for different categories of employees be maintained properly.

Resolved further that the (1) Draft rules proposed by the Committee be approved (subject to the modifications as incorporated in Rule 4 above) with the following amendments/ observations :

राजस्थान विश्वविद्यालय की प्राच्य विद्या संकाय की स्नातक एवं स्नातकोत्तर स्तर की शास्त्री एवं आचार्य परीक्षाओं का परीक्षा योजना में मूलभूत अन्तर परीक्षावार वर्षविधि का है, जैसे वाराणसेय संस्कृत विश्वविद्यालय में शास्त्री परीक्षा का त्रिवर्षीय एवं आचार्य परीक्षा का द्विवर्षीय पाठ्यक्रम है ।

राजस्थान विश्वविद्यालय की शास्त्री/आचार्य परीक्षा योजना पूर्णतया कला संकाय की स्नातक एवं स्नातकोत्तर परीक्षा योजना के समानान्तर निर्धारित हैं । यदि इसमें कोई फेर बदल किया जाता है तो उससे परीक्षाओं की समक्षता के प्रभावित होने का अंदेश है । अतः वर्षक्रम में कोई भी परिवर्तन किया जाना उपयुक्त प्रतीत नहीं होता । जहां तक मुख्य शास्त्रीय विषयों के पाठ्यक्रम में निर्धारित विषयस्तु एवं पाठ्यग्रन्थों की समानता का प्रश्न है :—समिति का तुलनात्मक अध्ययन के उपरान्त यह निष्कर्ष रहा है कि विषयवार शास्त्रीय लक्षण ग्रन्थों का समावेश पूर्णतया वाराणसेय संस्कृत

Provided that in case where a candidate requires more than 25% marks in orders to reach the requisite minimum aggregate as many marks out of those actually secured by him will be taken into account as would enable him to make up the deficiency in the requisite minimum aggregate.

- Notes :—*1. candidates re-appearing at an examination in a subsequent year shall be examined in accordance with the scheme and syllabus in force and for that reasons he may be required to change any paper(s) if necessary.
2. candidate shall be entitled to the award of the degree of the year in which the last failing paper(s) are cleared by them.

Ordinance 329M—25—C.

Any candidate who has passed the Acharya examination of this University or that of departmental examinations, Rajasthan in any subject shall be allowed the present himself for examination in any one or more of the optional papers in that subject not taken by him at the said examination and if successful, will be given a certificate to that effect.

A candidate who desires to enter for the examination in this ordinance must submit his application on a prescribed form. processes in foundational terms; (ii) mean giving up quite a few of the innovative schemes (like university leadership programme, teacher fellowship scheme, retired teachers scheme and so on) launched by U.G.C. for improving research and teaching standards both at University and College levels; (iii) discourage efforts at buliding up centres of excellence; and most importantly, (iv) thwart the on-going pattern of development of various Universities and Colleges.

While appreciating the emphasis of the Government of India and the Planning Commission on Primary and Adult Education, it would like this not to happen at the cost of higher education.

The Syndicate, therefore, urges both the Government of India and the Planning Commision to take note of the consequences of the cut in higher education and retrieve the situtation before it is too late. The Syndicate further decided that copies of the resolution be sent to the Prime Minister, Union Education Minister, Chairman and members of the Planning Commission and Chairman and members of the University Grants Commission and the national and local press."

(26) The Registrar reported that :

- (i) Shri Ashok Kumar Sharma Roll No. 2485 of LL.B. 1 Year Exam. 1978 was caught using unfair means in the Examination Hall while answering the paper or 'Hindu Law' on 13-8-78. A book on 'Hindu Law' was recovered from him. He was appearing from Rajasthan College, Jaipur Centre. mittee was accepted by the Vice-Chancellor and the candidate was informed accordingly on 27-3-1979.

(iii) The candidate again submitted a representation pleading non-guilty of using unfairmeans in the Examination Hall and denying the charge of having a book-let with him. He also went on a hunger strike. The case was reconsidered by the Vice-Chancellor and after looking into full facts of the case he was pleased to pass order on 7-4-79 to the effect that since misbehaviour is not included in the definition of unfairmeans as given in O.152 the punishment awarded to the candidate debarring him from appearing at any examination of 1979 for his mis-behaviour in the examination hall cannot be sustained and, therefore, the same is set aside.

(iv) the Registrar, further, reported that on further discussion with Prof. G.C. Patni Convener, Unfairmeans Committee, the Vice-Chancellor examined the matter and found that the norms of punishment as approved by the Syndicate vide Res. No. 21 dated 11th/12th August, 1969 were not in his notice while passing the orders on the 7th April, 1979 and that the Syndicate may, therefore, review the case in the light of the existing law.

The Syndicate, therefore, referred the matter back for a review by the Vice-Chancellor in the light of the existing norms prescribed in this regard with the observation that any deviation in the case of this candidate would necessitate revision in the cases of other candidates to whom punishments under the said clause have also been awarded.

Resolved further that the provisions of Ordinances relating to the unfairmeans as also norms for award of penalty/punishment be reviewed so as to incorporate mis-conduct/

(13) With reference to Academic Council Res. No. 11 (ii), dated the 8/9th April, 1978, the Faculty considered the recommendations made by the various Boards of Studies under the purview of the Faculty to the effect that syllabus in 'Basic Mathematics' prepared by the Committee be included as an alternative paper in the list of Compulsory subjects for the I Year T.D.C. Examination in the Faculties of Arts and Social Sciences :—

S.No.	Name of Board/C.O.C.	Res. No. of the Board.	Recommendation
1.	Hindi	—	Meeting yet to be held
2.	English	6	Not accepted
3.	Philosophy	7	Accepted
4.	Urdu	—	No comments
5.	Sanskrit	6	Noted
6.	Sindhi		No comments
7.	Modern European Languages		No comments

Resolved to recommend that 'Basic Mathematics' *be not* included as an alternative paper in the list of compulsory subjects for the First Year T.D.C. Examination and status-quo be maintained.

(14) The Faculty considered the following proposals made by the subject teachers in the subject of Hindi at its informal meeting held on the 22nd March, 1979 :—

- (1) हिन्दी विषय समिति सर्व सम्मति से प्रस्तावित करती है कि प्रथम वर्ष की कक्षाओं में अनिवार्य हिन्दी में प्राप्तांक छात्र द्वारा प्राप्त कुल योग में जोड़े जावें और अन्य विषयों की भांति उत्तीर्ण होने के लिये एक ही प्रयास दिया जावे ।
- (2) राजस्थान विश्वविद्यालय में सरकारी, गैर-सरकारी महाविद्यालयों में हिन्दी अनिवार्य विषय पढ़ाए जाने के लिये 6 कलांश दिये जाने का निर्णय किया था लेकिन कालेज शिक्षा निदेशालय ने अभी तक उस निर्णय को क्रियान्वित नहीं किया है । हिन्दी विषय समिति इस स्थिति के प्रति अपना क्षोभ प्रकट करती है और पुर जोर शब्दों में मांग करती है कि विश्वविद्यालय उस प्रस्ताव के क्रियान्वयन के लिये निदेशालय पर दबाव डाले ।

his record in the three years as also his earlier record in the Diploma of Polytechnic.

- (c) The Committee would also like to point out that, if the division is to be awarded to the Diploma Holders on the basis of their three years performance, the students taking the five year integrated course will also demand the same facility and that would not be in the academic interest of the Engineering students and it would also violate the spirit of the pattern of examination prescribed by the Government of India for five years integrated course.
- (d) Finally, the Committee would also like to point out that if the Diploma Holders are at all to be given the Division, their degree shall have to be differentiated from the students taking the five year integrated course and this differentiation would put them into dis-advantage in comparison the students taking the Five Year Integrated Course.

It is, therefore, neither in the interest of the Diploma Holders nor in the interest of those students who have offered the Five Year Integrated Course that Division should be awarded to students who have joined the Engineering Course at Third Year Level after passing Diploma Examination of the Polytechnics.

- (e) If the diploma holder students still want divisions, they may be asked to clear the papers of I and II Year so that the regular students are not discriminated against.

The meeting ended with a vote of thanks to the Chair.

APPENDIX—II

(Ref. Res. No. 5II(c) of the Faculty of Arts)

Note of dissent with regard to the minutes of the Board of Studies in Hindi presented to and approved by the Faculty of Arts on March 23, 1979.

The Dean has rightly observed that the subject committees are but informal bodies, but even then he has ruled (consequent to the point of order raised by me) that the Faculty has every right to change as many text books as it decides in its wisdom, but the University Act does not permit the Faculty to make any such changes 'without consulting' the relevant Board of Studies. This is also because not all members of the Boards of Studies, both internal and external are not necessarily members of either the subject committee or the Faculty. It is obvious that the Faculty has recommended drastic changes in many of the text books suggested by the Board of Studies in Hindi. Such members of the Board of Studies as are not members of the Faculty have every legitimate right to object to the changes made by the Faculty without their knowledge, not to talk of their approval. The Faculty has arrogated to itself the rights which University Act permits only to the Board of Studies. I have continuously been an external member of the Faculty of Arts and the best of my knowledge such changes have never been made by this Faculty. It has time and again, referred such changes back to the relevant board of Studies. They cannot but lead to serious difficulties, since these are indubitably unconstitutional.

Ref. : Your letter No. USB/76-77/36/3554-705 dated January 28th, 1977.

Dear Sir,

This college has the following suggestions to make in view of your letter cited above :

1. The University Women's Tournament should be organised in rotation by the various women's colleges of Rajasthan. This should be made obligatory for colleges of 7 years standing, and the rotation adhered to. The rotation should be fixed initially by drawing lots.
2. If a given college refused to organise the tournament that college should be debarred from participating in that and the subsequent tournament.
3. The University teaching department and the coeducation colleges having a number of women students and hostels facilities should also be asked to organise the tournaments.
4. Indoor games viz. Badminton and Table Tennis need not necessarily held with general tournament. They should be organised by colleges that can provide standard facilities and should be held well in advance of Inter University meet so that the team selected could undergo a short coaching course.
5. The University should depute atleast two qualified referees competent to refer various games if asked for by the organising college. The T.A. and D.A. should be borne by the U.S.B.
6. We are not in favour of including Cricket and Gymnastics in the women tournaments, for cricket would have to be organised apart from the general tournaments. Regarding Gymnastics most of the colleges would not be having facilities for gymnastics training. If these items are included, they should not be counted towards judging the championships.

आशा है आप इस विषय पर गंभीरतापूर्वक विचार करके कला संकाय को समुचित निर्देश प्रदान करेंगे तथा हिन्दी व अंग्रेजी भाषा के शिक्षण स्तर को सुधारने की दिशा में अवश्य कार्यवाही करेंगे ।

ANNEXURE-4

Copy of the letter No. nil dated 7.4.77 from Shri J.P. Bagarhatta to Secretary, University Sports Board, Jaipur.

Dear Sir,

Please refer to your letter No. 7677/76/3755 dated 15th Feb. 1977. I am to remind you about the meeting held on 18th Jan., 1977 of which the minutes are still awaited. I had given suggestion in the meeting to have a full time Secy. of the Sports Board as it would be much more economical than the present set-up. I had given to you my proposal regarding this in writing to include in the minutes. The same proposal was discussed in the meeting. I hope you must have included the same in the proceedings of the meeting.

I do not understand as what more proposal you expect me to make now. However, I have given my mind by suggesting that there should be a full time Secy. of the Sports Board. If you still need further clarification, you may please put it on the agenda of the meeting to be held on 11th April, 1977 which can be discussed in detail and recommendations could be made to this effect.

विविध प्रवृत्तियों को स्थान दिया जाना आवश्यक है। आज का छात्र स्नातक व स्नातकोत्तर उपाधि से विभूषित होकर भी कर्मशील जीवन जीने की लालसा में भटकता है। बेरोजगारी और बेकारी के काल में वह गहरी मानसिक व्यथा कुण्ठा और घुटन का अनुभव करता है और ऐसी शिक्षा-दीक्षा पर लानत भेजता है।

अतः हमारा कर्तव्य है कि निकट भविष्य में होने वाली आगामी संकाय-सभा में इस विषय पर गहराई से विचार किया जाय और सदस्यगण विविध विषयों के पाठ्यक्रम के निर्धारण में इस महत्वपूर्ण विचारणीय बिन्दु को ध्यान रखे ताकि "मैकाले" की पद्धति समाप्त होकर राष्ट्रीय एवं जीवनोपयोगी शिक्षा का स्वरूप उजागर हो सके।

सर्वप्रथम आवश्यकता भाषा शिक्षा के स्वरूप में परिवर्तन की है। स्नातक स्तर पर हिन्दी भाषा व अंग्रेजी भाषा की अनिवार्यता है। इन दोनों का पाठ्यक्रम इतना घिसा-पिटा हुआ है कि इस ओर विशेष ध्यान दिया जाना चाहिये। जहां तक इन भाषाओं के पाठ्यक्रम का प्रश्न है यह सर्वविदित है कि इसमें अभी तक कोई नवीनता नहीं लाई गई है। अभी गत नवम्बर-दिसम्बर में भी जो पाठ्य पुस्तकें हिन्दी व अंग्रेजी की प्रथम वर्ष टी.डी.सी. के अनिवार्य विषयों के लिए आमंत्रित की गई हैं, उनमें भी वही परम्परागत दोष और त्रुटियां हैं। विज्ञान व वाणिज्य के छात्रों को कविता, कहानी, उपन्यास या सामान्य निबन्ध पढ़ाकर उनको क्या दिशा ज्ञान हम देंगे, विचारणीय है। इसी प्रकार व्याकरण तथा भाषा के शुद्ध लेखन व पठन-पाठन की आवश्यकता को भी हमें नये सन्दर्भों में देखना है। जो पाठ्यक्रम माध्यमिक व उच्च माध्यमिक कक्षाओं में हैं, वैसे ही पाठ्यक्रम आंशिक परिवर्तन करके स्नातक स्तर तक दे देना न तो न्यायसंगत है और न ही बुद्धिमत्तापूर्ण ही है। आज का छात्र न शुद्ध हिन्दी या अंग्रेजी बोल सकता है और न ही शुद्ध हिन्दी या अंग्रेजी लिखने में समर्थ है। आवश्यकतानुसार नौकरी के लिए सही रूप में आवेदन पत्र लिखने का बोध भी उसे नहीं होता। अतएव सभी क्षेत्रों में यह अनुभव किया जा रहा है कि स्नातक स्तर की अनिवार्य हिन्दी व अंग्रेजी के पाठ्यक्रम पर जब तक पुनर्विचार संकाय सभा में नहीं हो तब तक सम्बन्धित पाठ्यक्रम समिति की अनुशंसा को मान्यता नहीं दी जानी चाहिये। योग में अंक न जुड़ने के कारण भी छात्र इन अनिवार्य प्रश्न पत्रों पर पूरा ध्यान नहीं देता। यही कारण है कि आज का छात्र हिन्दी व अंग्रेजी की अनिवार्यता को गंभीरता से नहीं लेता। हमें इस पर गहराई से विचार करना चाहिये।

EXPLANATORY NOTE

Upto the examinations of 1974, the non-collegiate candidates were required to submit their application forms for the University examinations through the Principals of affiliated colleges and Inspector of Schools. - (1) Re. 1/- to the forwarding officer
- (2) Rs. 2/- to the State Government.
- (3) Rs. 2/- to the ministerial staff.

(2) With a view to avoid the delay and the difficulties experienced due to non-receipt of application forms of non-collegiate candidates from the forwarding officer by the last date fixed for the purpose, the academic Council vide its Res. No.11 dated 29th June, 1974 decided that the non-collegiate candidates be permitted to submit their application forms along with the requisite fee directly to the University after getting their photographs attested and obtaining a certificate of 2½ years' residence in Rajasthan from a competent authority. The Academic Council also appointed a Committee consisting of Shri S.C. Tela (Convenor), Dr. M.C. Gupta and Dr. S.N. Dhyani to recommend consequential amendments to the relevant ordinances adding that the recommendations of the committee be treated as the recommendations of the Council and the same be placed directly before the Syndicate.

The forwarding officer and the ministerial staff would thus be deprived of the honorarium which they used to get, whereas such of them as were working in an institution which was an examination centre would have to do some work for the private candidates in connection with their examination. himself a candidate and (e) one subject expert in concerning area/branch of specialisation, of the candidate from outside.

- (3) In the event of a person being adjudged as unsuitable for promotion, he should be provided with an opportunity to Appeal to the Chancellor.
- (4) The provision of 5% promotion (para 2 of 'consensus') is absolutely inadequate as this is long overdue. The Syndicate itself had accepted 5% in June 1978 but this has not been implemented for almost one year. Had it been speedily implemented, by now about 10% teachers would have been promoted. A few years ago even the U.G.C. had allowed 5% 'ad-hoc' promotion every year. In view of all this we request you that 'to begin with' atleast 25% teachers be promoted.
- (5) Further we suggest that the existing provision for Ex-cadre promotion at 55 years of age should be continued so as to ensure 'at-least one promotion to every teacher as accepted by the Syndicate, the Chief Minister and as stated in the preamble of 'consensus'.
- (6) With reference to para 4 of the 'consensus' we suggest that as Post-graduate Departments in some subjects were opened relatively recently, the teachers in those departments will be unable to fulfil '15 year Post-graduate experience', such cases should be considered separately in addition to the proposed provision.
- (7) We strongly feel that the 'one-day-break' has no practical significance it should be done away with.
- (8) We appreciate your decision (para 5 of consensus) that one-day-break in the service of temporary teachers will not be allowed to cause "any financial loss to them". We understand that "financial loss" includes (i) summer salary, (ii) P.F. (iii) Medical benefits, (iv) loans etc. Well, if this is so, then a letter to this effect to maintain statusquo prior to the enforcement of this rule should be sent to all the concerned departments and offices.
- (9) With reference to para 6 of the 'consensus' we suggest that all temporary teachers should be enabled to take the interviews for permanent posts and the interviews for lecturers post should be arranged immediately to wipe out the element of uncertainty so as to quench their mental agony.
- (10) With regard to 106 teachers absorbed by means of Ordinance we suggest that all those who have completed 2 years' effective

Paper VIII —(b) This would have the same course as given in Paper XII (c) of Semester course given on Pages 47,48.

APPENDIX-XVI

(Ref: Res. No. 44 of the minutes of the meeting of the
Syndicate dated the 29 & 30th April, 1979).

The proceedings of the meeting of the Committee appointed by the Syndicate vide its Resolution No. 25 dated the 4th & 5th December, 1978 to lay down norms for condonation of break in services as also to decide the cases of Shri Chand Mal Sharma and Shri Ravindra Sharma, held on 12.3.1979 at 3. p.m. in the University Office, Jaipur.

| 1. Principal, M.L. Joshi | —Convenor |
| 2. Prof. Iqbal Narain | —Member |
| 3. Shri N.M. Kothari | Member |
| Shri S.K. Goyal | —Member-Secretary. |

N.B.—Prof. T.K.N. Unnithan could not attend the meeting.

The following business was transacted :

1. As far as the question of norms for condoning the period of break in service is concerned, the Committee would like to make the following observations :

(i) There can be two types of cases asking for condonation for the period of break in service first there may be employees who may have been in service temporarily and who may have a gap in the period of their services because it have been rejected before they were again employed at some subsequent date. In cases of this type, no-request for condonation of break of service should be considered secondly there may be cases of permanent employees who may have gone to served else-where after resigning from here and later on again joined the University on a permanent post. In such cases if the employees before leaving the permanent service of the University had put in atleast 10 years service here and again joined on a permanent position with a break not amounting to more than 3 years the request for condonation of break in service may be considered and that also only for purposes of gratuity and pension benefits without effecting the existing seniority list. The condonation in the break of service would make if possible for the University to count the period of service in the University both before and after the break (excluding the period of break itself) to be treated as period of continuous service for purposes of gratuity and pension only.

APPENDIX-XXII

(*Ref. Res. No. 53 of the minutes of the meeting of the Syndicate dated the 29 & 30th April, 1979*)

In the scheme of 5% ex-cadre promotion of teachers as decided by the Syndicate, it was envisaged that the teachers, before they are promoted, shall have to face the selection committee. At present the selection Committee are constituted under "The Rajasthan Universities Teachers and Officers (Special Conditions of Service) Act. No. 18 of 1974 (Hereinafter to be referred as the Act). In a selection Committee apart from the six permanent members, three experts of the subject are invited from the panel prepared by a committee appointed for that purpose, under the Act. It is experienced that the administration has to face difficulties in collecting three experts of the subject out of the above referred panel and therefore selections are generally delayed. The process of promotion is somewhat different from the Statutory selection and the matter has already been sufficiently delayed. Therefore I felt that the Syndicate may reconsider the matter to avoid further delay and in order to select persons for ex-cadre promotion, a small selection Committee consisting of V.C., Dean., Professor, One of the nominees of the Government and one subject expert be constituted. The Vice-Chancellor must be empowered to call one expert of the subject from the panel approved by the committee under the Act.

I am constrained to intrude upon your valuable time with a small problem as all my approaches to others in the Correspondence Directorate of your University have been of no avail, perhaps due to constraints of their own. The problem in brief is as under :

- (1) I am holding a Manager's position in the Steel Authority of India Limited, A Central Government Undertaking and have to my credit an experience of over 14 years in this organisation.
- (2) I am *Post-Graduate in Economics* with 59% marks with statistics as one of my subjects. In addition, I have passed two years Fallowship course on Shipping from Norottam Morarji Institute of Shipping.
- (3) I am only 38 years of age and have still a long career ahead of me.
- (4) Of late, I have been feeling that an exposure to principles and practices of business administration contribute a great deal in widening the horizon for a maturer outlook at various problems faced from time to time.
- (5) I had accordingly been looking for a correspondence post-graduate course on Business Management/Administration as my job is a transferable one. After considerable research and study I find that amongst the sundry courses offered by various Institutes/Universities for the purpose M.Com. (Business Administration Course), offered by University of Rajasthan would be maximum benefit to me.
- (6) Despite repeated requests, however, I have been advised vide reference Nos. M.C.B.A./Gen./77-78/p-1/14038-55 date 8.7.78 and M.C.B.A./Gen./78-79/D.I./140367 date 28.7.78 that it would not be possible for your Uni-

No. M.C.A./48958

Dated: 3-3-79

Dear Sir,

In view of the recent developments and changes in the scientific study of Accountancy and Business Statistics as well as Managerial Economics and Management, it is being increasingly felt that without a proper grounding in Mathematics (Elementary as prescribed for C.A. students), it would be well high difficult for the students of commerce to understand the tools and techniques for making an analytical study of Accounting and Managerial Problems. The Knowledge of elementary and basic mathematics has also become imperative for advanced learning of these subjects.

It is, therefore, proposed and suggested that Elementary Mathematics may kindly be introduced as a compulsory paper in First Year Commerce and the course content of this paper should be the same as prescribed for the Intermediate courses of C.A.

If the Board of Studies and the Faculty of Commerce take this decision, it is needless to say that students of Commerce would be benefited much.

A further suggestion may also be made for some changes in the Scheme of Courses prescribed for Second and Third Year Commerce Examinations. At present the papers of Accountancy, both compulsory and optional, are as given below :

Second Year	Third Year
<i>Compulsory:</i> 1. Financial & Cost Accounting	1. Income Tax
2. Statistical Methods	2. Auditing.
<i>Optional :</i> 1. C.Q.M.	1. C.Q.M. (Cost Accounting)
2. Taxation : Law & Practice	2. Taxation : Law & Practice.

Some consensus has developed, of late, that the second portion of the Paper "Financial Accounting & Cost Accounting", which exclusive covers Cost Accounting from Introduction to Unit Costing

**Proposals For Consideration at the Meeting of Faculty
Of Commerce, University of Rajasthan on March 17, 1979**

1. There is need for the Paper: *Marketing Management* to stay in the Course of B.Com. Hons. Part III (Business Administration)

Grounds :

- (i) The paper has been deleted from the Course so as to take effect from the Examination of 1981, by the Board of Studies at its meeting held on 12th/13th September 1978, ignoring the facts that:
 - (a) the first Examination in the Paper is yet to take place in April/May 1979, and
 - (b) the Paper (and any other Paper for that matter) should be tried for at least 5-6 years prior to deletion.
- (ii) The importance of Marketing Management to a modern graduate in Commerce in particular and the national economy in general, is too obvious to need elaboration.
- (iii) The B.Com. Hons. Course in Business Administration, as contemplated by the framers, was conceived as a Composite and self-contained one (with Marketing Management as one of the compulsory papers), so as to prepare the Hons. graduate for facing the real business situations effectively.
- (iv) The founder-framers of the Course were clear in mind that the 'Composite' character of the course (para (iii) above) was relevant also because *not all* Hons. graduates would join the M.Com. (post-graduate) Course.
- (v) The papers in the Marketing Area at the Post-graduate level have been sought to be made more advanced broad-based and management oriented as per para 2, 3 and 4 below, so that they neither amount to duplication nor can be treated as substitution for the Paper at the Hons. level.

2. The proposed new syllabus of M.Com. in Marketing Management had been discussed and approved at the Workshop on Management Education in 20th Century India, organised by the Department of Business Administration, University of Rajasthan, Jaipur

APPENDIX-III

(Ref. Res. No. 11 of the minutes of the meeting of the Academic Council dated the 15th May, 1979).

Minutes of the meeting of the Committee appointed by the Academic Council vide its Res. No. 35 dated 8/9th April, 1978 for reviewing the minimum qualifications for University Teachers and Teachers of affiliated Colleges in the various Faculties, which met on 27th March, 1979 in the University Office.

1. Prof. G.C. Patni (Convener)
2. Shri N.M. Kothari
3. Dr. H.C. Bhartiya

Before reviewing the minimum qualifications of the University Teachers in remaining faculties/programmes the Committee was informed that the Academic Council vide its Res. No. 27 dated the 11th March, 1979, has referred to this Committee the issue regarding ammendments to be made to the provisions of O,359 in so far as it relates to the qualifications prescribed for the posts of Librarian, Dy. Librarian & Asstt. Librarian. Therefore, the Committee reviewed these qualifications in the light of the afore-said resolution of the Academic Council and recommends as under :—

- (i) The following notes be inseret under the qualifications for the posts of Librarian, Dy. Librarian & Asstt. Librarian :

(a) Librarian :

Note :—The condition of getting first or second class in (a) can be relaxed in the case of persons having atleast 10 years experience as Dy-Librarian in the University Library or having atleast 15 years experience as Asstt. Librarian in the Libraries of the University includin its constituent Colleges and teaching Departments.

(b) Dy. Librarian :

Note :—Relaxation in (a) Above can be allowed in the case of persons having atleast seven years experience as Asstt. Librarian in the Libraries of the University including its constituent Colleges and teaching departments provided they possess at least graduation degree along-with B.Lib.Sc. or one year Diploma Course in Lib, Sc.

As M.Phil. is a local examination, the above suggestion should carry effect from the Examination of 1980.

APPENDIX—V

(*Ref. Res. No. 17 of the minutes of the meeting of the Academic Council dated the 15th May, 1979*)

Minutes of the meeting of the Medical Education and Research Committee in Pharmacology held to consider the request of the candidates of Diploma in Pharmacy examination to amend O.278-H(VI) on 20th April, 1979 at 12.00 noon.

N. B. :- (Dr. R.P. Chaturvedi, Dr. M.K. Patni, Dr. K.P. Singh and Dr. N.K. Khanna did not attend the meeting).

The Committee considered the O.278—H (VI) as it appears in the syllabus of Diploma in Pharmacy Examination, 1978, in the light of Education Regulation 1972 for the Diploma Course in Pharmacy framed by Pharmacy Council of India and approved by the Central Government vide No. 1421/71-PCI, dated 6.12.1972. Rule 11 (b) (Page 5).

P.C.I. Rule 11 (b) reads as "A student shall not be declared to have passed the above examination unless he secures at least 33% marks in English and 40% marks in each of the remaining subjects separately in the written and practical tests (including sessional record) and 45% in the aggregate of all subjects. Candidates securing 75% marks or above in any subject or subjects shall be declared to have obtained distinction in that subject or those subjects provided the student passes in all the subjects in the same examination."

It was felt that those regulations as they appear in the University syllabus and the P.C.I. Regulation 1972, should be in consonance with each other. Therefore, the following change in the (O.278-H (VI) is suggested "In line 3 of O.278-H(VI) 45% should be read as 40%" Thus bringing it in the line with recommendation of the Pharmacy Council of India.

College joined the University in July, 1962 as a result of taking over of the four local colleges, would be senior to them.

- (ii) How will the seniority of the Teachers who come from the erstwhile Rajasthan college and who did not belong to the R.E.S., be determined. There is no information in respect of these teachers in the office of the Director of College Education.
- (iii) How will the seniority of the Teachers of the erstwhile Rajasthan College, once determined, be integrated with the seniority of the teachers who came from the R.E.S. in this connection, it may be mentioned that teachers of the Rajasthan College were all degree teachers from the date of their first appointment in that college whereas these of the R.E.S. were either degree teachers or teachers of Intermediate classes on their first appointment in the R.E.S.
- (iv) How should the seniority of the teachers of General Education (both from the R.E.S. and the Rajasthan College) be determined vis-a-vis the teachers of the Department. In 1962 when the colleges were taken over, there was a separate department of General Education and teachers of different subjects were teachers of General Education, However, in 1970, it was decided that these teachers may be absorbed in their respective discipline, but their department-wise seniority would be junior to the Teachers who were already working in the Department at that time.

Resolved that the matter be referred to the Committee appointed by it vide its Resolution No. 11 dated 20/21 Dec., '77 under the Chairmanship of Prof. Iqbal Narain for clarifications.

(33) With a view to having a coordinated body to serve as a vital link between the University Grants Commission, the University, the colleges and the State Education Department, the U.G.C. wrote to the Universities for creating a College Development Council at the University headquarters, vide its letter No. F. 1-50/77(C.P.) dated 1.11.1977. Accordingly, the Council was constituted. The College Development Council met once in January, 1978 to decide about disbursement of basic grants for purchase of books, journals and equipment to the tune of Rs. 16 lacs.

Subsequently the Secretary, U.G.C. addressed a D.O. letter to the Vice-Chancellor on 2nd June, 1978 conveying acceptance of recommendations of its standing committee regard commission's support for College Development Council. The Commission agreed to give 100 per cent assistance for a full-time Coordinator and a Stenographer for the purpose. Necessary steps are being taken to constitute a College Development Council in the University on the lines suggested by the Commission.

(34) The University became member of the International Association of Universities, Paris.

(35) Dr. Hari Singh, Member Syndicate, was appointed as a Member and Chairman of the University Board of Sports vice Shri Bhanwar Lal Sharma.

(36) A request was made by the Rajasthan University Non-Teaching Staff Association to the effect that proper representation be given to the Association on various units of the University Bodies. In this connection the Syndicate observed that the provisions of the University Act do not permit representation of the Associations on the Statutory bodies like Senate, Syndicate and Ac. Council. It was, however, felt that operationally the interests of the various categories of the Non-teaching staff would be better served by providing for a broad-based forum where all problems relating to them could be freely and frankly discussed. The Syndicate, therefore, constituted a 'University Non-Teaching Employees Welfare Advisory Council' with the following composition to advise it on all matters and problems concerning the non-teaching employee of the University :

- (i) One person to be nominated as its representative by the Rajasthan University Non-teaching Staff Association.
- (ii) One person to be nominated as its representative by the Rajasthan University Class IV Staff Association.

Sub : Awarding of Division to Diploma-holders.

Respected Sir,

We want to state through this application about the awarding of Division to Diploma Holder in the Malaviya Regional Engineering College, Jaipur for your necessary and affirmative decision.

The students who get the admission direct in III Year Metallurgy after having passed Diploma are not being provided the B.E. degree in the same manner as other students get the degree. The students (migrated in III year after-passing Diploma) should be awarded division in the same manner as the other students who get the admission in II Year after migration from different institute (such as Pilani) to this institute.

In other institutes (such as Jodhpur, R.E.C. Allahabad etc.), the Diploma holders are having their degree in the same manner as the others, so it is totally un-justice & unfair to the Diploma-holders and their future is in dark.

Please look into the matter and do the needful at your earliest otherwise we will be bound to take further bold step.

Sub : Awarding of Division to Diploma Holders Students in M.R. Engineering College, Jaipur,

Respected Sir,

With reference to our previous letter dated 20th March, 1979, we bring into your kind notice the following facts which justify our claim for the award of the division in our B.E. degree in the same manner as the other students. The facts are as follows :

1. In other institute the Diploma Holders who join the B.E. studies are awarded a degree and division in the same manner as the other students. The above case is being followed in many institutions such as M.B.M. Engineering College, Jodhpur, Motilal Nehru Regional Engineering College, Allahabad,
2. At the time of our admission in the College our Diploma course was considered as the datum and was taken equivalent as the passing of second B.E. course. When such a rule was considered as the base of our admission then why distinction is being observed in the award of degree and division to us and to the other students, though we study the same courses.
3. The students who migrate from other colleges and get admission as regular candidate in 2nd year or other years are awarded degree and division in the same manner as the other students, then why

The council adopted the following resolution :—

“The Council *resolves to recommend* :

- (a) that normally M.Phil should be started only in subjects where M.A. teaching is available, but there will always be situations where exceptions will have to be made in subjects like English and several other subjects where independent sub-fields demand exclusive M. account for the purpose of determining division at the end of Honours Part—III examination.

The Council considered a proposal to make necessary provisions for granting exemption to a candidate from re-appearing in such of the subsidiary subjects at a subsequent examination as he has already passed in a preceding examination on the analogy of the pass course examinations.

Resolved that (i) the proposal be accepted, and this facility be also extended to the candidates of B.A. (Hons.) and B.Com. (Hons.) Examinations, and (ii) consequential amendments to this effect be put up for consideration of the Council at its next meeting.

14. The Council considered a proposal received from the Director, Institute of Correspondence studies & Continuing Education, Jaipur as contained in his letter No. D-3/54 dated the 24th December, 1978 to the effect that the students of M.A./M.Com. of the Institute be allowed to offer Viva-voce at the M.A./M.Com. Final Examination in view of the fact that (a) the students of Correspondence Institute should not be treated at par with non-collegiate candidates and (b) the planning of lessons takes a long time and that the Institute could not send lessons of the additional paper prescribed in lieu of Viva-Voce alongwith other lesson-sets.

In this Connection the Council was apprised of the facts that (i) till last year the candidates for M.A./M.Com. final year were required to appear at the Viva-voce examination. This year the Academic Council vide its Resolution No. 12. dated the 22nd June, 1978 resolved that the decision taken by it earlier be implemented so that non-collegiate candidates and candidates belonging to the Institute of Correspondence Studies shall not be permitted to offer Viva-voce and that instead, they shall be required to offer a paper in lieu thereof. N.B. : The item relating to recommending panel of experts for the post of Electron Microscopist was permitted to be withdrawn from the agenda.

17. With reference to its Resolution No. 31 dated the 22nd June, 1978, the Council considered the recommendations dated 8th August 1978 and 19th September, 1978 of the Committee appointed by it (*vide its resolution cited above*) for considering a proposal of Mrs. C.K. Dandiya to start a Diploma Course in Adualt Education. (*Vide Appendix XIII*)

Resolved that the aforesaid proposal for starting a Diploma Course in Adult Education as suggested by the Committee be not accepted.

18. Arising out of the discussions on the foregoing Resolution No. 17 of these minutes, the Council considered the observations of the members made in the meeting itself and appointed a Committee consisting of the following persons to spell out the functions and the activities which the present Degartment of Adult Education of this University should under-take in the existing set up :

- (i) Prof. B.L. Saraf, (Convener)
- (ii) Shri R.P. Bhatnagar,
- (iii) Dr. Rama Kant, and
- (iv) Dr. H.R. Acharya.

19. The Council postponed consideration of the recommendations made by the Faculty of Law at its meeting held on the 9th December, 1978.

20. With reference to its Resolution No. 3 dated the 8th January, 1979, the Council re-considered the demand of students for restoration of the scheme of 15% sessional assessment at the LL.B. Examinations.

The Council considered the matter of re-introduction of the system of internal assessment at the Law examinations from all

syllabus but use some abbreviated form of their own from which other the office is unable to make out as to which paper has been actually taught by the teacher concerned in the past. It is, therefore, felt that it will be difficult for the office to prepare a separate panel of examiners for each papers of post-graduate examinations. The office could prepare a separate panel of examiners for post-graduate examinations in each subject arranging the names of examiners in their alphabetical order or in the order of their length of teaching experience, as may be desired, listing the names of papers taught, experience of teaching the paper concerned and the break in examinership against each examiner as intimated by the person concerned.

(4) The committee has recommended that no person should be appointed as co-examiner for degree examinations unless he possesses atleast 5 years teaching experience of degree classes in the subject concerned and that after serving as examiner for two years the teacher must have a break of two years. In this connection it may be mentioned, that in previous years, examiners possessing less than 5 years teaching experience had to be appointed in certain subjects, e.g., History, H.I.C.C., General Hindi, Hindi Lit., General English, English Literature, Political Science, Accountancy & Statistics, Business Administration, Economic Administration and Financial Management, due to paucity of teachers possessing 5 year's teaching experience and the condition of one years gap after 3 years continuous examinership also had to be relaxed. The increase in the number of teachers corresponds to the increase in the number of regular students only. Since non-collegiate and correspondence course candidate are permitted to take University examinations and their number fairly large, the number of teachers qualified for appointment of examiners falls short of the number of examiners required. Therefore, it is felt that for appointment of examiners for under-graduate examinations, wherever the number of teachers possessing the minimum teaching experience of 5 years falls short of the number of examiners required, the teachers possessing less than 5 years experience but not less than 3 years experience may be allowed to be appointed as co-examiners and the condition of break in examinership may also be made relaxable where necessary.

(5) For practical examinations, the committee has recommended that appointment of teachers with less than 5 years but not less than 3 years teaching experience may be made, if necessary, after exhausting the panel of eligible teachers. In this connection it may be mentioned that practical examinations are conducted by 2 examiners one internal and one external. It is proposed that where no teacher possessing requisite minimum teaching experience is available in an institutions, a teacher possessing less than even 3 years teaching experience may be allowed to be appointed as an internal examiner on the recommendation of the Principal concerned. It is all the more necessary because no remuneration will now be payable for practical examinations of internal candidates.

Shekhawat expressed his view point and placed the facts relating to the aforesaid subject before the Council (*Vide Appendix—XIV*).

In this connection the Council also noted the following resolution communicated by Rajasthani Bhasha Sahitya Sangam (Academy), Bikaner vide their letter No. R.B.S./Bika/79 dated the 21st February, 1979 :

“राज्य सरकारां तीन्ही विश्वविद्यालयां रै मांय राजस्थानी भाषा विभाग की धरपना और प्रचार प्रसार साहू सम्पर्क साध्यो जावै” ।

Resolved to recommend (i) that the matter relating to the opening of a new department of Rajasthani Language be referred to the Perspective and Planning Committee of the University, and (ii) for strengthening the courses of study of Rajasthani Language as a paper of study under the subject of Hindi, the matter be referred to the Board of Studies in Hindi.

22. The Registrar reported the orders dated 21st February, 1979 passed by the Pro-Vice-Chancellor to the effect that the candidates who have already cleared the subjects of General English and General Hindi prescribed for the I Year T.D.C. Examination of this University be exempted from appearing in English (General) and Hindi (Compulsory) subjects, prescribed for the B.Sc. (Nursing) Part—I Examination with effect from the examination of 1979 in view of the fact that courses prescribed for English (General) and Hindi (Compulsory) of B.Sc. Nursing Pt. I Examination and General English and General Hindi of I Year T.D.C. Examination are the same

Resolved to recommend that (i) the orders passed by the Pro-Vice-Chancellor be confirmed and (ii) the following consequential amendements be made to the provisions of O.299-V(7) (vii) of the University Hand Book Part—II;

“A new note No. 1 be added after O.299-V(7) (vii) as follows and the existing notes Nos. 1, 2, 3. be re-numbered as 2. 3. & 4 respectively :

Notes : A candidate who has already cleared the subjects of General English and General Hindi prescribed for the First Year T.D.C. Examination of the

(11) For the additional work involved in preparing panels of examiners and maintaining a record of work assigned to each teacher, it is felt that in addition staff of 4 U.D.C. and 2 L.D.C. (2 U.D.C. and 1 L.D.C. for examination cell I dealing with the work of Faculties of Arts, Fine Arts and Social Sciences and 2 U.D.C. and 1 L.D.C. for Examination Cell II dealing with Faculties of Science, Commerce, Law, Education, Sanskrit Studies, Engineering, Ayurveda and Medicine) would be needed. The L.D.C. should be a person knowing typing very well so that he can cut stencils of panel of examiners.

(12) The Committee has recommended that if the office reports any cases of appointments of examiners recommended by reports the selection committee is contravention of the rules, the Vice-Chancellor will get such reports examined by a Committee appointed by the Syndicate consisting of the representative of teachers and one or more of its members to be nominated by him and pass necessary orders on its recommendations. It is suggested that a standing Committee of local persons may be appointed so as to expedite decision on such reports.

(13) It is also suggested that the committee may be requested to recommend consequential amendments to S. 25 and Ord. 198-B.

ment which exists at present in the courses offered in the Regional College of Education, Ajmer.

Resolved to recommend that the proposal be referred to the Faculty of Education with the observations of the Council that the Council is not in favour of internal assessment at any examination of the University.

25. With reference to the Council's Resolution No. 7 dated 22nd June, 1978 postponing consideration of the matter of reservation of teaching posts for Scheduled Castes and Scheduled Tribes in terms for communications on the subject received from the U.G.C., the Registrar reported that as desired by the Council the U.G.C. was requested to communicate its further recommendations on the subject, if any, and the U.G.C. in reply vide its letter No. F. 1—46/75(CP)PT III dated the 27th November, 1978 has intimated that no further communication on the subject has so far been issued by the Commission.

Resolved to recommend that the contents of the communication be noted.

The Vice-Chancellor,
University of Rajasthan,
Jaipur.

Dear Sir,

We, the following teachers of the University appointed through the Selection process during the period June 1978 to August 1978, would feel very grateful if the Syndicate would kindly reconsider its decision regarding the period of probation.

Since the requirement of Probation has been completely waived in some cases, and modified in some other cases, it is hardly fair that the University should insist on a long probation period of 24 months in our case, vide the existing O.357. We would, therefore, request the Syndicate to make this period to 12 months as unanimously recommended by the Senate vide its Resolution No, 8 passed at its meeting on April 25, 1978.

In this connection we may also point out that the U.G.C. guideline regarding the probation period under the revised pay scale suggest a period of ranging from 9 months to a maximum of 24 months. In the past, this period in the University has always been 12 months as it is still in many Universities after the adoption of the new U.G.C. pay scales.

We hope the Syndicate would take a sympathetic view of our request.

Your's truly,

lists prepared by the departments were generally found inadequate. We observed that some lists were very small, in some cases full information about the persons was not given, in some cases even Reader's names have been suggested. When we consulted the Commonwealth Universities Year Book 1977-78 and Universities Hand Book India 1977, we found that many eminent persons in the subject did not find place in the initial lists. We feel that experts who are drawn for panels should be the most outstanding men on the subject. These lists should reflect really the most outstanding persons and should be exhaustive on the subject."

Resolved to recommend that the aforesaid suggestion be noted and it be circulated to the Heads of the University Teaching Departments for guidance of the Departmental Councils concerned.

32. With reference to the Councils' Resolution No. 15 (VII), dated 8/9th April, 1978 the Registrar reported the orders dated the 5th March, 1979 of the Vice-Chancellor to the effect that (in view of the recommendations made by the specialists to whom a reference was made in this regard) the six Year's Bhishgacharya Examination be not treated as equivalent to Ayurveda Brahaspati examination of this University.

Resolved to recommend that the aforesaid orders of the Vice-Chancellor be confirmed.

33. The Council considered the following demands of the students of the Government College, Sri-Ganganagar duly forwarded by the Collector, Sri-Ganganagar and the Dy. Director, College Education, Jaipur :—

1. छात्रों को सी-एपीयर पांच विषयों में दिया जावे ।
2. सी-एपीयर वाले विद्यार्थी को आगे की कक्षा में प्रवेश की स्वीकृति प्रदान की जावे ।
3. दूसरे राज्य के सी-एपीयर वाले विद्यार्थी को प्रवेश की स्वीकृति दी जावे ।

APPENDIX-VII

(Ref: Res. No. 23 of the minutes of the meeting of the Syndicate dated 26/27th May, 1979).

Minutes of the meeting of the Committee appointed by the Syndicate vide its Res. No. 2(i) dated the 6th January, 1979 to make allocation of posts department-wise keeping in view the point of equitable distribution, as far as possible, for the ex-cadre personal promotion of University teacher, held on Monday, the 23rd April, 1979 at 9.00 a.m. at the residence of the Vice-Chancellor.

Present :

1. Shri Ved Pal Tyagi
2. Prof. Daya Krishna
3. Prof. Iqbal Narain
4. Dr. B.L. Saraf.

(Shri N.M. Kothari could not attend the meeting being out of station).

The Registrar reported that on the basis of the criteria of 5 percent promotions of the sanctioned strength in each cadre, viz. Reader and Lecturer, the following number of persons could be considered for ex-cadre personal promotion for the higher posts.

- (i) 5 Readers as Professors
- (ii) 27 Lecturers as Readers.

After deliberation and on perusal of the statement of teachers prepared by the office, the committee recommended as under :—

- (a) 5 posts of Readers for ex-cadre personal promotion to the posts of Professors be allocated, one each in the departments of Mathematics, Economics, Chemistry, Physics and Zoology and the senior most Readers in these departments be considered for personal promotion to the post of Professors ;
- (b) (i) 5 percent of the sanctioned posts of lecturers be worked out for each department, where in a department the percentage comes. 50 or above, one post be allocated to such departments, and (ii) a list on this basis be prepared and put up before the Committee for consideration so as to adjudge the equitable distribution of the posts in the departments keeping in view the seniority of teachers.

by the University subject to the fulfilment of the other requirements of the affiliation in the light of the inspection reports in this regard,

35. With reference to the provisions of O.329-E, the Council considered a request of the Director Institute of Correspondence Studies & Continuing Education as contained in his letter No. D-5/3703 dated the 9th March, 1979 to the effect that the period of contact camp for certificate course in Library Science be reduced from 30 days (as prescribed) to 20 days because the courses could be covered within 20 days.

Resolved to recommend that the aforesaid request of the Director, Institute of Correspondence Studies and Continuing Education, be accepted and consequential amendments be made to O. 329-E as follows :

O. 329-E

The words "30 days" be substituted by the words "20 days duration" appearing at the end of 'N.B.' to the aforesaid Ordinance.

36. The Council considered a representation dated the 6th March, 1979 of some temporary teachers of Law requesting to amend the provisions of O. 65 and O. 141-B prescribing the minimum qualifications for appointment of teachers in the Faculty of Law with regard to the interpretation of the term 'Good academic record' (*Vide Appendix XVI*).

Having considered the matter at length the Council felt that the existing provisions should by and large continue with the only modification that where a candidate has passed a post-graduate examination prior to his LL.M. Degree, the marks secured by him at the post-graduate examination or at the undergraduate examination, whichever is on the higher side, be taken into account for calculating the average percentage of marks.

The Council, accordingly, *resolved to recommend* that the following amendments to the provisions of O. 65 (relating to the appointment of lecturers in the Faculty of Law) and O. 141—B

After perusing the statement the Committee decided to allocate the posts as under :-

For promotion of Lecturers to Readers:

1. English	1
2. Hindi	2
3. History	1
4. Political Science	1
5. Economics	1
6. Sociology	1

12. Zoology	2
13. Geology	1
14. Accountancy & Bus. Stat.	1
15. Business Administration	1
16. Economic Admn., & Financial Management.	1

After allocating 22 posts out of the total number of 27 posts worked out on the basis of 5% of the total strength of lecturers as on 1.7.78 to the above 16 departments, it was noticed that 5 posts were left to be allocated to 7 departments where according to the calculations the number works out at less than 0.50 but senior persons were eligible in those departments

1. Philosophy
2. Sanskrit
3. Public Administration
4. Geography
5. Statistics
6. Home Science
7. Music.

The Committee decided that though the percentage works out at less than 0.50 and still after allocating the 0.50 remaining 5 posts, two departments will be left out, two more posts be created thereby allocating one post each to the above 7 departments.

For promotion of Readers to Professors :

Keeping in view the list of seniority of Readers in the University, the 5 posts be allocated to the following 5 departments as decided at its last meeting :

systems should support each other mutually. This can be done only by a concern for other systems and understanding of their functioning.

5. The National Medical Education Policy should seek to achieve the following :—

- (1) quantitative and qualitative development of adequate trained health personnel of all categories;
- (2) development of programmes of training for different categories of health personnel;
- (3) development of agencies for implementation of the educational programmes;

Health Manpower Development :

6. There has to be a balanced development of graduates and specialists of medicine (of all systems) as also of other health personnel like dentists, nurses, technicians, health workers, health supervisors, etc. There is at present a great tendency among medical graduates to go in for post-graduation in particular branches of medicine. An assessment of the requirements of specialists will first need to be made whereafter the organisation of post-graduate education will have to be geared towards achieving this objective. There is also a need to restructure the educational pattern. It is recognised by everybody that the present system of education, particularly in the modern medicine, is not relevant to the conditions prevailing in the country. While on the one hand there is an essential need to keep pace with the developments elsewhere in the world, there is an equal, if not more, important need to make the medical education process serves the needs of the country and its population. Secondly, all systems of medicine must draw strength and inspiration from each other. The ideological differences among different systems of medicine need to be bridged. This can be done only by leaders in the profession, sitting together and evolving methods to learn from each other. To help in such innovative processes and to provide for organised development of all medical educational processes, it would be necessary to set up a Medical and Health Education Commission embracing all systems of medicine and all types of medical and para-medical personnel. It should be noted here that the quantitative norms such as doctor-patient ratio, doctor-population ratio, nurse-doctor ratio, etc. are not the real indicators of the health status of a country. The Medical and Health Education Commission can, over a period of

Resolved to recommend that (i) the nomenclature of the research degrees in the Faculty of Sanskrit Studies be the same as already decided, and (ii) the draft amendments to relevant Ordinances recommended by the Committee for the award of the Vidyavaridhi and Vachaspati degrees be approved.

4. The Board considered the following suggestions of Shri Moti Lal Joshi, Principal, Sanskrit College, Manoharpur (Member-Syndicate) as contained in his letter No. 3976 dated 13th June, 1978 on the ground that there was a dearth of qualified research supervisors in the Faculty of Sanskrit Studies :—

- (i) The condition of minimum teaching experience of five years of P.G. classes for recognition of research guides as required under O. 125(b) (i) may be relaxed and
- (ii) Teachers working in other statutory Universities and their affiliated colleges and in institutions recognised for examinations conducted by State or Central Governments may be considered eligible for recognition as guides.

In this connection it was reported that a reference in the matter was made to the Dean, Faculty of Sanskrit Studies who was of the opinion that it would not be advisable to grant relaxation in the qualifications for recognition of research guides, that a research supervisor should possess atleast 10 years teaching experience of P.G. classes and he should be a well known scholar possessing adequate knowledge in the field of his study and that eminent Professor of other statutory Universities could be recognised as research supervisors.

निश्चय किया कि सिण्डीकेट की संस्तुति के आधार पर परिनियम संख्या 96-जी, 96 एच, 96-आई एवं 96-जे के सम्बन्ध में अब आवश्यक कार्यवाही प्रारम्भ कर दी जावे।

(10) सीनेट ने विश्वविद्यालय अधिनियम की धारा 20(सी) तथा परिनियम 22(3) के आधार पर वित्तीय वर्ष 1979-80 के दिनांक 1-4-79 से 31-7-79 तक के लिये विश्वविद्यालय वित्त समिति की संस्तुति संख्या 2, दिनांक 23-3-79 पर सिण्डीकेट के निश्चय संख्या 6, दिनांक 23-3-79 द्वारा स्वीकृत मात्र एक करोड़ 42 लाख 17 हजार रुपये की "ग्रोन अकाउन्ट व्यय" के सम्बन्ध में विचार विमर्श किया।

निश्चय किया कि सिण्डीकेट द्वारा एक करोड़ बयालीस लाख 17 हजार रुपयों के स्वीकृत 'ग्रोन अकाउन्ट व्यय' का इस अभिवृत्ति के साथ कि वित्तीय वर्ष सन् 1979-80 के अनुमानित आय व्यय के आंकड़े एकत्रित करने में विलम्ब होने के जो कारण Annexure-I के सम्बन्ध में दर्शाये गये हैं उन्हें सीनेट के कार्यवाही विवरण में नहीं लिया जावे, अभिग्रहण किया जावे।

21. The Board considered an application of Dr. Ram Acharya, University Lecturer in Political Science for his recognition as a Research Guide in Political Science.

In this connection the Board was informed that (1) Dr. Ram Acharya had originally applied for recognition as a Research Guide in Public Administration as he had taught the papers of Public Administration to M.A. Political Science students and the topic for his Ph.D. degree was 'Civil Aviation Administration in India with special reference to tourism' which was also a study in the field of Public Administration, but he was M.A. in Political Science and he had subsequently requested for his recognition as a guide in Political Science, (2) He fulfilled the condition of 5 years teaching experience of Post-Graduate classes with a Doctorate degree as required under O.125(b) (i).

Resolved to recommend that Dr. Ram Acharya be recognised as a research guide in Political Science.

22. The Board considered a letter, dated the 7th September, 1978 received from Dr. B.L. Sharma, Lecturer, University Department of Music, Jaipur for allowing (Miss) Vandana Saxena to do Ph.D. research on the topic 'असामान्य व्यवहार में संगीत चिकित्सा की सम्भावनाएँ' under him as the main guide and Shri J.S. Verma, Clinical Psychologist, Mental Hospital, Jaipur, as her co-guide.

Resolved to recommend that the candidate be asked to choose some other co-guide as Dr. Verma does not possess the requisite qualifications prescribed for a research guide.

22. On a suggestion made by one of the members of the Board, it was *resolved to recommend* that the time limit for submission of reports of Ph.D. thesis be reduced from 3 months to 2 months and consequently the words "two months" be substituted for the words "three months" occurring in the clause (a) of Ordinance 138.

The meeting ended at 1.45 P.M. with a vote of thanks to the Chair.

CONFIDENTIAL

RAJ BHAWAN
JAIPUR

No. F 1 (240) Gnl./GSR/77.

December 31, 1978.

My dear Vice-Chancellor,

The Commission of Enquiry appointed on 23rd July, 1977 under Justice Jagat Narain to enquire into various affairs connected with the University of Rajasthan has submitted its Report. After going through the Report I have accepted the findings of the Commission. You are now requested to take further necessary action on the findings of the Commission in accordance with Section 10(4) and (5) of the University of Rajasthan Act, 1946.

I have given careful consideration to the findings of the Commission and would like to advise you as indicated henceforth, under Section 10(4) of the Act.

(A) Act against Dr. G.C. Pande, former Vice-Chancellor, University of Rajasthan :

The Report of the Commission mainly revolves around the activities of Dr. Pande who was Vice-Chancellor of the University from 18th October, 1974 to July, 1977. The Commission has found Dr. Pande guilty of different types of irregularities for which the University should take disciplinary action against him in accordance with its rules. I also indicate below the actions of Dr. Pande, which have attracted adverse comments from the Commission :—

(A) 1. Misuse of powers during the period of emergency :

The Commission has found that Dr. Pande was instrumental in getting the unions of Teachers, Students and Non-teaching employees in the University dissolved. The Commission has also observed that the Order regarding seeking prior permission for leaving headquarters by Dr. Pande for all the teachers was meant to humiliate them in general, since, it best, such an order could have been necessary only for teachers who were holding some administrative position. Similarly, the setting up of Research and Reference Cell has been adversely commented upon by the Commission.

(A) 2. The Commission has found Dr. Pande responsible for committing irregularities in the following matters of appointment and promotion :—

The project work should flow out to internship and practical work.

5. Scheme of examination : 2/3 of the marks allotted will be for practical work and 1/3 of the marks for theory.

6. For drawing out the details of the syllabus the next meeting of the Committee should be held towards the second week of September, Meanwhile Mrs. C.K. Dandiya is requested to work out the detailed syllabus and the same be circulated among the members of the Committee.

The Committee approved the syllabus as drafted by (Mrs.) Dandiya (with reference to the resolution 6 of the previous meeting) which is given at Annexure—A.

and unworthy of a Vice-Chancellor. But I am glad to know that in most of those cases corrective action has already been taken by the University. The cases which have been commented upon adversely by the Commission are mentioned below :—

- (a) Harassment of Dr. (Miss) K. Zutshi.
- (b) Harassment of Dr. D. Kaushik.
- (c) Harassment of Prof. T.K.N. Unnithan.
- (d) Harassment of Prof. P.N. Srivastava.
- (e) Harassment of Mrs. C.K. Dandiya.
- (f) Harassment of Mrs. G.J. Unnithan.

A—4. Tampering of Records :

The Commission has found two instances in which attempts were made by Dr. Pande to tamper with the records of the University. This is a very serious charge especially because there was a motivation to benefit certain individuals. The cases noticed by the Commission relate to Ordinance 359 regarding rules of recruitment of employees and Ordinance 357-A regarding period of probation for members of staff.

A—5. The Commission has found that Dr. Pande misused his powers under Ordinance 87-A by ordering irregular admission to the following students :—

- (a) Miss Sunita Satyarthi
- (b) Miss Shobha Bhatia
- (c) Miss Nasrin Khan
- (d) Miss Kaur

A—6. The Commission has noticed the following cases of financial irregularities during the period for which Dr. Pande should be held responsible :—

- (1) Sale of vehicle No. RSL 3947, which was in running condition.
- (2) Creation of posts without following the prescribed procedure which finally resulted in the deductions of a sum of Rs. 5 lakhs from the block-grant of the University.

A—7. Violation of Academic Norms by Dr. Pande :

The Commission has found Dr. Pande guilty of gross violation of academic norms when he modified the syllabus relating to Master of Philosophy Course in Political Science entitled 'Indian Political Tradition from Manu to Jaiprakash Narain'. The effect of this modification was that the name of the paper was changed

माननीय, कुलपतिजी, उपकुलपतिजी एवं विद्वतगण ।

सर्व प्रथम मैं माननीय कुलपतिजी, तथा उपकुलपतिजी आप सबके प्रति कृतज्ञ हूँ कि आपने मुझे यहां उपस्थित होने का गौरव अवसर प्रदान किया । 'सम्पूर्ण' राजस्थानी समाज की ओर से आपको धन्यवाद देता हूँ ।

आज इस विद्वत समाज के समक्ष उपस्थित होकर आपका ध्यान एक अत्यन्त महत्वपूर्ण विषय की ओर आकर्षित करना चाहता हूँ । आप में से अधिकांश इस तथ्य से भली प्रकार परिचित होंगे कि राजस्थानी एक प्राचीन, समृद्ध तथा स्वतन्त्र भाषा है । आज से लगभग 12 सौ वर्षों पूर्व अर्थात् विक्रमी संवत् 835 में एक प्राचीन जैन काव्य कुवलयमाला में तत्कालीन लोक भाषा के रूप में राजस्थानी की मारवाडी बोली का उल्लेख मिलता है । जो इस बात का प्रमाण है कि यह भाषा कम से कम 1200 वर्ष प्राचीन तो है ही । तब से लेकर आज तक इस भाषा में एक ओर निरंतर लेखन होता रहा है तो दूसरी ओर यह लोक व्यवहार की भाषा बनी हुई है । संभवतः विश्व की बहुत कम भाषाओं को यह गौरव प्राप्त हुआ होगा ।

भाषा वैज्ञानिक दृष्टि से देखा जाय तो किसी भी भाषा के लिये निम्न-लिखित तत्व महत्वपूर्ण हुआ करते हैं । 1. शब्द कोश 2. व्याकरण 3. लिपि 4. साहित्य । इन तत्वों की दृष्टि से राजस्थानी भाषा पर विचार किया जाय तो यह ज्ञात होगा कि राजस्थानी का अपना भरा पूरा शब्द भण्डार है । इस भाषा के लगभग पांच लाख शब्द माने जाते हैं । जिनमें लगभग दो लाख शब्द

Syndicate dated the 8 th June, 1979)

A note on the report of shri Jagat Narain Commission

In the Enquiry under the University Act, it was obligatory on the University to have appointed a competent Representative to assist the commission. Commission does not mention the appointment of the Representative nor does it name him. In fact, neither the Vice-Chancellor nor any member of the Syndicate, nor any Dean, nor the Registrar or the Finance Officer or the Legal Adviser of the University were appointed as University Representative.

In the absence of such an assistance the Commission could not possibly work with sufficient knowledge of the extensive and complex body of University rules, conventions, facts and history. It was largely at the mercy of the clerks and junior officers and the stories fed to it by the complainants. The Report is thus plainly one-sided.

Nor did the Commission frame any issues or communicate them to me despite my request.

The Commission shows no appreciation of the indirect connection of the Vice-Chancellor with routine administration. It is not realized that the Vice-Chancellor's personal knowledge, supervision, or initiative constitute a very small part of the large and complex body of business with which he is formally associated. It is the senior officers of the University who are the custodians of records, facts and procedures and every Vice-Chancellor must be willy-nilly guided by them. Nor does the Commission realize that in all important matters the Vice-Chancellor acts in consultation with statutory and other bodies and their members. It is strange that the Commission finds fault with the Vice-Chancellor, never mentioning the University bodies or officers. The Commission assumes in all cases except one that the Vice-Chancellor could do whatever he liked, and that whatever was done must have represented the wishes of the Vice-Chancellor.

It is also not realized that the Vice-Chancellor is not like a judge who can, without regard to time or consequences, afford to judge matters and polish the record. Nor is he a permanent officer inspiring permanent loyalties in the office. The Vice-Chancellor is required to act in white heat in the midst of a situation where politics, agitation and vested interests jostle with academic needs and practical requirements. His actions and their

माना जाएगा कि राजस्थानी हिन्दी की बोली है। राजस्थानी की तोत्त्वयं की अनेक बोलियां उपबोलियां हैं। जो राजस्थान, मालवा, गुजरात के कुछ भाग तक बोली जाती है। यह सत्य है कि राजस्थान का निर्माण भाषायी आधार पर नहीं हुआ। किन्तु यह भी सत्य है कि भाषायी ऐक्य यहां सदियों से रहा है। राजस्थानी के साहित्यिक इतिहास को देखा जाय तो ज्ञात होगा कि प्राचीन समय से लिखी जाने वाली साहित्यिक राजस्थानी में सदा एकरूपता रही है। सूर्यमल मिश्रण ने बूंदी में बैठकर जो राजस्थानी काव्य लिखा उसमें और जोधपुर के बांकीदास, मानसिंह अथवा बीकानेर के पृथ्वीराज राठी आदि के काव्य तथा जोधपुर के प्रसिद्ध इतिहासकार मुहम्मद नैणसी की कृतियों अथवा विगत जैसे प्रसिद्ध ग्रन्थों में और दयालदास, बांकीदास आदि के गद्य में कोई अन्तर नहीं है।

यह सामान्य बात है कि जन भाषा एवं साहित्यिक भाषा में अन्तर होता है। बोलचाल की भाषा में समय एवं स्थान के आधार पर परिवर्तन होता रहता है। किन्तु भाषा के साहित्यिक रूप में एकरूपता बनी रहती है राजस्थान की चार करोड़ जनता (जिसमें प्रवासी राजस्थानी सम्मिलित हैं) प्रतिदिन के लोक व्यवहार में अपनी मातृभाषा राजस्थानी का प्रयोग करती है। राजस्थानी की प्रमुख निम्नलिखित बोलियां हैं जो बहुत विस्तृत भू भाग में बोली जाती हैं। मारवाड़ी, मेवाड़ी, हाड़ोती, मेवाती, डूंगाड़ी, शेखावाटी, मालवी, तथा भीली अथवा राजस्थान के पहाड़ी भू भाग की बोली।

प्राचीन समय से ही राजस्थानी शिला-दीक्षा, राजकाज एवं न्यायालय की भाषा रही है। प्राचीन हस्तलिखित ग्रन्थ, शिलालेख ताम्रपत्र, पट्टे परवाने, रुक्के आदि इसके ज्वलंत प्रमाण हैं।

राजस्थानी की संवैधानिक मान्यता के प्रश्न पर विचार करें तो ज्ञात होगा कि हमारा संविधान देश के प्रत्येक नागरिक को अपनी भाषा के अध्ययन, अध्यापन एवं विकास का अवसर प्रदान करता है। भाषाओं के प्रश्न पर संविधान में केवल यह लिखा है कि निम्नलिखित भाषाएं भारतीय संघ की भाषाएं होंगी। भारतीय संविधान में जिन भाषाओं का उल्लेख हो चुका है वह अन्तिम नहीं है। समय-समय पर इस सूची में भाषाएं जुड़ती रहती हैं। उस समय राजस्थानी कई कारणों से इस सूची में नहीं जुड़ सकी। किन्तु इसका अभिप्राय: यह नहीं है कि इस कारण से उसके विकास में बाधाएं खड़ी की जाएं।

which vociferously supported the Emergency and particularly denounced those who belonged to the "banned organizations". The Vice-Chancellor, on the other hand, was suspected of having connections with some of these organizations and was often denounced for this. A threat certainly existed but it was to the Vice-Chancellor from teachers like these and not vice-versa.

1.6. Here, again, the Commission shows a total ignorance of the historical and political background of the events which it purports to investigate.

1.7. The Commission again shows bias in as much as it concedes prima facie credibility to the complainants but not to the Vice-Chancellor.

pp.3-4 of the Commission's Report-re-Code of Conduct :

2.1. The Commission betrays its ignorance of the fact that the idea of a Code of Conduct for teachers did not originate with Dr. G. C. Pande but with the U.G.C. :

2.2. The Commission says that Dr. G.S. Sharma chaired the Committee but omits to mention that the President RUTA was a member of the Committee. This tends to create a false impression.

2.3. The Commission is not aware of the fact that Code of Conduct was really devised to protect the teachers from the imposition of a Code by the Government.

2.4. The Code is for any one to see. It passes one's imagination how a Code which emphasizes devotion to duty and academic values can be construed as an instrument of terror.

2.5. The Commission makes an astounding surmise : "any teacher who did not toe the line of the Vice-Chancellor could have been found guilty of one breach or another easily". On this reasoning there ought not to be any code of duty or law.

2.6 The responsibility for the Code did not lie with Dr. Pande but with the Syndicate.

pp. 4-5—Re—Provision for compulsory retirement :

3.1. The measure was proposed and adopted by the Syndicate, not by Dr. G.C. Pande.

3.2. The procedure and rationale of the measure is detailed in *Facts Defy Fiction*, pp. 3-4.

शब्द भण्डार की सापेक्ष स्वतन्त्रता और व्याकरणगत विशेषताओं के कारण पंजाबी और राजस्थानी हिन्दी से स्वतन्त्र भाषायें मानी जाएगी..... राजस्थानी की लिपि वही है जो हिन्दी की है। पंजाबी के लिए गुरुमुखी लिपि का प्रयोग मिलता है। बहुत से लोग राजस्थानी और पंजाबी को हिन्दी की बोलियां मानते हैं जो ठीक नहीं है।

आज भी देश एवं विदेश के अनेक विश्वविद्यालयों में राजस्थानी भाषा एवं साहित्य पर अनुसन्धान कार्य हो रहा है। अमेरिका एवं रूस जैसे प्रमुख देशों में भी यह कार्य हो रहे हैं।

आपके विश्वविद्यालय में राजस्थानी विभाग की स्थापना से विविध ज्ञान के द्वार खुलेंगे, अनुसंधान कार्य अधिक होगा, हजारों अप्रकाशित ग्रंथों को प्रकाशन का अवसर मिलेगा।

भारतीय संविधान में भाषाओं का मसला राजनैतिक है। मैं तो यहाँ विद्वत् समाज से, हमारी केन्द्रीय साहित्य अकादमी द्वारा मान्यता प्राप्त एक साहित्यिक भाषा को आपके विश्वविद्यालय में अध्ययन, अध्यापन एवं अनुसंधान कार्यों हेतु स्वीकृति प्रदान करने का विनम्र निवेदन करने उपस्थित हुआ हूँ। प्रांत के लगभग 70 विद्यालयों में जो भाषा अध्ययन-अध्यापन की भाषा है उसे राजस्थान विश्वविद्यालय जैसे महत्वपूर्ण तथा विशाल विश्वविद्यालय की भाषा बनाना आज विद्यार्थियों के हित की दृष्टि से भी न्यायसंगत है। मेरी तो यह मान्यता है कि जब तक राजस्थानी भाषा एवं साहित्य का पूर्ण ज्ञान नहीं होगा तब तक राजस्थान के इतिहास, सामाजिक विज्ञान एवं भूगोल जैसे विषयों के साथ भी न्याय नहीं होगा क्योंकि राजस्थानी भाषा के अनेक ग्रन्थों में इस सम्बन्धी जो प्रामाणिक सामग्री है उसका प्रकाशन नहीं हुआ है।

to gather information such as might be needed for Committee work. It met only once and did not function.

5.5 The alleged private meetings of Sri Pant and Agney could not have anything to do with the Research and Reference Cell.

p.7—

6.1 The reference to the dispute of Sri Pant and Dr. Bakaya is beyond the terms of the Enquiry. Facts too are misrepresented in the account. In fact, Dr. Bakaya's position had been strongly assailed in the College Council. Again, it was an accepted Principle of the Faculty-wise system that the teachers were responsible to their Heads and the Heads to the Dean.

pp. 7-10—re—Appointment of Sri Agney :

7.1 It is a totally false surmise that Sri M.P. Jain was transferred, "*in order* to appoint Sri Agney as Administrative Secretary ultimately". Sri Jain was transferred for administrative reasons. Sri Agney had done good work in Public relation for the University during December 1974—February 1975 and it was proposed to continue him as a P.R.O. Since Sri Jain was transferred at this time, Sri Agney was appointed P.R.O.-cum-P.S. as a purely temporary measure.

7.2. The qualifications of the Administrative Secretary were defined as part of a general revision of qualifications for non-teaching posts. The revision was not for one person specifically and its suitability for the needs of the University was accepted by a Committee of the Syndicate and the Syndicate itself. I still believe that a person with experience of journalism and public relations will be a much better Secretary to the Vice-Chancellor who has to deal with persons than one who merely deals with files. Such qualifications had been revised in past too, e.g., when Sri L.P. Vaish was appointed Registrar or when Sri M.P. Jain was made eligible for the A.R.'s post by experience as P.S. being treated as administrative experience.

7.3 It was the duty of the Registrar to screen applications and issue interview letters and I am sure he must have satisfied himself about Sri Agney's qualifications. The Commission is strangely silent on the fact that Sri Agney is a first class Law graduate and it cavalierly dismisses his claims of journalistic and research experience.

7.4. The Selection Committee for the Administrative Secretary was constituted in accordance with the University Act. Sri R.K. Misra and Dr. G.N. Sharma were nominated by the Govern-

Minutes of the meeting of the Committee appointed by the Academic Council vide its Resolution No. 35, dated 8/9th April, 1978 for reviewing the minimum qualifications for University Teachers and Teachers of affiliated Colleges in the various faculties, which met on 9th March' 1979 in the University office.

The following were present :—

1. Prof G.C. Patni (Convener)
2. Dr. H C. Bhartiya

Prof. Om Prakash, Dr. S.N. Dhyani, Principal A.B. Mathur and Shri N.M. Kothari could not attend the above meeting.

The Committee reviewed the minimum qualifications for appointment of teachers in the faculty of Education in the University as laid down in O.141-B of the University Hand Book Part II. The Committee also reviewed the minimum qualifications for teachers in the faculty of Education in the Colleges affiliated to the University of Rajasthan as laid down in O.65 of the University Hand Book Part-II.

The Committee recommends that (i) O.141-B laying down minimum qualifications for appointment of teachers in the University in the Faculty of Education be revised as given in Annexure 'A' and (ii) O.65 laying down minimum qualifications for teachers in the affiliated Colleges in the faculty of Education be revised as given in Annexure 'B'.

The Committee could not finalise the minimum qualifications in the remaining faculties/subjects viz. Fine Arts. Drawing & Painting. Music, Dramatics, Foreign Languages, College Programme in Continuing Education (O.141-D) and for posts in Special Assistance Programme in Philosophy, Political Science and University Service & Instrumentation Centre. (O.141-F) which are to be revised in view of the UGC guidelines received in this respect and decided to consider the matter later on.

for abroad, the conversation could not have taken place. The reprinting of the minutes was thus not surreptitious and its full responsibility must lie on those who had the statutory and actual custody of the minutes, viz. the Registrar and his colleagues. The Vice-Chancellor, in fact, ordered an enquiry into the matter when it was brought to his notice.

8.2. Why was the reprinting ordered ? Was it to falsify the minutes ? I am inclined to an emphatic 'NO'. I would like to place full trust in the integrity and competence of the officers and believe that the draft ordinance which the Syndicate passed with modifications on 25-12-75 did not contain the clause about a maximum age of recruitment. The so-called App.—I was not actually circulated at the time. That was not done even normally and this was an emergency meeting. Mr. D.N. Handa read out some amendments on the basis of a draft which he had with him as a member of the Misra Committee. Later on when it was discovered that the minutes had been wrongly printed, the office sought to correct the mistake by issuing the Notification mentioned above and ordering their partial reprinting. Since it was not a change of the minutes but merely their restoration from an accidental misprinting, the Syndicate was apparently not informed of this incident.

8.3. How did the mistake come about ? On 21-11-75 the Syndicate generally approved a draft ordinance and authorized the Vice-Chancellor to finalize it after the Misra Committee had looked into it. The Vice-Chancellor convened the Misra Committee to make suggestions about the draft. One of the suggestions which was made by Sri B. Mehta and Sri D.N. Handa was the introduction of a maximum age limit for recruitment of office staff, which was noted in the office draft of the minutes. When the draft was put up before the Vice-Chancellor, he did not agree with the item and instructed the office to exclude this modification of the age clause from the final draft ordinance but nevertheless place it again before the Committee for reconsideration as a matter of form. The reason was that such a clause had never existed in University rules before and would have prevented the recruitment of experienced outsiders like Principals, etc., for senior administrative positions in the University. Men like Principals K. L. Verma and L.P. Vaish could not have been recruited with such a clause in existence.

The opinion was conveyed to Sri D.N. Handa personally by the Vice-Chancellor and to Sri B. S. Mehta through Sri Ranjeet Singh. Both of them agreed (Vide Sri Ranjeet Singh's note dated 11-6-77). It is in this context that the marginal note quoted by the Commission on pp. 13 and 15 was written. The Syndicate had in its meeting on 21-11-75 left the finalization of the draft ordinance

ting the minutes was hardly necessary. According to Sri Jagat Narain's own statement on p. 55 the members of the Syndicate "supported all the proposals made by Dr. G.C. Pande". So where lay the need for a conspiracy? How again, could such a change be effected without the knowledge of the Registrar, D.R. (Academic) and D.R. (A&F) who had the custody of the minutes and had to consult the ordinance frequently e.g. to place it before the Senate, to issue advertisements, and to screen applications. Had the Commission not been carried away by its prosecuting zeal against the Vice-Chancellor, it would not have turned a blind eye towards the Registrar, and the D.R. (Academic), without whose knowledge and consent the notification No. 34 could not have been issued nor the reprinting done, nor the corrected ordinance placed before the Senate, nor the advertisement issued or the screening done. The commission has dreamed up a vast conspiracy without realizing the practical difficulties of executing it. It is pertinent to quote here a remark of the Administrative Reforms Committee: "The Committee was firmly of the opinion that the Vice-Chancellor should not be involved as directly responsible for any working of the office". The Jagat Narain Commission attributes responsibility to the Vice-Chancellor on the basis of a hypothetical reasoning which flies in the face of cogency, and some circumstantial evidence which is ambiguous and is contradicted by the evidence of important witnesses.

p. 16.

9. 1. Actually the Syndicate resolved the acceptance of UGC pay scales and left the consequential amendments to the office. After I had approved the first draft of the D.R. (Academic), it was brought to my notice that the UGC pay scales did not apply to the office for which a different system was contemplated by the Government. Hence the earlier version of the consequential amendment was found defective necessitating change. In the matter of these detailed rules the Vice-Chancellor and the Syndicate are guided by the office. The new draft also was proposed by the office and formally put up by the Registrar. This instance only proves my contention that the 'correction' of minutes is never possible unless the Registrar is convinced.

pp. 17-18

10. 1. Some instances of unadjusted advances to Sri Agney are denounced by the Commission as 'financial irregularities'. The University should certainly seek to get these adjusted just as it should get all similar advanced adjusted. In any case, the Vice-Chancellor has nothing whatever to do with the matter.

12.2. The Commission mentions the reduction of Mrs. Unnithan's grade as if it were an act of victimisation, when it could only have been the routine application of the rules of pay fixation. *The Vice-Chancellor had nothing whatever to do with the case.* This is a glaring instance of *suggestio falsi*.

13.1. Ordinance 87-A is such that only the Vice-Chancellor has to be satisfied about the genuineness of the case. If a rule could be made to define this genuineness, the ordinance will not be necessary.

13.2. The so-called conversation with Miss. Zutshi never took place. I do not recall recommending Miss. Bhatia in any manner. In fact I have never known anything about her except through the Commission's report.

15.2. The panels of experts approved for Readers and Professors of Psychology contained the same names and hence although numerically distinct, the panels were identical.

15.3. No details are given about the expenditure of time five lacs on posts mentioned on p. 41. I believe the Government later on sanctioned a much larger number of office posts.

23. The Commission converts itself into a one-man Selection Committee in Physics. Personally, I can hardly aspire to that status.

pp. 90-94

24. My replies to the Commission on these affidavits may please be perused.

pp. 112-16

25.1. My previous comments to the Commission may please be perused. Sri Jagat Narain argues like a counsel for Sri M.P. Jain even to the extent of simulating indignation. He claims to know more about the ability of Sri Jain than myself and assumes that nothing except malafide intentions could lie behind his transfer.' If a Selection Committee rejects Sri Jain, it is the Committee that must be blamed. Nor would Sri Jagat Narain give the Vice-Chancellor the right to judge and choose his P.S. He refers to the opinions of previous Vice-Chancellors forgetting that circumstances as well as men change.

25.2. In fact, no attempt was ever made to penalise Sri Jain or to put him to loss. He was transferred on the higher grade which he temporarily enjoyed and in fact given the status of an officer. That he was required to face a Selection Committee followed from the fact that he had never been appointed to the higher grade permanently. The Selection Committee included not only Prof. G.S. Sharma but also Sri L.P. Vaish and Sri D.N. Handa.

25.3. The assumption that Sri Jain was transferred to make room for Sri Agney is totally baseless.

(Ref. Res. No. 1 of the minutes of the meeting of the Syndicate dated the 8th June, 1979)

General Observations made by the Members of the Syndicate.

Some members of the Syndicate who were connected with the affairs of the University in the past were quite critical about the various matters which were dealt with during the period of the emergency in an arbitrary manner, violating rules in such a way that it could be construed as prejudicial to or as undue favouritism to particular members of the teaching and non-teaching staff of the University.

It was observed that the Justice Jagat Narain Commission report deals with only such cases about which written complaints were lodged or affidavits given and that besides these, there were several other matters also in which the then administration acted in an arbitrary manner. Strong resentment was expressed and some members felt that exemplary action needs to be taken in this regard.

However, the Vice-Chancellor impressed upon the members of the Syndicate about the need of dealing with such a delicate matter dispassionately. He suggested that the Syndicate should limit its discussion only to such cases as have been dealt with in the Justice Jagat Narain Commission report and while discussing this matter, the members should not allow personal bias to enter into the debate or allow any feeling of vengeance to enter their mind.

The members felt that some immediate action should be taken at least in respect of those cases about which the Hon'ble Chancellor had observed that the aggrieved persons should be given relief. The extent of relief to be granted in such cases could be decided by the Committee to be appointed by the Vice-Chancellor.

The members also observed that the remaining cases may be examined in detail by the Committee and it may be found what the University can do to redress the grievances of the persons concerned.

Also, in all cases where undue favouritism has been shown to persons during the Vice-Chancellorship of Prof. G. C. Pande, the Committee may see that the person whose interest has suffered received a fair treatment to the extent it was not possible.

Resolved that the aforesaid proposal be accepted and a new clause number 9 "Cultural Secretary-Rajasthan University Non-Teaching Staff Association (Ex-Officio)" be added to the composition of the Board approved by the Syndicate vide its earlier Res. No. 4, dated 25th December, 1975.

(5) The Syndicate considered a proposal for amendment to be made to O.341 so as to give representation to the students Union on the Sports Board of the University in the light of the discussions held by the Vice-Chancellor with the Presidents of the Students Associations on the 20th December, 1978.

Resolved that the aforesaid proposal be not accepted.

(Ref. Res. No. 4 of the minutes of the meeting of the Syndicate dated the 8th June, 1979)

Minutes of the meeting of the Committee appointed by the Syndicate vide its Res. No. 11 dated the 20th /21st December, 1977 read with its res. no. 5 dated 18th March, 1978 to frame detailed criteria for fixation of seniority (departmental as well as inter-se) in future of the University teachers, held on 5th June 1979 at 9.00 a.m. in the University office —

The following were present :

1. Prof. Iqbal Narain *Chairman*
2. Prof. Daya Krishna, P. V. C.
3. Shri N.M. Kothari, Director, College Education, Jaipur
4. Dr. K. C. Khanna, Simla
5. Principal N. M. Golecha
6. Dr. S. D. Mishra
7. Dr. K. C. Sharma (Special Invitee)

The Committee considered the issues referred to it by the Syndicate vide its Res. No. 52 dated 29 30th April, 1979 and Res. No. 31 dated 27th May, 1979.

After discussing the matter in detail, the Committee thought it proper to review the whole matter and revised its earlier recommendations so as to incorporate the points raised by the office with regard to determination of seniority of teachers and referred to it by the Syndicate. Development Council should be accompanied with a note specifically highlighting the proposals in respect of which approval of the Syndicate is required particularly those items which involve financial liability on the part of the University.

(21) During the course of the discussions in the meeting of the Syndicate it was felt that while many departments of the University are doing really good and commendable work, members of the Syndicate are unaware about the same and, therefore, the achievements of the departments concerned need highlighting. As a preliminary step, the Syndicate *resolved to* appoint the following committee to visit various departments in the purview of the faculties concerned and to report to the Syndicate :

(A) *For the Faculty of Science*

- (i) Dr. T.C. Gangwal, *Convener*,
- (ii) Principal N.M. Golecha
- (iii) Dr. H.C. Bhartiya

(B) *For the Faculties of Commerce and Law*

- (i) Shri Manzoor Ali, *Convener*
- (ii) Shri N.M. Kothari

(C) *For the Faculties of Arts, Fine Arts and Social Sciences*

- (i) Shri L.L. Joshi, *Convener*
- (ii) Principal A.B. Mathur
- (iii) Principal V.B.L. Mathur
- (iv) Principal M.L. Joshi

(22) The Syndicate *adopted the* following resolution :

"The members of the Syndicate of the Rajasthan University in its regular meeting held on 29th April, 1979 expressed its grave concern on the cut of 30% in the budget for higher education in absolute terms in the VI Five Year Plan as it would (i) weaken the nation building

रही आचार्य उपाधि को ही इस विषय के लिये एम. ए. (संस्कृत) उपाधि को वैकल्पिक योग्यता स्वीकार किया जा सकता है। इससे पूर्व की (1973 से पूर्व) निम्न आचार्य उपाधि को नहीं।

- (ड) इस विषय को अव्यापनार्थ किसी भी वर्ष एवं विषय को आचार्य उपाधि को (जिसमें यह विषय परीक्षा का विषय नहीं रहा हो) वैकल्पिक योग्यता स्वीकार करने का अर्थ है उस उपाधिवारी को भी योग्य मानना, जिसने स्वयं न तो कभी यह विषय पढ़ा है ना ही इस विषय को लेकर परीक्षा उत्तीर्ण की है, तो वह व्यक्ति स्नातकोत्तर कक्षाओं को यह विषय पढ़ायेगा कैसे।
- (च) विषय के महत्व को अनदेखा करके तथा उपाधि में उस विषय की उपेक्षा करके मात्र उपाधि समकक्षता के आवार पर यदि विषयाध्यापन को अर्हता दी जाने लगेगी तो बड़ी असंगतियां हो जावेगी। उदाहरणार्थ साहित्याचार्य द्वारा वेद पढ़ाने का, जैन दर्शनाचार्य द्वारा व्याकरण पढ़ाने का, पुराणेतिहासाचार्य द्वारा ज्योतिष विषय पढ़ाने की अर्हता देनी पड़ेगी। इसी प्रकार भौतिकशास्त्र के एम. एससी को रसायनशास्त्री तथा इतिहास के एम. ए. को अर्थशास्त्र पढ़ाने के लिये योग्य मानना पड़ेगा।
- (छ) यदि वह आचार्य उपाधिवारी (जिसके आचार्य परीक्षा में भाषा विज्ञान विषय नहीं रहा फिर भी) फिर भी शास्त्री एवं आचार्य कक्षाओं को भाषा विज्ञान पढ़ाने के लिये योग्य माना जाता है तो उसे शास्त्री कक्षा के आधुनिक विषय (इतिहास, अर्थशास्त्र, राजनीतिशास्त्र इत्यादि) पढ़ाने के लिये भी क्यों नहीं योग्य माना जा सकता।
- (ज) आचार्य उपाधि को यदि एम. ए. का स्थानापन्न बनाया जाता है तो यही सुविधा एम. ए. उपाधि को आचार्य का स्थानापन्न बनाकर क्यों नहीं दी जा सकती। अर्थात् जहां जहां आचार्य उपाधि को योग्यता माना गया है वहां वहां एम. ए. (संस्कृत) उपाधि को भी वैकल्पिक योग्यता माना जाय।

- (2) Appointment of Shri N.N. Gidwani on an adhoc basis as General Editor of the aforesaid Publication Cell w.e.f. 1-3-1979 for a period of six months or till further orders, whichever is earlier.
- (3) Pending recommendations by the Board of Governors appointed for the Publication Cell regarding the terms and conditions to be offered to Shri Gidwani, to pay him the same emoluments admissible to him on the 28th February, 1979 on which date Shri Gidwani retired from the University service.

The members exchanged views with regard to the various aspects of the proposition and the Vice-Chancellor felt that the matter needed further thought in the light of the deliberations made in the meeting of the Board of Governors which are still awaited.

The Syndicate, therefore, *resolved that* the Vice-Chancellor may look into the matter and final orders passed by the Vice-Chancellor in this regard be brought before the Syndicate alongwith the recommendations made by the Board of Governors and detailed information on various points viz. (i) Financial implications of the proposition, (ii) detailed report of the work proposed to be undertaken on priority basis and (iii) the long term impact of the proposition on the University academics as well as finances.

Resolved further that until the final decision in this regard is taken, the existing practice with regard to the printing of syllabuses and text books be continued.

and instigated other students also not to appear in the paper. The behaviour of the candidate was not satisfactory when he was caught. The Centre Superintendent in his report stated that the candidate was not called for explaining his case in person because he and his colleagues were adamant to disturb the conduct of the examination. As such it was thought advisable not to take any statement of the candidate. This candidate was creating trouble during the examinations daily. The Head Examiner in his report had stated that the candidate has used the book in answering all the questions leaving question Nos. 1 and 9 (b).

- (ii) On the basis of the aforesaid reports, the Committee appointed to consider the cases of use of unfair means resolved to recommend that the present examination of the candidate be cancelled and he be further debarred from appearing at any examination of the University to be held in 1979 and 1980. On 9th January, 1979 the candidate submitted a representation requesting for reconsideration of his case and giving him full opportunity to explain his case in person. As the candidate was not given any opportunity by the Centre Superintendent at the time when he was caught using unfair means, it was necessary to give him a personal hearing to satisfy the principles of natural justice. Therefore, the candidate was given a personal hearing on 19-3-79 by the Committee appointed to consider the cases of use of unfair means. After hearing the candidate, the Committee recommended that the present examination of the candidate be cancelled and he be further debarred from appearing at any examination of the University to be held in 1979 only instead of 1979 and 1980. (7) Arising out of the discussions on the recommendation No. 20 of the Faculty of Commerce, the Council *felt that* the University Office should prepare a detailed note incorporating the various refusals for the assignment of Paper-setters/Examinerships during the examination of 1979 for the information of the Vice-Chancellor so that corrective steps, if any, could be taken to avoid objections levelled by various members of the Faculty in making stop-gap arrangements for meeting the situation as and when it occurs.

(8) The Council considered the recommendation No. 20 dated 30th March, 1979 made by the Faculty of Science, recommendation No. 22 dated 17th/18th March, 1979 made by the Faculty of Commerce, and Recommendation No. 12 dated 28th March, 1979 made by the Faculty of Social Sciences with regard to the supply of syllabuses to the various members of the Faculties. 1. The Committee noted the contents of the Academic Council Res. No. 5 dated the 2nd April, 1979 in respect of the issue of awarding a Division to the students taking admission to the III B.E. Class after passing the Diploma Examination of the Board of Technical Education, Rajasthan together with view of the Council to the above effect.

2. The Committee after a good deal of deliberations and taking into consideration the representation of the students came to the following conclusions :

- (a) It is not possible to award division to the students who have joined the B.E. Course at the Third Year after passing Diploma in Polytechnic because it would adversely affect the bulk of students who have taken the five year integrated course and have been assessed on that basis.
- (b) The interest of students who have joined at the third year level after passing the Diploma Course in Polytechnic are already well protected because the percentage of marks obtained by them in Third, Forth and Fifth year is indicated in the degree itself, where it is also pointed out that this University awards First Division on the basis of 60%. The employer is, therefore, in a position to assess the individual worth of the candidates on the basis of

In this Connection the Council also considered the following proposal received from Dr. D.C. Gokhroo (Member-Senate) as contained in his letter dated the 5th May, 1979 :—

“प्रथम वर्ष कला एवं सामाजिक विज्ञान कक्षाओं के तृतीय अर्निवार्य विषय की सूची में “Basic Mathematics” को Alternate paper के रूप में सम्मिलित किया जाये।”

Resolved to recommend that (i) the proposal be not accepted and (ii) the facility already granted to the students in terms of Resolution No. 18 dated 22nd June, 1978 of the Academic Council, shall stand.

(20) Arising out of the discussions on the recommendations of the various sub-committees the Council considered the role of teachers in the subject Teachers Meeting held a day before the meeting of the Faculty, the Council felt that the subject teachers Committee meeting can not abrogate the rules/power/authority of the Boards of Studies as given under the Act and, therefore no substantial change can be made by the subject teachers Committee meeting in the recommendations of the Boards of Studies. It may, however, recommend to the Faculty concerned any discrepancy to be sorted out and minor modification which may be justifiably made. The Faculty may take into account such recommendations made at the subject teachers Committee meeting as are unanimously agreed to by the subject teachers concerned and suggest such minor modifications/amendments as are warranted.

APPENDIX-II

(Ref: Res. No. 6 of the agenda of the minutes of the meeting of the Academic Council dated the 1st June, 1979).

Copy of D.O. letters dated 27-3-79 received from Dr. R.B., Upadhyaya, Deptt. of Business Administration, University of Rajasthan, Jaipur.

I have been given to understand that the Faculty of Commerce has approved of the proposal of the Committee of Courses for a Two-year P.G. Degree Course in Tourism and Hotel Management in the University of Rajasthan to be effective from the academic session 1980-81 instead of from the session 1979-80 (as suggested by the Committee of Courses). My observation in this connection is that if the Faculty of Commerce is convinced that the Two-Year P.G. Degree Courses is in the best interests of the candidates, then there is no advantage in continuing the old course even for a day. Moreover, this was the main demand of the candidates that the two-year course should be introduced with the academic session 1979-80. I, therefore, request you to place my observation before the Academic Council.

Further I have been given to understand that the Faculty of Commerce has suggested for the abolition of the Committee of the Courses and entrustment of this work to the Board of Studies in Business Administration with a right to co-opt the conveners of other Boards in the faculty of Commerce. So far as I am concerned as convener, I am not concerned as to whether the Committee of courses continues to function or is abolished. But from academic point of view my observation is that probably the Faculty of Commerce has not been able to appreciate the inter-disciplinary nature of the subject of Tourism and Hotel Management and the special expertise that it needs. Considering this the Vice-Chancellor was pleased to constitute a Special Committee of courses for this subject nominating Shri Rajendra Pal Singh, Director of Tourism, Rajasthan, Miss. Kanta Thakur, Director Tourism, Northern India, Government of India. Captain Chandra Singh, General Manager, Hotel Clark-Amer, Dr. D.S. Chawda, General Manager, Hotel Inter-Continental, Bombay, Shri Ram Acharya, Incharge, Correspondence Courses, and Dr. R.S. Kulshrestha, an expert in Economic and Commerical Geography as memebers. It is as per suggestions of this expert body that the two-year syllabus has been drafted and it will further need the approval of this expert body. Moreover this course will continuously need the guidance of these experts. I put it on record that these persons have been taking active interest in the development of this course in this University and, therefore, it will not be proper to dispense with their services so soon. Under the circumstances I deem it my duty to bring all these facts to your notice and through

(ANNEXURE-2)

ANNEXURE-9

MINUTES OF THE SUB-COMMITTEE

The Sub-Committee appointed by the Board held on 15th March, 1978 in the office of the Director, College Education, Rajasthan, Jaipur to work out details for a full time Secretary, University Sports Board :—

After considering all aspects of the same it is felt that if a Secretary is appointed on whole time basis and not on part time basis, this appointment will go a long way in the efficiency of the Sports Board. In this connection it is suggested that total number of DPE/ADPE is 11. If the strength of these staff in constitutional colleges is rationalised i.e. 2 in each college, one will left over who can be look the work of Sports Board full time.

**OBSERVATIONS OF THE HOUSE ALLOTMENT COMMITTEE
ON THE DRAFT RULES**

- | | |
|----------------------------|---|
| Reference Rules
4 and 5 | The University has no seniority rules for its employees. In the absence of seniority rules, Rule 5 here becomes redundant. It is requested that the Syndicate may take urgent steps to frame the rules of seniority for the employees of the University. |
| Reference Rule 6 | The 'total continuous service' needs to be defined. Should it simply mean 'total continuous service' or should it mean 'total continuous service as a confirmed employee' The question is again linked with the rule of seniority. |
| Reference Rule 8 | It should be specifically provided that the House Allotment Committee shall have <i>ex-officio</i> representation of one elected representative of each of the four recognized associations of the University. |
| Reference Rule 10 | This Rule makes obnoxious reading and should be deleted since the conditions of disqualification and eligiblitiy (for purposes of allotment of University accommodation) have been amply elaborated in the rules. |
| Reference Rule 11 | This Rule may be deleted since such persons can be given accommodaton from the Vice-Chancellor's discretionary quota. |
| Reference Rule 13 | There is no need to reserve 6 flats for Visiting Professors or for persons who freshly join University service in addition to 4 flats (10% of the total of 40 flats) which shall be available for allotment in the Teachers' Hostel under the Vice-Chancellor's discretionary powers to meet the needs of such persons. |

dated the 29th June, 1979)

Dr. V.M. Sinha,
Vice-Principal,

D. O. No. Personal

Dated 29th June, 1979.

Dear Justice Tyagi,

You were good enough to ask me when I appeared for interview in connection with regular selections for the post of Reader in Public Administration which of the two Readerships I would prefer—the promotional one or the regular one—if I was selected for both. I indicated to you my natural preference for appointment to the post of Reader through regular selection. It was then pointed out that this would mean that there would be reduction of one post of Readership in the Department as no one else was eligible to be considered for promotional Readership in the Department.

I have now given a careful thought to the issue, if my name appears among the list of selected Readers in both categories and if it is shown as such in the minutes of the Selection Committee and all my legitimate academic and other interests are also protected for future, I would not mind opting for promotional Readership as it would leave the possibility of one more Senior post being added to the Department, the interests of which is naturally dear to me also.

With Personal regards,

Yours sincerely,

tion in the higher cadre on payment of rent calculated according to his/her new salary.

- Reference Rule 21 This Rule occurs in the existing rules of the University for the allotment of residential accommodation as given in the Hand Book. It is difficult to comprehend its meaning.

In any case, it should be deleted.

- Reference Rule 24 This Rule should read as follows :

‘In the case of death of a University employee who has been occupying a University accommodation, his/her family shall be allowed to stay in that accommodation for not more than six months after the death of the employee or until such time is the University clears all dues to the family of the deceased, whichever is later.

- Reference Rule 27 The Note under this Rule should read as follows :

Note :— Sub-letting includes sharing of accommodation with an allottee on payment of rent.

- Reference Rule 33 This rule should read as follows :

‘The employee to whom a residence has been allotted shall maintain the residence and premises properly and in clean conditions. The University shall spend every year a sum equivalent to one month’s rent paid by the employee for a clean and proper maintenance of his/her residence failing which the employee shall have the right to spend an amount to that extent for this purpose and the University shall be liable to reimburse it to the employee’.

**ADDITIONAL OBSERVATIONS OF THE HOUSE ALLOTMENT
COMMITTEE BEYOND THE DRAFT RULES**

1. It should be stipulated in the revised rules for allotment of University accommodation for residential purposes that formal allotment of a University accommodation to an employee shall not be made until the allottee had made the necessary declarations conferring eligibility on him/her for the allotment in the form of a proper affidavit.
 2. It may be provided under the revised rules for allotment of University accommodation for residential purposes that 10% of Class IV residential accommodation shall be reserved for chowkidars and cooks. Further, chowkidars serving in a particular campus/college shall receive priority in the allotment of residential accommodation in that campus/college provided that such accommodation for their category is available in the campus/college.
 3. The form of application for University accommodation for residential purposes, as provided for under the existing rules, should be suitably modified to meet the requirements of the revised rules following their approval by the Syndicate.
 4. The revised rules for allotment of University accommodation for residential purposes should stipulate allotment of accommodation to University teachers according to pay slabs in place of categorywise allotment.
 5. The House Allotment Committee was not sure if the 'Vice-Chancellor's bungalow' is *formally* earmarked for the Vice-Chancellor. It was also not clear whether the so-called 'Registrar's bungalow' is *formally* earmarked for the Registrar or not. The Committee felt that :
 - (i) residences for the Vice-Chancellor, Pro-Vice-Chancellor and the Registrar should be formally earmarked, if they are not already earmarked, and
 - (ii) in the likelihood of any of the above residences lying vacant for a period exceeding six months (due to non-occupancy) it should be temporarily

13th June, 1979.

Respected Shri Kothari Saheb,

A propos our telephonic talk on 12-6-79 I reiterate the stand taken by me.

You may be aware that this centre is conducting examinations since the last month of April, 1979 and such examinations will continue till about 15th July, 1979. Ordinarily the lecturers are entitled to vacations during the summer vacations, but on account of that change in dates in the annual examinations for a couple of years they are required to do invigilation work in these examination and as such have not been able to avail of the of the summer vavations. The lecturers grumble very much for not being able to enjoy the rest they deserve after a whole sessions working.

The dates of the law examinations are, it so appears, being fixed from 2nd July, 1979 and will continue till 6th August, 1979. This being the position. the lecturers are not prepared to do invigilation work and want to go out. Without the college lecturers it will not be possible to conduct the law examinations with the help of invigilatores called from outside nor will it be possible for me to manage the examinations and check the copying by the students. Looking to the prevailing atmosphere of copying in the country and also not prepared for 2nd July, 1979, and if forced to appear

therefore, felt that the University should remit a sum of Rs. 2/- per non-collegiate candidate to the examination centre to be distributed as follows :—

Re. 1/- to the Principal/Centre Superintendent
Paisa 50 to the Ministerial Staff
Paisa 50 to Class IV Staff.

(4) The above recommendations of the Committee was accepted by the Syndicate vide its Res. No. 21 dated 27th/28th August, 1974 and accordingly a circular letter No. 57563-662 dated April, 1975 was issued to all Examination Centres informing them that a sum of Rs. 2/- per non-collegiate candidate registered at each Centre would be paid to the Centre Superintendent for distribution as above.

(5) The Syndicate reviewed the above decision vide its Res. No. 27 dated 24th January, 1976. Taking note of the fact that the Syndicate had decided to conduct separate examinations for non-collegiate candidates during the summer vacations which would involve more expenditure and that provision for payment of remuneration to the staff of the college including the Centre Superintendents for conducting the University examinations was already here and the Registration Fee as such could hardly be related with the work of conducting the University examinations, the Syndicate decided to rescind its earlier decision regarding payment of a sum of Rs. 2/- per non-collegiate candidate to the Examination Centres adding that the question of making such payment to the colleges for the examinations of 1975 did not arise.

(6) Some Principals of colleges represented against the above decision and requested for reconsideration of the same on the following grounds :—

- (i) That the University had made a commitment for payment of honorarium to the staff of the colleges @ Rs. 2/- per non-collegiate candidate registered at each centre.
- (ii) That they had actually conducted the examinations of non-collegiate candidates in the year 1975 on the basis of the said commitment.
- (iii) That the Principals too made a commitment to the staff and Class IV servants to pay them honorarium

To,

The Vice-Chancellor,
University of Rajasthan,
Jaipur.

Dear Sir,

You were kind enough to give a reasume of your talks with the Chief Minister before the teachers of this University when they assembled in front of your office on 12th January, 1979. We were gratified to learn that the Chief Minister has accepted the principle of at least one promotion during their service tenure. You also read out a gist of the talks held with us earlier regarding our demands. A copy of the same is acknowledge. This "consensus document" was considered by the Executive Committee of the RUTA and the General Body on the same date.

The General Body of the RUTA was unanimously of the opinion that the conclusions embodied in the 'consensus' fall far, short of the minimum demands of the teachers, although they mark slight advance. However, the General Body has decided to suspend agitation for the time being and suggested the following modification:

- (1) (a) The suitability of the teachers for promotion should be adjudged by an "Assessment Committee" rather than the "Selection Committee" (as stated in para 1 of the 'consensus').
 - (b) This "Assessment Committee" will only judge the 'suitability' of teachers for promotion.
 - (c) This adjudgement will not, however, include any subject interview or a viva voce as this is nowhere a practice, for promotion and,
 - (d) After adjudgement of 'suitability' appointment will be made strictly on the basis of seniority.
- (2) The Assessment Committee for promotion should consists of (a) the Vice-Chancellor, (b) Member of the Syndicate preferably the elected representative of the teachers. (c) Principal of the College (d) the Head of the Department, if he is not

teaching should be confirmed as and when they complete 2 years of effective teaching.

- (11) With reference to para 7 of Consensus regarding (senior) Lecturers in the Readers grade we suggest that this should be done at the earliest and should be with effect from the date the Syndicate passed the resolution to so designate them.
- (12) Those teachers whose cases have already been taken up under the 55 years clause, should be promoted immediately.
- (13) With regards to the case of 6 teachers not absorbed after screening under the Ordinance, the General Body strongly felt that the matter should be immediately settled favourably.
- (14) The 'consensus' document is silent about arrears of U.G.C. pay scales with effect from 1.1.1973. The matter is urgent because as per U.G.C. decision the amount will not be made available after 31.3.1979.
- (15) Constitution of a Joint Consultative Committee has been accepted by the Syndicate. The Committee should be formed at once and a meeting of the Committee should be called before the next meeting of the Syndicate so that decision may be taken regarding other demands in our demands' charter.

In conclusion we may say that if the foregoing suggestions are accepted by the University at an early date, the favourable effect created by the Chief Minister's acceptance of 'one promotion' and your efforts to implement this will be further strengthened and will create a sense of satisfaction amongst the teachers about which you have yourself shown a great concern.

Thanking you,

Your's Sincerely,
Sd/- (R.B. Singh)

- (ii) On the basis of the foregoing criteria the Committee would like to recommend in the case of Shri Chand Mal Sharma that the break of service of about 2 years and 10 months in his case be condoned for purpose of gratuity and pension benefits without effecting the existing seniority list. This condonation is being recommended on the ground that Shri Sharma had served for 15 years in this University before going to Jodhpur for about 3 years and later he has also served the University for about 9 years. It may also be noted that he had applied for extension of leave after expiring of one year's leave but that was refused and as such there was no alternative left to him except to resign. Moreover, he was serving in a sister-University during the period of absence. There also exists a precedent of the case, in so far as, Dr. G.S. Sharma was granted condonation of break in his service for the purposes of gratuity.
2. As far as the case of Dr. Ravindra Sharma is concerned the Committee feels that there is no case of condonation of break in his service from 27.11.73 to 6.1.74. The reason is that he appeared before a Selection Committee for temporary lecturership and was not selected and that, it was for this reason that the break was caused. If he is granted condonation for the break of his service, it would mean that he would be treated as re-employed for the period when he was out of employment on account of having been rejected by a duly constituted Selection Committee.

The meeting ended with a vote of thanks to the Chair.

(*Ref: Res. No. 47 of the minutes of the meeting of the
Syndicate dated the 29 & 30th April, 1979*)

Minutes of the meeting of the Committee appointed by the Syndicate vide its resolution No. 18(ii) dated 20/21 Dec., 1977 to examine the case of Sri Suresh Deman, Lecturer in Economics for condonation of the gap in his service, which met in the University Central Office on Wednesday the 18th April, 1979 at 11.30 A.M. The following were present :

1. Dr. Hari Singh, *Convener*
2. Principal M.L. Joshi,
(Principal N.M. Golecha could not attend the meeting).

The Committee noted that its earlier recommendations made on the 5th March, 1978, were considered by the Syndicate at its meeting held on 1st July, 1978 when the Syndicate resolved that the above recommendations be referred back to the Committee for submitting a detailed report. The Committee feels that since Sri Suresh Deman has been screened for appointment as a lecturer in Economic in terms of Rajasthan University (Absorption of Temporary Lecturers) Ordinance, 1978 and he has been selected for a permanent absorption in the University, it is not necessary to pursue the matter further. The Committee, therefore, recommends that the matter may be treated as closed.

APPENDIX-XX

*(Ref. Res. No. 51 of the minutes of the meeting of the
Syndicate dated the 29 & 30th April, 1979)*

EXPLANATORY NOTE

The University decided to recognise the performance of teachers of long standing and outstanding ability by allowing such teachers the benefit of the immediately higher payscale. Accordingly some lecturers were given the benefit of Readers pay scale from 1.4.1968 and to distinguish them from Readers for purposes of sanctioned number posts of Readers, they were designated as senior Lecturers.

Out of the 5 senior Lecturers in position on date, 2 persons have since been granted ex-cadre promotion as Reader under the provision of not appeared to S.20 only 3 teachers viz. Shri N.M. Rajjani of English Department, Shri O.N. Saxena of Zoology Deptt. and Shri H.C. Rara of the Deptt. of Accy. & Bus. Statistics on date continue to be designated as Senior Lecturers though they are drawing pay in the Reader's Scale (Revised).

With the adoption of U.G.C. pay Scales for teachers only three categories of University teachers viz. (a) Professor, (b) Reader and (c) Lecturer have been prescribed, Therefore, it is for consideration whether the 3 teachers named above may be designated as Readers, so that anomalies that presently exist are removed.

Dissenting Note Received From Dr. Bhartiya

Regarding item No. 11 and Vice-Chancellor's Note in connection with the 5% promotion (Reconstitution of the Selection Committee) Syndicate Agenda 29th/30th April, 1979 :

- (i) The "Selection Committee" should be called 'assessment Committee' as suggested in the RUTA Secretary's letter.
- (ii) The promotions should be made on the basis of general seniority. If some Department is not covered despite several senior teachers on its rolls, it may be given a special consideration even if it means a few additional posts beyond five percent.
- (iii) As long as the proposed promotions are confined to 5% only, the existing provision of ex-cadre promotion after the attainment of the age of 55 years be retained.

- I. Provision should be made for the failed supplementary candidates to appear for a complimentary examination like other professional colleges.

We are arguing for this provision because of following reasons :—

- (i) The result of supplementary examination has declared on April and the students have to give their annual examination in the month of May.
 - (ii) The classes have started in March in our College. Some of the very important subjects have not yet started.
 - (iii) Yearly changes in syllabus.
- II. Provision should be made for appearing only in failed subjects e.g. according to prevailing rule if a student fail in Chemistry that candidate have to appear for the whole Advanced Science (Physics, Chemistry, Biology). Give them a provision to attend only in failed subject in Chemistry.
- III. If a student fail in practical make provision to appear only in practical exclude. The candidate from theory examination and visa-versa.
- IV. The Sessional marks should be displaced on the notice board of College of Nursing, Jaipur before sending it to the University.

The Committee after a prolonged discussions *Resolved to recommend as follows :—*

- A. Reference demand Number I, II and III above :—

In this connection Shri A.B.L. Mathur, Principal College of Nursing, (who was invited as special invitee) apprised the Committee that the college has been closed by the State Govt. due to students strike and therefore efforts shall be made to get the course completed in a month's time from the date, the college re-opened by the Government.

Taking into consideration (i) the postition apprised by the Principal, College of Nursing, Jaipur and (ii) the provisions exists in the other Faculties of the University, the Committee *resolved to recommend as under :*

- (I) The facilities of carrying over the failing Papers of the lower examination alongwith the higher examinations be also allowed to the students of the B.Sc. (Nursing) Parts I, II, III and IV Examinations.

प्रिय श्री कामरा,

मैं आपका ध्यान शिक्षा (ग्रुप-3) विभाग के पत्र क्रमांक एफ 3 (86) शिक्षा ग्रुप-3/78 दिनांक 4 मई, 1979 की ओर दिलाना चाहता हूं जो राज्य सरकार ने अनुसूचित जाति एवं अनुसूचित जनजातियों के उम्मीदवारों को व्याख्याता के पद पर नियुक्ति हेतु योग्यताओं में छूट देने के सम्बन्ध में है। यह मामला अभी तक अकादमी परिषद में शायद नहीं रखा गया है। इस सम्बन्ध में मैं आपको सूचित करना चाहता हूं कि राज्य सरकार ने अनुसूचित जाति एवं अनुसूचित जनजातियों के अभ्यर्थियों को 28 प्रतिशत का आरक्षण कर रखा है। नवीन निर्धारित शैक्षणिक योग्यता के अभ्यर्थी पर्याप्त मात्रा में नहीं हैं और राज्य सरकार न्यूनतम निर्धारित शैक्षणिक योग्यता में 5 प्रतिशत की छूट स्नातक परीक्षा व उसके नीचे वाली परीक्षा के औसत अंकों में देना चाहती है व जिससे आरक्षित पदों को भरा जा सकें। मैं आपसे निवेदन करता हूँ कि आप इस मामले को 15 मई, 1979 को होने वाली अकादमी परिषद में सदस्यों के विचारार्थ रखने की कृपा करें और इस सम्बन्ध में विश्वविद्यालय का जो निर्णय हो, उससे आप मुझे अवगत करवाने का श्रम करें।

in such vital matters the various University bodies like the Academic Council, Syndicate, Senate, etc. have been callously ignored.

The Senate is of the firm opinion that those two proposed measures, which negate the basic concept of University education, would destroy the very academic fabric of the Universities and would prove absolutely disastrous in the cause of higher education in particular and the society in general.

The University Senate therefore, calls upon the Janta Government, wedded to the ideals of independent thinking and fearless expression, to uphold the sanctity of academic bodies and autonomy of Universities by abandoning the idea of inter-university transfer of teachers and also by rescinding the move to delink under graduate teaching from the Universities.

The Senate proposes that in order to improve and strengthen higher education in Rajasthan, the State Government should reconstitute a Committee consisting of teachers and eminent educationists alone.

The Senate further resolved that the University of Rajasthan should take immediate steps to implement the long standing resolutions regarding integrated, faculty wise teaching in the University so that the academic standards at the under-graduate and post-graduate levels may be further improved and the students may be more benefitted from the specialised and advanced knowledge available in the University.

APPENDIX—III

(Ref: Res. No. 16 of the minutes of the meeting of the Syndicate, dated 26/27th May. 79).

A note on the feasibility and implementation of the recommendations of the Committee appointed by the Syndicate to suggest guidelines for the appointment of examiners and inspectors or the members of flying squads, as desired by the Syndicate vide its Resolution No. 40 dated 4th/5th December. 1978.

The Committee appointed by the Syndicate (vide Resolution No. 35, dated 1.7.78) to suggest guidelines regarding appointment of examiners has recommended preparation of panels of examiners as follows :—

- (1) Panel of examiners in each paper for post-graduate examinations. The panel is to be prepared in alphabetical order showing length of total teaching experience, experience of teaching the paper concerned as well as the break in the period of examinership:
 - (2) A subject-wise panel of examiners for degree examinations in the alphabetical order of the names of examiners :
 - (3) A subject-wise panel of examinees for degree examinations, arranging the names of examiners in the order of their length of teaching experience of the subject :
 - (4) A subject-wise panel of teachers who have never so far been appointed examiner for any degree examinations in the University to be prepared in the order of their length of teaching experience of the subject concerned.
- (2) At present only one panel of examiners in each subject both for under-graduate and post-graduate examinations is prepared arranging the names of examinees in alphabetical order. A separate list of examiners who were not given any examination work in the preceeding year is also prepared arranging the names of examiners in the order of their length of teaching experience and placed before the Committee for selection of examiners.
- (3) It may be mentioned that there are about 700 different papers prescribed for M.A., M.Sc., and M.Com., Semester Scheme examinations and 350 for annual scheme examinations. In many cases the nomenclatures of papers are different in semester and Annual Scheme of Examinations. It is our past experience that while furnishing the information about the names of papers taught, the teacher do not give full nomenclature of each papers as mentioned in the

(6) The Committee has recommended that the member who is elected by the Board of Studies to serve on the Committee for selection of Examiners should not be a person who does not belong to Rajasthan. Guidance is solicited as to how this recommendation is to be enforced. In the provisions of the University Act, there is no bar to the election of an external member of the Board of Studies to serve on the Committee for Selection of Examiners.

(7) The Committee has recommended that after serving as examiner for 2 years, a teacher must have a break of two years. If this recommendation is strictly enforced, there will be difficulty in finding requisite number of examiners. It is felt that one year's gap after 3 years examinership would be sufficient as per existing provisions which may be allowed to relax where necessary as suggested in para 4.

(8) The Committee has recommended that the total remuneration derived by a person from examinership, tabulation work or its checking should not exceed Rs. 1600/- in a year. For this purpose, the academic year may be treated as a year and the ceiling of remuneration may apply to the work of examiner held in a particular academic year irrespective of the date of payment of remuneration and the ledger account of each examiner should be maintained accordingly by the Accounts and Finance Section. In other words, payment of remuneration made for examinations held in a particular academic year should be posted in the ledger account of the same academic year irrespective of the date of payment.

(9) The Committee has recommended that if any appointment of an examiner in contravention of the rules is recommended by the Selection Committee, the office shall report it to the Vice-Chancellor. The office will try its best to check such appointments and report to the Vice-Chancellor but at the same time it is suggested that all the members of the Selection Committee may also be required to give a certificate to the effect that they have recommended appointment in accordance with the rules laid down by the Syndicate. It may be added that even at present the Conveners are required to give such a certificate.

(10) The Committee has recommended that the cases of persons likely to derive more remuneration than Rs. 1600/- shall be reported by the office to the Vice-Chancellor. For this purpose the office shall have to maintain individual record of each teacher showing estimated remuneration for examination work assigned to him. Before issuing any appointment letter for examinership, tabulatorship or checker-ship, this record will have to be consulted to ascertain where the estimated remuneration would exceed the ceiling of Rs. 1600/- and only after such checking the appointment letters will be issued. This will also involve some additional work.

APPENDIX-IX

(Ref: Res. No. 27 of the minutes of the meeting of Syndicate dated 26/27th May, 1979).

R.S. DANGAYACH
Department of Accountancy
and Bus., Statistics.

JAIPUR
Dated: April 20, 1979.

The Registrar,
University of Rajasthan,
Jaipur.

Dear Sir,

Kindly refer to your letter No. 7217/Estt., dated 12.4.1979.

I am grateful to the Syndicate for promoting me to the post of Reader (Ex-Cadre) in the University Department of Accountancy and Business Statistics. However, as you are aware, *I did not want my case to be considered for the ex-cadre promotion.* I hold strong views about the policy of the University in this regard.

I will, therefore, like to continue with my present designation I must, however, make it clear that in doing so I do not mean any disrespect for the Syndicate. I just want to act according to my convictions.

I also thank the Head of the Department of Accountancy & Business Statistics and my colleagues who had taken up my case for ex-cadre promotion.

Your's faithfully,
(R.S. Dangayach)

- (VI) This meeting of the Senate, University of Rajasthan, Jaipur expressed its deep concern and dissatisfaction over the reported move to delink the Under graduate wings from the Universities and to introduce Inter-University transfer of teachers. The Senate is greatly shocked that in such vital matters the various University bodies like the Academic Council, Syndicate, Senate etc., have been callously ignored.

The Senate is of the firm opinion that these two proposed measures, which negate the basic concept of University education, would destroy the very academic fabric of the Universities and would prove absolutely disastrous to the cause of higher education in particular and the society in general.

The University Senate therefore, calls upon the Janta Government, wedded to the ideals of independent thinking and fearless expression, to uphold the sanctity of academic bodies and autonomy of Universities by abandoning the idea of inter University transfer of teachers and also by rescinding the move to delink under graduate teaching from the Universities.

The Senate propose that in order to improve and strengthen higher education in Rajasthan, the State Government should reconstitute a committee consisting of teachers and eminent educationists alone.

The Senate further resolved that the University of Rajasthan should take immediate steps to implment the long standing resolutions regarding integrated, faculty wise teaching in the University so that the academic standards at the under graduate and post graduate

and its contents modified in order to drop the name of Shri Jaiprakash Narain.

(B) Action on Findings of the Commission Regarding Individual Representations :

The Commission had received 77 representations from individuals and groups. The findings of the Commission on these representations appear in Part II of the Report. I find that whereas in certain cases the Commission has not considered it appropriate to grant any relief in certain other cases the commission has recommended grant of relief, in relief to individuals, I agree with the findings of the Commission in these individual matters and it is requested that the University should take action to implement them in accordance with its rules. The cases in which grant of relief has been suggested by the Commission are listed as Appendix-B and other cases in which no action is required to be taken are listed as such Appendix-C.

(C) Working of the Institute of Correspondence Studies under Shri Pant :

The Commission has made several observations on the working of the Institute particularly relating to admission to B.Ed. course, starting of course, preparation of lessons and appointments in the Institute. It is suggested that corrective action may be taken to set right these irregularities pointed out by the Commission in the functioning of the Institute keeping in view the guidelines given by the University Grants Commission.

(D) Action against others :

The Commission has found Prof. G.C. Joshi guilty for his action in making direct recommendation to the Vice-Chancellor in regard to Dr. Gautam's appointment as Micro-Analyst and also for suggesting the change in the qualification to suit Dr. Gautam. The Commission has made observations on the conduct of Dr. Naresh Chandra, Head of the Department of Botany in recommending the names of Dr. (Miss) Raka Sharma and Mr. Dixit for appointment as temporary Lecturers in Botany. Action, in accordance with the University Rules, may also be taken against them.

With kind regards,

Yours sincerely,

record must perforce remain in a state of incompleteness and imperfection and liable to be twisted and misrepresented by dissatisfied elements in the office.

All this is true even in the best of circumstances. How much truer must it be for a period during which two major political changes took place—the proclamation and withdrawal of Emergency. For the Commission the history of this period is written in only two colours—black and white. The Vice-Chancellor belongs to the former, the work of the Commission to the second phase. The Commission starts by accepting the basic point of view of the complainants—that the Vice-Chancellor's motives must generally be unworthy and suspect and that all ambiguities in circumstantial evidence must be interpreted to his detriment. Whenever the Vice-Chancellor exercises discretion, which he must do constantly, the Commission suspects ulterior motives and is willing to lend its ears to some dissatisfied party or the other.

p. 3 of the Commission's Report-re-the dissolution of the Unions.

1.1. The Commission garbles the facts by confusing two quite different meetings. The correct sequence may be seen in *Facts Defy Fiction*, p. 1.

1.2. The Commission surmises that the dissolution of Unions must have been done at the initiative of the Vice-Chancellors. In this it disregards clear documentary evidence to the contrary—vide Minutes of the meetings of the Coordination Committee of Vice-Chancellors held in the Committee Room of the Rajasthan Secretariat, Jaipur on December 3, 1975, enclosed with letter No. PA/DCE/76/192 dated 28-1-76 from Dr. R. N. Choudhary, Director of College Education, Jaipur to Dr. G. C. Pande, Vice-Chancellor, University of Rajasthan, Jaipur.

1.3. Thus in the very opening para the Commission is guilty of confusing facts as well as of disregarding evidence on the basis of hypothetical reasoning and prejudice. It also shows a personal bias against Dr. G. C. Pande. On the Commission's own showing the measure in question was not the individual and personal invention of Dr. Pande but one taken in pursuance of state-level decision. And yet the Commission chooses to describe it as a measure devised by Dr. Pande and attributes it to the motive of 'terrorizing teachers and students'.

1.4. The general situation of Emergency certainly contained elements of terror but these existed as much for the Vice-Chancellors as they did for the teachers and others.

1.5. The Commission has taken over this allegation from a group of teachers who were affiliated to a political party

3.3. It may be noted that the Committee which formulated the measure included Prof. S. Loknathan and the late Sri B. Mehta, I.A.S.

3.4. That the measure was a purely general one and not intended against any one in particular will be clear from the fact that no case was ever referred to it.

3.5. The Commission remarks that 'it was a potential threat'. It is strange to find an ex-judge saying this. Even the highest person in the country can be impeached. Is that a potential threat ?

3.6. In fact, the University can dispense with a teachers' service by giving a three months' notice unilaterally. The provision of compulsory retirement is certainly more circumscribed.

p.6.—Re—Dr. G.S. Sharma's extension :

4.1. Since the Ordinance contains a clear difference, it is obviously wrong to say that "there is no practical difference between the criteria laid down for extending the age to 62 years and then to 64 years".

4.2. To assert as pure surmise that "Dr. G.S. Sharma was rewarded for his loyalty to Dr. G.C. Pande" is slanderous and shows prejudice. Dr. Sharma is a jurist of international eminence and that is why he was given extension by the Syndicate unanimously.

P. 6—re—Leave rules, Guest House, Research and Reference Cell :

5.1. The Commission garbles the facts about the Vice-Chancellor's permission for going out of station as also about the restrictions on catering in the Guest House. The correct facts alongwith reasons may be seen in *Facts Defy Fiction*, pp. 4-5.

5.2. If a teacher is required under certain conditions to seek the Vice-Chancellor's prior permission before leaving station, surely that cannot be construed as a humiliation.

5.3. Similarly, if genuine administrative difficulties were experienced in letting the Guest House function as a virtual restaurant, should that be construed as an act designed for the humiliation of the teachers ?

5.4. The Commission accepts *without evidence* the allegation that the object of Research and Reference Cell "was to have access to the personal files of the teachers in order to terrorize them." This is clear evidence of prejudice. The Cell was established only

- (8) Psychological Library : well equipped
- (9) Science Lab. : The School Lab. is being used for B.Ed. College too and it is under overall control of the Principal.

3. One post of unqualified lecturer should be replaced by qualified one.
4. The subject wise distribution of students is lopsided and therefore unjust. In subjects like Sanskrit, Geography Economics and English the number of students fluctuates between 4 to 7 only whereas in subjects like commercial Practice and Book-keeping, History, Hindi, Civics, Social Studies, Maths. and General Science the number of students fluctuates as between 24 to 41 which is not desirable as it makes the real lecturer pupil ratio as 1:41. It is very strange to provide Commercial Faculty of 22 students when there is not a single Lecturer of Commerce made available throughout the session. Similarly to provide Science Faculty without two important subjects, Physics and Chemistry, nullifies the existence of Science Faculty itself. Moreover to admit 41 students in Science Faculty and to keep only two Science Lecturers (that two of Zoology and Maths) is basically unsound as Lecturer pupil ratio of 1:20 can hardly be justified. Instead of adjusting the subjects and students to the Lecturers available, lecturers should be made available as per subject demands. It is better to close the teaching subjects if the number of those who offer them do not exceed 4, 6 and 7. Similarly there is no Lecturer other than the Principal himself who is M.A. in English and it is least expected from a Principal to teach as well as supervise English lessons. All these adversely affect practice teaching and as such rationalization of the staff and judicious determination of teaching subjects and intake in each is a must.
5. Only a limited number of lessons of each candidate are supervised and not can present lessons. It is good however that the college is completing practice teaching in two rounds and also providing block-practice teaching.
6. The location, structure and adequacy of the college as well as hostel buildings and of staff quarters are appreciably satisfactory.
7. The condition of library, psychological Laboratory, Audio-Visual equipment and of playgrounds facility is quite normal.
8. The financial position of the college is sound.

to the Vice-Chancellor on its behalf. This finalization was to be done by him after the Misra Committee had looked into the draft. It is, therefore, not correct to say that the Vice-Chancellor had merely made a recommendation to the Committee which either disregarded or rejected it and that this constituted the final state of affairs binding on him. The hypothesis of disregard or rejection lacks all cogency and is contrary to facts because I clearly remember that the members had agreed to my suggestion even before the Committee met for a second time. Sri Ranjeet Singh's memory clearly supports me in this (vide his note mentioned above). What is more, the finalization of the draft had been left to me by the Syndicate, not to the Committee. Thus my note on the earlier draft minutes had final authority unless it were rejected by the Committee and I had agreed with it.

8.4. The Commission says that the Minutes of the meeting of the Committee on 16-12-75 do not mention the deletion of the maximum age clause. These minutes were curiously not traceable when I ordered an enquiry into the matter. I am, therefore, unable to comment on them definitively. Assuming that Sri Jagat Narain is referring to genuine minutes, I would say that they must have inadvertently left out a reference to the matter, perhaps under the assumption that since the disputed item already stood excluded under my instructions regarding finalization and the members of the Committee agreed with this, no further reference to it was required. Had my suggestion been rejected, a most unlikely contingency, this would have recorded or the matter would have been deferred to a future meeting. Sri Ranjeet Singh recalls (vide note dt. 11-6-77) that a modified draft was prepared by him, which has not been traced so far. I must have signed the minutes in a routine manner trusting to their correctness. Had I any cause for dissatisfaction, I would have made a note as I had done on 6/12. There is an apparent discrepancy here between what the minutes are said to record or mean and what the Chairman and the Secretary of the Committee distinctly remember. The discrepancy ought to be resolved in the light of what is cogent as pointed out above. Sri Jagat Narain himself frequently interprets documentary evidence in the light of what he deems psychologically cogent.

The episode of the minutes really arose from the bungling of the office at the lower levels. It failed to take adequate note of my instructions on the margin in the first place, and finally undertook the expedient of reprinting without obtaining any formal orders or reporting. When there were rumors of two sets of minutes being found, it is the Vice-Chancellor who ordered an enquiry into the matter.

8.5. Sri Jagat Narain imagines a conspiracy to help Sri Agney. Since the disputed clause gave the Vice-Chancellor the authority to relax the age limit, the devious expedient of substituting

the University with the inspection report.

the advertisement are not correctly stated by the Commission—vide Vice-Chancellor's D.O. letter to the Chancellor dated 13-6-77 of which a copy was given to the Commission.

11.2. The Director was selected and appointed by statutory bodies, not by the Vice-Chancellor.

11.3. The Commission confuses the relevant rule in the Act about the constitution of a Selection Committee for Deans and Directors with that for a Professor in a subject (Vide Schedule I of the Act). The Director was never appointed or selected as a Professor in a subject.

11.4. The decision to debar Dr. Kamal's application was taken by the A.R. (Estt.) on his own. The Vice-Chancellor had nothing to do with it. The Vice-Chancellor in fact conducted an enquiry into the matter when he came to know of it. The reasons and circumstances for the decision taken by the A.R. (Estt.) were then stated by him in a note on Sri N.L. Mathur's deposition dated 17-6-77. The decision did not appear to be mala fide. Also see the Vice-Chancellor's D.O. letter to Chancellor dated 13-6-77.

11.5. The Commission is also wrong in stating that the application was received on 22/7. It was received on 24/7 at about 4 p.m. and as it had a postal order and 25/7 was a holiday, it was sent to the cashier on 26/7, whence it came back on 27/7 and Dr. Kamal was personally informed about it by the A.R. (Estt.).

11.6. There are many other points of legal interpretation in the Commission's treatment of the selection and appointment of Sri Pant as Director which may be disputed but it is unnecessary to comment on them since the University has already chosen to revert Sri Pant by not confirming him.

PP—29—33

11.7 The routine working of the Institute lies within the competence of the Director and the Vice-Chancellor is not concerned with it. The Vice-Chancellor on his part took various steps towards the creation of an adequate structure of rules for the fast growing institute. By its very nature the Commission ignores both the positive side of the working of the Institute as well as the efforts towards its reorganization. It also ignores the administrative difficulties incident upon rapid growth.

pp. 33—38 re-Adult Education (Extension) and S.A.B.

12.1. Efforts were made to reorganize these departments to promote efficiency and effect economy while connecting Adult

under the rules. It should appoint duly qualified Hindi Lecturer and a Librarian.

15.5. Since the Registrar was a member of the V.C. Committee, he must have himself countersigned the appointment order of Miss Pande. He must have ultimately satisfied himself that the request of the Head of the Department of English was just. Also see Registrar's letter to the Chancellor D.O. No. PA/77/84 dated 12-4-77. For other points see, *Facts Defy Fiction*, pp. 15-16.

15.6. That the sections were redivided to provide work in a supposition which was missed even by those who made wild allegations. Shri Jagat Narain shows a fertile imagination here when it comes to making suppositions hostile to the Vice-Chancellor.

15.7. Objections (a) and (e) on p. 44 have been answered in *Facts Defy Fiction*, pp. 15-16.

15.8. Replies have already been given to the objections raised to the temporary appointments of Dr. Gautam, Dr. Jaitley and Miss Agrawal in *Facts Defy Fiction*. pp. 16-17, and in a note to the Chancellor on a representation against Dr. Gautam. In the cases of Dr. Jaitley and Miss Agrawal contradictory objections have been made by the Commission.

15.9. It should also be remembered that all selection involves an element of subjective judgment. The rejected candidates always feel that injustice has been done to them. Shri Jagat Narain makes it a habit to espouse their causes and, what is more, reserves for himself the element of judgment as if he were himself making the selections.

26. Please see the reply sent to the Chancellor of which a copy was filed with the Commission.

p. 120.

27. As explained above the modification became necessary because of a difference in the fixation of pay-scales and service conditions for teachers and non-teachers. The Syndicate had only ordered amendments consequential to the adoption of the U.G.C. pay scales for the teachers and hence there was no warrant to apply the same rules for the non-teaching staff. It is this unauthorised mistake in the original draft which was corrected on the basis of a proposal of the office itself. It is a pity that the Commission does not go into the substance of the case but is quick to issue a formal deaunciation.

pp. 121-22.

28.1. Since I hold Prof. A.K. Saran in high esteem, I was keen that Prof. Saran may be invited to the University at Jaipur. I met Prof. Dube socially and in the course of conversation asked his opinion about Prof. A. K. Saran. *It was Prof. Dube who said that since he had found Prof. Saran suitable for Jodipur, he could not have any difficulty in finding him suitable for Jaipur also.* This statement he repeated in the meeting of the Selection Committee also.

28.2. I do not think it was at all improper to elicit expert opinion about an eminent person whom I thought it would be lucky for the University to be able to invite. I do not know of any other method by which eminent Professors can be secured for a University. But there was no question of foisting my opinion on any expert or the Selection Committee. I only felt that we were engaged in the common task of seeking talent where I had the right to an opinion but respected the opinions of experts and was bound to be guided by the Selection Committee as a whole.

pp. 123-37.

29. See comments supra.

pp. 141-43.

30. See reply to the representation sent by some complainants to the Chancellor, and copy to the Commission. I believe Dr. Gautam has since then been appointed by the University again.

Immediate efforts be made to recover all types of dues/excess payments/advances standing against any person, if it was established in the Commissions Report. Also in case, any article or articles belonging to the University were in possession of any of the persons concerned, it thus be recovered from them.

The Committee may also suggest ways and means which may be adopted to avoid the recurrence of such a situation in future. It may consider the possibility of creating institutional safeguards which may prevent the recurrence of such a situation.

Procedures to be adopted in this regard may be decided by the Vice-Chancellor who may also see that they are commensurate with the requirements of Law.

यह पूर्व आयुर्वेद शब्द से अभिहित होता है। अतएव जो छात्र प्रारंभ से पूर्व आयुर्वेद विषय लेकर आ रहे हैं वे शास्त्री प्रथम वर्ष तक उस विषय की पूर्णता प्राप्त कर सकें एवं आयुर्वेदाचार्य में सीधे प्रवेश के लिये योग्य हो सकें—जैसे कि अखिल भारतीय केन्द्रीय चिकित्सा परिषद ने टी.डी.सी. (विज्ञान) प्रथम वर्ष को सीधा आयुर्वेदाचार्य में प्रवेशाधिकार दिया है।

अतः संकाय की संस्तुति संख्या 2 (I) (III) को यथा प्रस्तावित स्वीकार किया जाय—अन्यथा 1980-81 के समारंभ में उन छात्रों को अग्रिम अध्ययन में बाधा उत्पन्न होगी जो कि पूर्व आयुर्वेद विषय लेकर उपाध्याय उत्तीर्ण हैं।

II. संस्तुति संख्या 2 (III)

संस्कृत अध्ययन संकाय में 18 मुख्य विषय है—विषयों के सामीप्य एवं तालमेल की दृष्टि से उन समस्त विषयों को 3 विषय समूहों में विभक्त करके तीन अध्ययन मंडलों का गठन प्रस्तावित किया गया है जबकि आर्ट्स, समाज विज्ञान, विज्ञान आदि संकायों में विषयवार एवं भाषावार अलग-अलग अव्यापन मंडल बने हुये हैं।

संकाय ने सभी विषयों के साथ न्याय कर सकने तथा पाठ्यक्रम मण्डल पर सभी विषयों के अधिकृत विद्वानों का प्रतिनिधित्व हो सके इस परिप्रेक्ष्य में 3 बोर्ड आफ स्टडीज प्रस्तावित किये :—संकाय ने इसमें विश्वविद्यालय के वित्तीय भार को भी दृष्टि में रखा है। अतः संकाय की संस्तुति से 3 यथा-प्रस्तावित स्वीकार कराई जाय।

III. संस्तुति संख्या 2 (IV)

उपाधियों का नामकरण आयुर्वेद के क्षेत्र में अखिल भारतीय स्तर पर परिवर्तित हो चुका है और राजस्थान विश्वविद्यालय ने भी आयुर्वेद संकाय की उपाधियों का नामकरण संशोधित कर दिया है।

राजस्थान माध्यमिक शिक्षा बोर्ड ने भी प्रवेशिका एवं उपाध्याय का नाम प्रवेशिका (सेकेण्डरी) उपाध्याय (हायर सेकेण्डरी) करना स्वीकार लिया है। ऐसी स्थिति में संस्कृत संकाय को उपाधियों के नामकरण की यथास्थिति (स्टेटसको) कायम रखा जाना व्यावहारिक एवं युक्तिसंगत नहीं है अतः संशोधित प्रस्तावित नामकरण पर स्वीकृति प्रदान की जाय।

10. Summary of Recommendations
made by the Inspectors :

The inspection of the J.D.B. Govt. Girls College, Kota was made on the 8th June, 1978. The College is a growing institution for women with various subjects and also with preference to Home Science, Games and other co-curricular activities.

The College does need further development and in respect for which proper funds should be made available either at Govt. level or U.G.C. level. The Principal has various plans which are given in the proformas for further developments of the institution. The institution has fulfilled the required conditions and does need further development.

We are satisfied with the progress of the College and we recommend permanent affiliation be given to the institution.

असहमति-पत्र

राजस्थान विश्वविद्यालय के अन्तर्गत संस्कृत अध्ययन संकाय की दिनांक 19-6-79 को आयोजित विशेष बैठक में अभिस्तावित कार्यसूची क्रमांक 14(2) डॉ. कु. स. 79/10961-11017 दिनांक 6-6-79 में संदर्भित प्रस्ताव स्वीकृत करने के सम्बन्ध में संकाय के अधोहस्ताक्षरी सदस्य निम्नांकित कारणों से अपनी असहमति प्रकट करते हैं:—

असहमति के कारण :—

1. संदर्भित संशोधन-प्रस्ताव 'आचार्य उपाधि एम.ए. (संस्कृत) उपाधि के समकक्ष है' इस मुख्य तर्क पर आधारित है। किन्तु यह तर्क सुसंगत नहीं है, क्योंकि :—

(क) उपाधि की समकक्षता का आशय उपाधियों के परस्पर केवल समकक्ष स्तर से है, विषय-विशेष के अध्यापन की योग्यता से नहीं।

(ख) विषय विशेष को पढ़ाने हेतु योग्यता का आधार तो सम्बन्धित उपाधि में वह विषय उसका पाठ्यक्रम, पाठ्यवस्तु एवं प्रश्न पत्रों का होना होता है न कि मात्र स्तर की समकक्षता।

(ग) आचार्य उपाधि एम.ए. (संस्कृत) उपाधि के समकक्ष होने के बावजूद उस विषय-विशेष को, जो एम.ए. (संस्कृत) में परीक्षा का विषय रहा हो किन्तु आचार्य में परीक्षा का विषय नहीं रहा हो, पढ़ाने हेतु एम.ए. (संस्कृत) की वैकल्पिक योग्यता नहीं बन सकती। यदि बनाई जाती है तो यह शैक्षणिक मानदण्डों के विपरीत एक अवैज्ञानिक एवं असाधु कार्य होगा।

(घ) "प्राचीन भारत का साहित्यिक सांस्कृतिक इतिहास एवं तुलनात्मक भाषा विज्ञान" विषय एम. ए. (संस्कृत) उपाधि का परीक्षीय-विषय रहा है किन्तु आचार्य उपाधि में यह विषय सन् 1973 को परीक्षा से नवजात हुआ है। अतः जब से आचार्य उपाधि में इस विषय का प्रादुर्भाव हुआ है तब से अर्थात् 1973 से निम्न हो

2. उक्त संशोधन-प्रस्तावों में वर्णित विषय एवं पदों के लिये वर्तमान निर्धारित योग्यताओं में कुछ विशेष प्रतिबन्ध निम्न प्रकार लगाये हुए हैं :—

(i) पैरा (ए) में विश्वविद्यालय को आचार्य उपाधि 1973 एवं बाद की ।

(ii) पैरा (बी) में The basic qualification shall be ...

(iii) पैरा (सी) में तो रखा हो N.B. के रूप में है साथ The Head must possess the Master of Arts degree in Sanskrit in place of Acharya degree का ही उल्लेख किया गया है ।

उपर्युक्त प्रतिबन्ध लगाने के पीछे जो कारण थे क्या वे अब दूर हो गये हैं । यदि हाँ तो जिस सीमा तक दूर हुए हैं उस सीमा तक ही प्रतिबंध हटाया जा सकता है । अर्थात् आचार्य परीक्षा सन् 1973 से “प्राचीन भारत का साहित्यिक सांस्कृतिक इतिहास एवं तुलनात्मक भाषा विज्ञान” विषय आचार्य उपाधि में प्रादुर्भूत हो गया है; अतः शास्त्री कक्षाओं में इस विषय के लिये लगाया हुआ प्रतिबन्ध who possessed his Acharya Part III Exam. in 1973 and onwards यथावत रखा जाय, हटाया नहीं जाय तथा लेक्चरार-आचार्य स्तर एवं विभागाध्यक्ष आचार्य स्तर के लिये भी एम.ए. (संस्कृत) योग्यता के साथ आचार्य उपाधि who possessed his Acharya Part III Exam. in 1973 and onwards वैकल्पिक योग्यता (प्रतिबंध) वर्णित विषय के लिये अभिलिखित किया जाय ।

3. प्रस्ताव के (सर्वप्रथम सीधे सिण्डिकेट बैठक दिनांक 29.4.79) में प्रस्तुतीकरण, समर्थन में हस्ताक्षर अभियान आदि में निहित-स्वायं एवं दबाव की नीति अर्न्तनिहित प्रतीत होती है ।

यदि उक्त प्रस्ताव संकाय की विशेष बैठक दिनांक 19.6.79 में पारित हो जाती है तो कृपया असहमति-पत्र के रूप में उपर्युक्त बिन्दु इस प्रस्ताव के साथ ही विचारार्थ एकेडमिक कौंसिल की बैठक में प्रस्तुत कराने की व्यवस्था करें ।

4. Grants :

- (a) Are the recurring and non-recurring All the grants provisions in the college budget are fully utilised

राजस्थान विश्वविद्यालय की हैण्डबुक पार्ट II बाल्यूम I के अध्यादेश 65 अध्याय xx शीर्षक IX Faculty of Sans. Studies के अन्तर्गत पैरा (a) (b) (c) तथा शीर्षक XI Minimum qualification for Principals of affiliated Colleges के अन्तर्गत पैरा (1) में वर्तमान निर्धारित शैक्षणिक योग्यताओं में संशोधन हेतु निम्न प्रस्ताव प्रस्तुत है :—

प्रस्ताव संख्या 1.

पैरा (ए) का सब पैरा (i) For teaching main optional subject के लिये वर्तमान निर्धारित योग्यता “आचार्य” उपाधि के साथ वैकल्पिक योग्यता एम.ए. (संस्कृत) उपाधि का निर्धारण और किया जाना चाहिये। अतः प्रस्ताव स्वीकृत कर इस सब-पैरा के अन्तर्गत समग्र रूप में निम्नलिखित प्रकार संशोधित योग्यता अभिलिखित करना अपेक्षित है :—

- (1) For teaching main optional subjects : At least a second class Acharya Degree in the subject concerned.

or

At least a second class Master of Arts Degree in Sanskrit with the specific group of papers in the subject concerned.

उक्त संशोधन—प्रस्ताव का औचित्य यह है कि :—

- (क) राजस्थान विश्वविद्यालय द्वारा “आचार्य” उपाधि तथा “एम.ए. (संस्कृत)” उपाधि की परस्पर समकक्षता स्वीकार की गई है। अतः जिस कक्षा स्तर एवं विषय के लिये “आचार्य” उपाधि को अध्यापनार्थ मान्य किया गया है एवं तद्वत् कक्षा स्तर एवं विषय के अध्यापनार्थ एम.ए. (संस्कृत) उपाधि को भी स्वाभाविक रूप से मान्य किया जाना चाहिये।
- (ख) आचार्य उपाधि की भांति एम.ए. संस्कृत उपाधि भी वेद, साहित्य दर्शन, धर्मशास्त्र इत्यादि मुख्य विषय-वर्ग लेकर निष्पन्न होती है। अतः विषय विशेष को पढ़ाने हेतु तत्तत् विषय की आचार्य उपाधि के समान ही तत्तत् विषय की एम.ए. (संस्कृत) उपाधि को भी अर्हता का नैसर्गिक अधिकार बनता है।
- (ग) आचार्य तथा एम. ए. (संस्कृत) दोनों ही उपाधियों के तत्तत् विषय विशेष की पाठ्य वस्तु में भी प्रायः एक-रूपता है। यथा-साहित्य विषय में।

8. Hostel whether facilities provided are adequate. No Hostel facilities exist. The same is badly needed as the College is situated about 5 km. from Sujangarh 8 km. from Ladnun and 2 km. from Jaswant Garh.
9. Is Medical Examination of the students held. No such facility exists at present as explained at SNI (VI)
To summarise the college immediately needs the following

provisions :

1. Staff quarters.
2. Hostel facility because the college is far away as explained on S.N. 8.
3. Library grants in the sanctioned budget are not adequate to serve to the growing strength of students, efforts may be made to secure matching grants from the UGC. The Government be requested to provided more grants for the purpose.
4. In view of the conditions mentioned at S.No. 8 it will be very neccessary that college may provide its own bus service for students in order to a void student unrest due to the rough behaviour & irregular services of the Roadways.
5. The existing rooms are inadequate to accommodate the fast growing student population requirement. In this connection it is suggested that other more rooms be got constructed or facilities may be arranged to permit use of the accomodation avaiable in the nearby Science College, Ladnun.
6. Immediate steps are needed for suitable medical facilities for the students.
7. Perhaps in Rajasthan it is the only place where two Degree Colleges exist with only a road in between. Efforts should be pooled under one Principal and management to make the two colleges a more viable a purposeful unit.
8. It is our considered opinion that in order to have quality teaching residential accomodation. for the teachers on the campus is the most primary need of this place. Therefore, the University is requested to move the Government to take steps to construct the staff quarters.

Note of Dissent—Syndicate Meeting Held on 16-6-79

Ref. Res. No. 12 of the minutes of the meeting of the Syndicate :
Regarding Regular Selections :

I am of the opinion that Dr. D.C. Gautam's appointment as Micro-Analyst (Chemistry) should be held in abeyance till he is cleared in view of adverse remarks appearing in the Justice Jagat Narain Commission Report about his temporary appointment.

Ref. Res. No. 13 of the minutes of the meeting of the Syndicate :
Regarding Ex-cadre promotions :

I lodge my strong protest against the approach adopted towards ex-cadre promotions. The approach, which is based exclusively on the interview performance ignoring the career, experience, academic and co-curricular contributions, totally negates the spirit and content of the promotion Philosophy. It is not an objective but purely a subjective approach.

Had it been objective, the tragic debacle in Chemistry Department would not have occurred. It is irreconcilable to think that out of six senior lecturers including some with excellent records have been found unsuitable for promotion on the basis of the so called INTERVIEWS. What a travesty ?

I maintain that the seniority, academic achievements and co-curricular contributions should be given utmost weightage for promotion. The interview performance should constitute a very minor consideration. I, therefore, suggest that :

- (i) The assessment of Chemistry Lecturers should be re-arranged by a properly constituted Assessment Committee with one expert only.
- (ii) If by-passed, the senior persons should be reassessed objectively.
- (iii) The appointment of Dr. P. V. Bakore as Reader in Physics Department should not be held in abeyance if Dr. Gautam's appointment as Micro-Analyst in Chemistry is not withheld.

APPENDIX—I

(Ref. Res No. 3 (V) of the Faculty)

To,

The Registrar,
University of Rajasthan,
Jaipur.

Sir,

Reference your letter No. F. 10(2) Aca Reg/78/6431-43 dated 28.3.79, I am not in position to attend since I am confined to bed. Therefore, I request that these points may be placed before the faculty.

1. It has been brought to my notice that in yesterday's meeting in Principal's office it has been decided that the tutorials in IInd year be totally abolished. In Maths. tutorials form the most essential part. Hence I propose the following scheme of examination :

Ist Year

6+1 T

(Two lectures for each paper)

IInd Year

4+2 T

Two lectures plus one tutorial for each paper)

2. Subject operation Research and Computer Programming :—

Neither our teachers are conversant with the topic nor they are free. Therefore one more person competent to teach this subject be appointed. Besides this after consultation with the authorities in I.I.T., I have come to the conclusion that the period required to complete it should be minimum 10 or course content be reduced

3. Regarding C-Sessionals in Maths : In III year (c) and IV year, I want to submit that on one hand the University is going to scrap the internal assessment and on this side we are going to introduce, may be for this year but this would have its own repercussion. I do not agree with this type of arrangement, because it will be simply a mockery with the subject of Mathematics.

4. Regarding Diploma Holders, I simply want to say that it being a separate category, therefore the divisions are not awarded as the University does not give division to a student passing out supplementary examination except that marks are written

In case the faculty does not agree with my proposal my note of dissent may kindly be put in the minutes of the faculty.

Yours faithfully,
Sd/-
